SIM TALK

Linking SimGenetics to Commercial Cattle

**SPECIAL
ISSUE**

**2019
Membership
Directory**

**Member Focused
Data Driven**

Welcome

Greetings, ASA Members and All Fellow Beef Industry Partners

It is an exciting time to be involved in the American Simmental Association (ASA) due to our unprecedented collaboration across breed boundaries, as well as country and continent boundaries with International Genetic Solutions (IGS). Demand for Simmental-influenced cattle has never been greater, and science has never before played a more important role in increasing market share and enhancing the success of our members. SimGenetics bull sales experienced another very successful year and SimGenetics semen sales in 2018, as reported by NAAB, saw an increase of more than 75% compared to 2017.

The year 2018 will be remembered not only for ASA's 50th year anniversary, but also the kick-off of our new genetic evaluation, the IGS Multi-breed Genetic Evaluation powered by BOLT, the world's largest multi-breed evaluation. We also launched the Cow Herd DNA Roundup project that in just over a year has produced a 340% increase in female DNA records incorporated into our genetic evaluation, more than tripling the previous number.

The ASA has provided us with the selection tools to continue the Simmental breed as a significant contributor to the beef industry. Now that the new genetic

evaluation has been launched, the Board has pushed ASA to enhance the technology by passing a motion to allocate \$100,000 annually to genotype cattle with carcass data, in addition to the current Carcass Merit Program. Both the Cow Herd DNA Roundup project and the Carcass Expansion project will be utilized to the fullest potential, pushing ASA members' customers to the forefront of the industry.

We are so fortunate to have such a dedicated staff working in unison with the ASA Board and all other collaborating industry partners to continue to advance these goals.

We look forward to our sixth annual ASA Fall Focus, Board meetings, and educational symposium. Interaction of members at committee meetings is very important to decisions being made for the ASA. Please join us in Manhattan, Kansas, August 23-27. I look forward to seeing you there.

Gordon Hodges
Chairman,
ASA Board of Trustees

Sincerely,

Gordon Hodges
Chairman, ASA Board of Trustees

2019-2020 ASA Board of Trustees

FLECKVIEH NUMBERS

We established a network of Fleckvieh breeders stretching throughout the heart of America.

8 States, 8 Breeders, One Herd.

If combined, we make up the largest herd of Fleckvieh cattle in the USA! The only thing better than Fleckvieh cattle are the incredible people that share a passion for the breed, agriculture and the next generation. We strive to create friendships centered around cattle, not just a one-time customer! Our mission is simple: To provide the bulls, females and frozen genetics that you **NEED** and **DESIRE**. Working closely with one another, our goal is to meet your cattle needs and exceed your expectations with **FLECKVIEH** genetics!

Next Step Cattle Co.

New Herd and AI Sires at Next Step Cattle Co.

These new herd sires and AI sire are being mated to the top cows at Next Step Cattle Co. These matings will produce the superior bulls that will assist our customers to take the Next Step in reaching their production goals. These bulls will sire profitable feeder calves that have the genetic ability to be efficient in the feed-yard and produce high-quality and top-yielding carcasses.

Sales:
Southern Excellence Sale, North Alabama Bull Test, and private treaty sales. This year we have a large selection of outstanding BWF bulls for sale at the farm.

Wells Farm's goal is to supply commercial cattlemen with a large group of quality Simmental and SimAngus™ bulls to choose from in a relaxed setting at the farm. We pay special attention to disposition, carcass traits, and conformation. We would like to invite you to become one of our repeat customers who use us each year for their bull purchases.

Is Carcass Merit Vital to Your Business?

We would like to work with you on your sire-identified, terminal calves.

- ◆ Free semen on the nations top herd sire prospects
- ◆ Free genetic evaluation (EPDs and Selection Indexes) on your cowherd
- ◆ \$60 paid per CMP sired carcass record
- ◆ DNA tests performed on terminal calves

**This is a structured young sire test so please inquire about qualifications and expectations.*

- ◆ Free 50K DNA test on all sire-identified terminal calves with carcass data
- ◆ DNA Parentage included
- ◆ Allflex Combo kits (Dangle tag, EID and TSU) provided at no cost

**This is an ongoing research project, participants are limited so please inquire about availability.*

Contact lgieess@simmgene.com for more information regarding both programs.

Sigmon Simmentals is a first-generation Simmental influenced cow-calf operation in Berryville, Arkansas. Founded in 1994, Mike and Lisa have since grown the herd to include 95 purebred Simmental and crossbred cows. The operation really flourished when their children, Kylee and Logan, began showing cattle in 2008.

PROVEN PRODUCERS

produce powerful bulls

BRIDLE BIT MISS B452 ASA# 2871472

BRIDLE BIT HAWK F883

B452 son purchased by Barker Cattle Co. of Idaho.

COLORADO BRIDLE BIT E752

B452 son purchased by Trainger Simmentals of North Dakota.

BRIDLE BIT MR E799

B452 son purchased by Leachman Cattle of Colorado.

BRIDLE BIT VIP F875

B452 son purchased by Beggars Diamond V of Montana.

Bridle Bit cows are bred for performance adaptability and to produce bulls that perform in any environment. Cows like B452 consistently produce affordable, rough terrain bulls backed by years of performance testing, ultrasound, genomics and GrowSafe data.

Increase EPD Accuracy

If you are interested in knowing more about your young animals, ASA can help.

Three panels are currently offered. These panels include parent verification and improve the accuracy of EPDs.

GGP-HD – \$90.00

Required for AI Sires and Donor Dams

GGP-LD – \$50.00

Recommended for all other animals

GGP-uLD – \$33.00

Recommended for replacement heifers

Genotyping performed at **GENESEEEK**

The Right Tool. The Right Time.

Serious commercial producers, are you eager for rapid genetic progress previously only available to seedstock producers? Your time has come!

Through the American Simmental Association and International Genetic Solutions, profit-focused and data-driven commercial beef producers now have EPDs, Indexes, and DNA technology at their fingertips — for a fraction of the cost!

Your ultimate goal is to ensure that your ranch remains profitable for your kids and grandkids. The suite of ASA Commercial Services allows you to position future generations for the demands of tomorrow's beef industry.

You've patiently waited your turn.
It is time!

Educational Marketing and Awareness

ASA provides a wide array of approaches and services that speak to most anyone within the beef business. Our membership is progressive and innovative and expects ASA services to be equally cutting edge. As such, our marketing efforts must keep pace and often take on an educational twist — ranging from highlighting the genetic prowess and profit power of SimGenetics to providing awareness of many of the ingenious tools available to all segments of the industry. Our business, and the everchanging multimedia landscape, necessitate we be nimble and adaptable in marketing efforts.

Target Audiences and Approaches

ASA membership and their existing customers.

- ◆ ASA publications, weekly enews platform, and a subset of traditional advertising and promotional pieces.

Potential members or customers who would benefit from an ASA or IGS relationship: profit-focused commercial bull buyers, elite female purchasers, or serious seedstock providers looking for a better genetic service provider.

- ◆ Print and digital media with a topic-focused educational approach geared to start conversations with this audience.

Serious industry influencers: extension or association personnel, leaders in the feedlot or packing sectors, marketers of large volumes of Simmental influenced genetics, or movers of high-value feeder calves.

- ◆ Promotional events, well-placed articles and ads, and engaging those serious drivers of social media traffic to speak of the value provided by a relationship with ASA and, when appropriate, IGS.

It quickly becomes clear that one size does not fit all and doing things the way we used to do simply doesn't have legs in today's climate. We must be flexible and spend resources responsibly to have the desired impact. It is also clear, by any metric to measure success, ASA is responsive and successful in navigating the changing promotional market.

Advertising

Advertising is no longer limited to print media — it is a larger campaign utilizing new resources. Ad clicks for national publications, online and print readership of *SimTalk* and *the Register*, in-house produced sale flyers, and eBlasts are all included in ASA's multi-layered advertising efforts to add value to SimGenetics.

Advertising is also increasingly customized to have the desired result at the most reasonable price point. Ongoing reviews of current marketing campaigns and strategies, continual development of materials in line with current industry topics and concerns, and collaborative efforts with International Genetic Solutions (IGS) partners when prudent, are always front and center for ASA.

Digital Platforms

Multimedia continues to provide ASA unique methods for outreach. These methods can crossover a variety of platforms. Content and engagement can be driven from different channels and often causes an interactive approach between traditional websites, social media channels, video marketing, and phone-based apps.

ASA offers a robust **website lineup** with timely information and an array of materials:

- simmental.org
- internationalgeneticsolutions.com
- fallfocus.org

Social Media platforms look to connect with the various audiences through different forms of engagement that include promotional/awareness pieces, educational materials, and youth-oriented information. Find ASA, AJSA, and IGS on social media.

Trade Show Booths

Trade show booths are a tried-and-true method of reaching SimGenetics enthusiasts. They are a major first step in developing new ASA and IGS relationships and are a necessary platform to continue engagement going forward. ASA develops attractive booth displays that garner attention at a wide array of trade shows on an annual basis.

Building Blocks of Commercial Genetic Awareness

Cow Herd DNA Roundup

IGS Feeder Profit Calculator

Total Herd Enrollment - Commercial

Unprecedented awareness of your calves. **NO COST!**

Feeder Profit Calculator

Before you load that new bull . . .

There is something you deserve to know.

The Problem: Cattle feeders are experiencing abnormally high death loss with many straightbred calves.

The Solution: Responsible Crossbreeding with Simmental

Highlight the health and genetic value of your Simmental influenced calves through the IGS Feeder Profit Calculator.

What's She Worth?

Finally commercial cattlemen can use the same genetic tools as their seedstock providers.

The same of the world's largest beef genetic evaluation, Simmental's highly refined system of genetic evaluation, can be used by commercial cattlemen to make informed decisions on the genetic value of their seedstock. This allows for better selection, more efficient herd practices, and a more profitable business.

You can't know it unless you know.

SimGenetics **IGS**

If they don't load they don't pay.

We see the struggles feeders are facing with heavy-weight, straightbred calves.

Carcass weight may be critical, but your Simmental's ability to produce calves that make it on the truck.

Crossbreeding and Intensity - select Calving Ease without sacrificing Marbling and Gain.

Let us help you and identify responsibly crossbred calves.

Democratize a truly purebred justification through the IGS Feeder Profit Calculator.

Feeder Profit

IGS International Genetic Solutions

The Right Tool. The Right Time.

IGS Commercial Tool

Feeder Profit Calculator

IGS Commercial Tool is the only genetic evaluation tool that provides a comprehensive view of your herd's genetic potential. It allows you to compare your herd's performance to the industry average and identify areas for improvement.

SimGenetics **IGS**

✓ More Pounds.
✓ More Muscle.
✓ More Marbling.
✓ More Profit.

Success. SimAngus™.

The study we present today is a good example of how you can use the genetic tools we offer to your advantage. It shows that SimAngus is a breed that consistently meets the needs of the beef producer.

ASA RING OF CHAMPIONS 2018-2019

SimGenetics

Only the best have shown themselves in the Ring of Champions of the ASA. The ASA Ring of Champions is the highest honor a Simmental breeder can receive.

Award Divisions:

- National Simmental Sire of the Year
- National Simmental Dam of the Year
- National Simmental Bull of the Year
- National Simmental Cow of the Year

Qualifications:

- Must be a purebred Simmental
- Must be a member of the American Simmental Association
- Must be a member of the ASA
- Must be a member of the ASA for at least one year
- Must be a member of the ASA for at least one year
- Must be a member of the ASA for at least one year

Additional Information:

Look for the ASA Ring of Champions award at the ASA National Show and Rodeo in Denver, CO.

State Association Support

State association support is a major focal point for ASA staff. Passionate breeders and state associations are vital to the success of both sharing the industry-changing strengths of SimGenetics and expanding the use of Simmental and Simmental hybrids. It is ASA's job to aid the state groups in this effort.

ASA has two programs for state association participation:

Cost Share:

- ◆ The Cost Share Program provides reimbursement funds for state association advertising and breed promotion.

Check-Off:

- ◆ The Check-Off Program is an incentive-based reimbursement calculated on animal registrations within each state.

For more detailed information, check out pages 168 and 169 or www.simmental.org.

ASA produced a series of informational, educational, and promotional videos. These can be found on various platforms on simmental.org, Facebook, and YouTube.com.

Junior Program

Darla Aegerter
Youth Programs & ASF
Foundation Manager

ASA welcomes Darla Aegerter to coordinate AJSA Regional and National Classics, other assigned youth events, and work closely with the AJSA Board.

Youth Programs

The American Junior Simmental Association (AJSA) is the official youth organization of the American Simmental Association. Founded in 1975, the AJSA has nearly 3,000 active members.

AJSA programs build a comprehensive understanding of the beef industry while developing leadership, networking, and communication skills. The AJSA is governed by 16 AJSA Trustees, each serving a two-year term. Trustees generate leadership and educational activities, make recommendations for new programs, and work to strengthen the leadership potential of junior members and promote Simmental cattle.

AJSA Summer Classics

Each summer, youth from around the nation gather to compete in the AJSA Summer Classics. Exhibitors not only show their cattle, but also compete in educational contests. Through these contests, the AJSA develops highly-skilled young breeders motivated to continue in the beef and agriculture industries.

Regional Classics

Regional Classics are hosted by a state Simmental association in each of the ASA's four geographical regions. Held in June, Regional Classics are, for many members, a warm-up for the National Classic. Regionals are a fun-filled week of friends, cattle, and educational contests.

National Classic

The National Classic is the highlight of AJSA summer events and is co-sponsored by the American Simmental Association and the host state Simmental association. The National Classic provides an opportunity for AJSA members to showcase knowledge of their cattle and the industry. Unlike any other beef breed junior national event, the AJSA requires exhibitors to compete in educational events in order to exhibit cattle. Educational competitions include public speaking, sales talk, cattlemen's quiz, genetic evaluation quiz, and livestock judging, all of which help to develop confidence and communication skills. Juniors from across the country vie for top honors to place in the Top 20 of each of the contests and the esteemed Overall Top 20 of each age division (junior, intermediate, and senior).

Activities showcased at the National Classic include:

- ◆ Bred and Owned and Owned Simmental, Percentage Simmental, Simbrah, and Fullblood female, cow-calf, steer, and Bred and Owned bull shows
- ◆ Showmanship
- ◆ Cattlemen's Quiz
- ◆ Calvin Drake Genetic Evaluation Quiz
- ◆ Sales Talk
- ◆ Public Speaking
- ◆ Livestock Judging
- ◆ Photography Contest
- ◆ Interview Contest
- ◆ Junior Herdsman of the Year
- ◆ Recognition of Merit Award winners
- ◆ Steer Profitability Contest recognition

Summit Leadership Conference

While the Regional and National Classics promote show cattle and educational contests, the IGS Summit Leadership Conference focuses on leadership development. Junior members, parents, and advisors from all over the country participate in the event. IGS Summit features nationally known speakers, visits to farms and ranches, and workshops designed to enhance leadership development, communication skills, and beef industry knowledge.

Scholarship

Each year the American Simmental-Simbrah Foundation awards over \$37,000 in scholarships to AJSA members receiving the Silver and Gold Merit Awards at the AJSA National Classic.

Steer Profitability Competition

The AJSA Steer Profitability Competition (SPC) is designed to provide AJSA members meaningful exposure to the opportunities and challenges associated with cattle feeding. The SPC not only allows participants to measure and compare profitability of their own animal(s), but of greater importance, introduces young beef enthusiasts to peers, mentors, industry advocates, and experiences that are exceedingly difficult to acquire for any beef producer. Juniors who compete in this competition and at the National Classic may have SPC points contribute to their overall score at the National Classic.

Sale Date:
Callaway Cattle Company's
AFFORDABULLSALE, Saturday
before Thanksgiving each year.
November 23, 2019

*We are located in west central Georgia,
just 45 miles south of the Atlanta
airport. We live in the Corinth
community four miles north west of
Hogansville where GA Highway 100
splits our farm.*

*At Callaway Cattle Company we strive
to produce highly fertile, structurally
sound, functional cattle with perfor-
mance, longevity, eye appeal and
balanced EPDs.*

*We would welcome the opportunity to
drive you through our pastures and let
you see our cow herd for yourself. We
invite you to contact us and come visit
any time. We enjoy visitors and talking
to cow folks.*

Educational Promotion of ASA's Services and Programs

ASA expanded the opportunities for members to request a knowledgeable person to attend their event (pending availability). This may be a formal presentation, as one of the speakers at an event, or a few minutes in front of the crowd with an invite to consult one-on-one about ASA's programs and services. We are seeking members who would like an event to be considered. Notify ASA if you meet at least one of the five parameters.

1. Audience Qualifier

Must have a minimum of 25 individuals in attendance; highlighting ASA program(s); event must align with ASA goals and programs; ASA personnel must be the focus for at least 30 minutes or 50% of the event.

2. \$3,500 in Business with ASA

(within a fiscal year) per membership; must allow some form of education or program awareness.

3. \$2,000 in Advertising with ASA Publication

Must be a singular membership/account or a collaborative sale; must allow some form of education or program awareness.

4. \$500 "Buy-a-Day"

Must allow some form of education or program awareness.

5. State Associations

State associations receive two free days per year for ASA attendance; must allow some form of education or program awareness; one of the two days must be a commercially-oriented event.

Sale Date:
Bulls of the Big Sky,
Billings, MT,
February 17, 2020

Our genetics originate from purchases we made in 1992, but we use today's leading edge genetics to make cattle that can perform for the commercial and seedstock producers with today's needs. We are very excited to continue to build and celebrate the 11th Annual Bulls of the Big Sky Sale February 17, 2020. Our females join the Montana's Choice Sale December 7, 2019.

Sale Date:
Annual production sale. Offering PAP tested SimAngus, Angus, and Fleckvieh bulls and females. Sale date will be Friday March 20, 2020.

Vertical Edge Genetics specializes in producing Angus and SimAngus™ seedstock that thrive in the high elevation, arid West. We demand moderate-framed cattle that are easy-fleshing with a strong work ethic for efficient performance. We utilize Fleckvieh bloodlines to produce our SimAngus™ cattle. We would love to visit with you anytime and enjoy showing the cowherd to visitors.

6th Annual ASA Fall Focus 2019

Focus on You.
Focus on Success.
Focus on Profit.

Manhattan,
Kansas

August 23-27, 2019

Co-hosted by the

Speakers include

- Dr. Michael Dikeman, Kansas State University
- Dr. Bob Weaber, Kansas State University
- Dr. Megan Rolf, Kansas State University
- Dr. Jennifer Bormann, Kansas State University
- Craig Uden, Darr Feedlot Inc.
- Charly Cummings, Superior Livestock Auctions
- Dr. Ken Odde, Kansas State University
- Coach Bill Snyder, retired KSU football coach, (Saturday Lunch)
- Dr. Kenneth Burton, National Bio and Agro-Defense Facility Coordinator, (Sunday Lunch)
- Various ASA Staff

Questions about the Fall Focus?

Contact: Nancy Chesterfield at 406-587-2778
or Jackie Atkins at 406-587-4531

Complete program details will be available in
the July/August issue of *the Register*.

2019 Registration Information

There is no registration fee; however, pre-registration
is required to plan for meals and refreshments.
Register and book your hotel rooms at

www.fallfocus.org

Schedule

Friday, August 23

Local Simmental Seedstock Operation Tours

Several breeders live within 60 miles of Manhattan, KS including River Creek Farms, Irvine Ranch, Hofmann Simmentals, Cow Camp Ranch, Sunflower Genetics, and Rock Creek Ranch. These breeders welcome visitors for tours and conversation.

Herdbook Tutorial Session

2:00 PM – 4:00 PM at the Manhattan Conference Center
Learn efficient tips and procedures to get the most out of your data in Herdbook.org.

Cattle display and evening meal (\$10) at the Stanley Stout Center

6:00 PM – 9:00 PM
Join us for an evening of Simmental breeders, brats and burgers. Several breeders will have cattle on display and a meal (\$10) will be served.

Saturday, August 24

Educational Session at the Manhattan Conference Center

8:00 AM – 5:30 PM
Join us for a day-packed educational session featuring talks from Kansas State University faculty on the genetics of fertility and research into novel traits in beef cattle. Hear a panel discussion on balancing decisions between genetic selection and showing cattle. Learn from the experts on how to provide genetics needed to help customers raise profitable and desirable cattle in the feedlot and packer sectors.

Evening meal and social at the Flint Hills Discovery Center hosted by the Kansas Simmental Association

Flint Hills Discovery Center

Sunday, August 25

Interactive committee meetings and staff presentations

8:00 AM – 5:00 PM
Join the ASA Trustees to discuss critical issues in each of the five Standing Committees and hear staff reports in various areas.

Lunch is provided

Guest speaker Dr. Kenneth Burton, National Bio and Agro-Defense Facility Coordinator.

Ice Cream Social from Call Hall

After the board meetings adjourns for the day.

Monday, August 26

Board meeting continues

8:00 AM – 5:00 PM
All are invited to stay
Lunch provided

Tuesday, August 27

Board meeting continues

8:00 AM – 10:00 AM
Voting on resolutions and directives

Hotel Information

Hilton Garden Inn (Headquarters)

The main meetings and conference headquarters are set at the Hilton Garden Inn and the attached Manhattan Conference Center. A block of rooms at the Hilton Garden Inn is reserved for August 22-27. The special room rate will be available until July 23 or until the group block is sold-out, whichever comes first. Book your reservations at the Hilton Garden Inn by following the hotel link at fallfocus.org.

Hilton Garden Inn and the attached Manhattan Conference Center

Travel Information

Manhattan has a conveniently located airport with daily flights to and from Chicago and Dallas. Alternatively the international airport in Kansas City, MO, offers several flight options and is a 2.5 hour drive to Manhattan.

Area Information

Known as the Little Apple, Manhattan is nestled in the heart of the scenic Flint Hills of Kansas. The community of approximately 55,000 serves a three-county, 130,000-population regional area as a leader in education, trade, health care, entertainment, culture and communication.

Teter Rock at sunset in the Flint Hills

Manhattan is home to Kansas State University a leading research and education institute in agriculture and beef cattle. Kansas ranks third nationally in cattle production with 6.4 million head (as of 2018 USDA report). Manhattan is in the heart of cattle country with several seedstock operations, commercial cattle ranches, and feedlots nearby. Manhattan promises a family friendly and beef centric 2019 Fall Focus.

SIMMENTAL Power of Science.

Perhaps no organization has more effectively leveraged the power of science to make better cattle and better beef than the American Simmental Association.

Our Commitment to the Beef Industry.

Committed to data collection and performance-enhancing programs to provide better tools for beef producers.

Focused on science and research to continue advancing technology.

WANTED

PERFORMANCE BREEDERS

Who are enrolled in Total Herd Enrollment (THE) and collect records on complete contemporary groups.

ASA Performance

Advocate

Prove to the world that you are serious about performance . . . become a Performance Advocate.

For more information: Call 406-587-4531

Member Services

ASA Members Represent a Diverse Group of Cattle Operations

From the traditional Simmental and SimGenetic seedstock breeder, to seedstock operations of a different breed, to progressive commercial cattle operations, ASA offers services to meet all their needs. ASA provides tools and information tailored to the varied needs of our members and their customers.

Open Herdbook Policy

ASA welcomes all breed compositions to help members produce more profitable beef cattle.

Herdbook Services

A primary function of ASA is maintaining cattle performance records, pedigrees, ownership, and other genetic information in the database. Herdbook Services gives current members electronic access to their own herd data. EPDs, dollar indexes, genetic traits and conditions, pedigree, and adjusted performance information on all animals in the database are available to the public on ASA's website. Check out www.herdbook.org for more information.

Registrations/Registration Certificates

The Association issues registration certificates based on the information in the database if certain breed and pedigree requirements are met. A registration certificate (electronic or hard copy) is a document that reports identification, ancestry, gender, ownership, EPDs, and other information. In 2018, the ASA issued 73,286 registration certificates.

Transfers Mean Opportunity

Transferring the registration certificate from one owner to another is valuable. Transfers keep member inventories current, bring the new owners into the Simmental community through *SimTalk* subscriptions, and add marketing opportunity with buyers. The first transfer is free. The most up-to-date ownership record can be found by going to herdbook.org/animal/.

DNA Services

- ◆ Approve an AI sire or donor dam
- ◆ Test an animal at risk for a genetic condition

ASA Membership Perks

- ◆ Access to Herdbook Services to report performance records, transfer animals, use planned mating tool, search EPDs, or generate reports on your herd
- ◆ Free access to our simplified cattle management software, Active Herd
- ◆ 24 hour / 7 days a week access to online registration and payments
- ◆ *the Register* and *SimTalk* magazines, Sire Source, online eNews, and eBlasts to stay informed
- ◆ Rights and privileges to elect Trustees and vote on changes to Rules and Bylaws
- ◆ Be a part of the world's largest multi-breed beef cattle genetic evaluation
- ◆ Opportunity to participate in complete herd reporting with reduced or no registration fees for enrolled animals in the Total Herd Enrollment (THE) program

- ◆ Parent-verify a purchased embryo
- ◆ Increase the accuracy of EPDs through one simple test

From basic trait testing to genomically-enhanced EPDs, ASA offers a full suite of DNA options. ASA's DNA Department can help you with all your DNA requests.

Genetic Trait and Defect Tracking on TraitTrac

ASA's genetic condition and trait tracking tool, called TraitTrac, uses DNA marker tests to provide information concerning genetic traits or conditions for animals in the ASA registry. TraitTrac indicates the status (free, at risk, or carrier) of different traits and genetic conditions based on known information on individual animals. The TraitTrac status can be viewed from the EPD/Pedigree display found in Herdbook Services under Animal Search. An animal's genetic condition status is determined from information provided to the ASA from recognized laboratories or breed associations.

Top 50 — High-Influence Bull Testing

Historically, ASA partnered with Dr. Jon Beever (University of Illinois) to test the 50 most popular sires (per year) for the main beef genetic conditions. In 2015, we expanded this testing to include voluntary submission for any AI sires and CMP sires. This program now includes over 400 high-impact SimGenetic sires tested for ten genetic conditions.

Active Herd

- ◆ A **FREE and EASY** cattle management software.
- ◆ **Keep up-to-date informal records** that can be directly imported into ASA's database.
- ◆ **Easy access:** Import existing active animal groups or create new pasture groups and animal records.
- ◆ **Stay current:** Add updated performance data: actual birth, weaning, and yearling weights; calving ease scores; and import records directly into Herdbook for most accurate EPDs.
- ◆ **Save time:** Directly register cattle by moving informal pasture groups and records into an ASA job for data submission.
- ◆ **Save money:** Active Herd is similar to other cattle management software but free with ASA membership.
- ◆ **Track Your Management Data**
 - Weaning and yearling weights and measurements
 - Herd health treatments
 - Breeding, pregnancy, calving
 - Inventory active pastures

ASA's Customer Service Team

The Customer Service Team strives to use the latest in technology through Herdbook Services to assist breeders interested in advancing their genetics and profitability. Take advantage of this team's expertise for registrations, enrollment programs, DNA services, data processing, web support, and more.

Herdbook Services Tools

Online Record Reporting

A structured way to report or update animal records 24/7.

Animal Lookup

The main animal page including EPDs, indexes, and pedigree for any animal with a known registration number, name, or tattoo.

Planned Mating

An easy-to-navigate tool for EPD estimates on calves resulting from a specific mating.

EPD Search

A user-friendly search to generate a list of animals tailored to meet your needs — members may specify thresholds for indexes, EPDs, and/or accuracies as well as coat color and horned/poled preference.

Report Generation

Download useful reports and summaries.

- Dam averages (calving intervals, BW averages, WW averages, etc.)
- Calf crop summaries
- Animal EPDs/data/ratios
- DNA summaries
- Genetic trait conditions
- Genetic trends
- Custom built herd reports

Active Herd

A free, informal management software which transfers records to Herdbook for easy data storage and use.

No matter your question, a member of our team can help you.

Sweet 16 Bull and Female Online Sale
March 2, 2020

*Rincker Simmentals is a seedstock
cow-calf operation located in East
Central Illinois. The primary herd
raises seedstock replacement and show
heifers along with select performance
bulls. Several cows are targeted for
show quality steer and heifer calves,
and our customers' success is our focus.
Annually, Rincker Simmentals makes
available the top selections from
its calf crop, along with quality
AI bred heifers.*

*Please feel free to contact us anytime
for more information on our cattle,
sales or upcoming events. Visitors are
welcome anytime.*

Sale Date:
Field of Dreams Production Sale,
October 6, 2019
Hope, Indiana
Bulls are sold private treaty!
Powerline Beef Genetics,
Arapahoe, Nebraska

Harker Simmentals has grown and changed since the 1990s. Substance, structural soundness and quality EPDs with an emphasis on maternal characteristics are a few things the Harker's use as building tools. Today, the operation consists of 150 head of purebred and percentage Simmental females and purebred Black Angus females. Fancy heifer calves are auctioned through the Field of Dreams Sale now held at the Harker's farm. Females purchased through the Field of Dreams Sale are exhibited by juniors from across the country.

If Beef is Your Business

The American Simmental Association Carcass Merit Program (CMP) is the beef industry's most demanding and informative young sire test. The program is a hallmark of ASA breed improvement for economically relevant carcass traits. Commercial producers play an integral part in this project.

CMP
ASA
CARCASS MERIT PROGRAM

 **SimGenetics**
PROFIT THROUGH SCIENCE

American Simmental Association

To learn more about the CMP visit www.simmental.org, then click Carcass Merit Program under the Commercial tab.

Questions, contact lgiess@simmgene.com for more information regarding this program.

Participants receive:

- ◆ \$60 for each AI-sired calf with carcass information
- ◆ Free semen on top young herd sires
- ◆ Free ASA Genetic Evaluation on your cowherd
- ◆ Free genotyping on terminal progeny
- ◆ Keep any or all replacement females

Become a Carcass Merit Program test herd today

**The CMP is a structured young sire progeny test. Participating cooperator herds will random sample their cowherd with CMP semen, and the resulting male (or female) progeny will be harvested with individual carcass data gathered. ASA Staff will work with cooperator herds to provide bulls that fit the general criteria of your management program, however only bulls nominated into the CMP program may be used. Producers are encouraged to be somewhat proficient in Microsoft excel for accurate and consistent record keeping.*

 November 30, 2019 on the farm
Trennepohl Farms is a diverse family farm operation. For four generations we have prided ourselves on producing some of the finest seedstock genetics and agricultural products anywhere. Through the vision and leadership of our grandfather, Howard, Trennepohl Farms beginnings trace back to some of the greatest bloodlines that the Belgian Draft Horse industry has known. It is that purebred seedstock passion that has laid the foundation for our success thus far.
 We are committed to ensuring that our products will be successful for our customers including livestock, grain, hay and straw. Thank you for your interest in our program.

KNOW.

Or guess.

Choose KNOW.

IGS is ideally suited as the benchmark in gauging feeder calf value. The IGS Feeder Profit Calculator™ leverages the world's largest beef genetic evaluation to identify the Relative Value of your feeder calves and to provide a third-party certification to data-driven buyers. All at no cost to you!

Open to majority of breeds and breed compositions.

Market with confidence and maximize your purchasing dollars.

Legal disclaimer: The projections, values, and other calculations produced by the IGS Feeder Profit Calculator™ are based on user inputs. IGS does not independently verify the information provided by users. The mathematical models and assumptions related to market conditions utilized in the IGS Feeder Profit Calculator™ may change significantly. IGS makes no representation that any IGS Feeder Profit Calculator™ projection will be realized and actual results may vary significantly from IGS Feeder Profit Calculator™ projections. The relative market values produced by the IGS Feeder Profit Calculator™ represent a relative valuation for comparison purposes only and do not represent an actual market value.

Our Purpose. Your Profit.

Mission Statement

The success of the American Simmental Association is dependent on our members' cattle making a significant genetic contribution to the beef industry. By utilizing the most advanced science, the highest priority is to maintain services and products which bring value to ASA members' customers.

Core Policies

Science	Commitment to science and development of the most effective selection tools. Advance ASA in the industry.
Membership	Development, registration and promotion of SimGenetics.
Youth	Support junior programs. Guide the junior membership and their programs to learn life skills, science and use of technology, and financial responsibilities. Involve the Foundation.
Collaboration	Commitment to partnerships with industry leaders and universities to advance research and science. Advancing selection tools, DNA-enhanced EPDs, and monitoring genetic defects.
Promotion	Promotion and marketing to enhance our members' market share. Ensure that SimGenetics continues to appeal to the commercial industry.
Data Growth	Offer the most advanced genetic evaluation services with the largest genetic evaluation services with the largest database regardless of breed.
Financial Stability	ASA will maintain sufficient financial reserves to assure leadership in the beef industry, funds for continued research and development, and a thriving breed association.
Services	Offer programs relating to all beef production segments. Be leaders. Step outside traditional practices and offer opportunities for our members to grow in the industry.
Education	For advancement and profit of our members and their customers.

Linking Simmental Genetics to the Beef Business!

Back in 1987, when the American Simmental Association made the decision to bring its official magazine in house, the staff was given a mission: "to provide communication, education, and information" to the membership.

First, under the banner of *the Register*, and later when *SimTalk* and for a time, *American Simbrah*, were added under the larger umbrella of ASA Publication, Inc., the editorial and advertising staff has adhered rigidly to the original mission.

Today, numerous other responsibilities have been added, including an Annual Meeting Report, a Breeder's Directory, Sire Source, sale catalogs, press releases, and web marketing, among many others.

Communication:

- ◆ ASA's magazines, *the Register* and *SimTalk*, provide an outlet for members to stay up-to-date on industry events, fellow breeders' sales, and state association events, while also allowing members the opportunity to communicate their events.

Education:

- ◆ ASA taps into the rich knowledge of the staff by creating educational articles, and gives members access to additional educational resources and much more through a variety of platforms ranging from print to social media.

Information:

- ◆ Keeping abreast of industry news, the state of SimGenetics in the marketplace, and having a source for accurate information is important for producers. ASA Publication is committed to providing up-to-date industry news and information.

An Effective Outlet for Advertisers

With the increasing demand for SimGenetics, now is the perfect time to create a specific marketing plan to access the growing number of breeders and potential customers. ASA Publication, Inc. has all of the resources to help you create an effective marketing strategy.

Advertising with ASA provides added value beyond the ad. Your sale date will be published in *the Register* and *SimTalk* Datebooks, on simmental.org, and sale reports with averages, high-sellers, and up to four photos printed in *the Register*.

the Register

Serving as ASA's official publication, *the Register* has a circulation of 6,000 and focuses primarily on the active membership. Mailed nine times annually, *the Register* provides a direct and consistent line of communication to the ASA membership in a glossy, full-color format.

SimTalk

Published four times annually, *SimTalk* is a glossy, full-color publication with a circulation of over 40,000. With a focus on the Simmental breed's role in the commercial industry, each issue of *SimTalk* finds its way to commercial cow-calf producers, feedlots, and much more.

ASA Membership Directory

Increase your brand recognition and introduce your program to thousands by advertising in the ASA Membership Directory, mailed annually in June. Breeders reference this publication year-round, and new buyers use it to get into the Simmental business. Thousands more are handed out each year to your potential customers at trade shows and Simmental events.

Date Book

Listing of sales by month. Printed in each issue of *the Register* and *SimTalk*. No charge, no requirements.

Mailing Lists

Whether you are mailing a sale catalog or one of our special-design promotional projects, we can help you obtain a custom mailing list that specifically targets your ideal demographic.

Sales Call

If you have recently advertised in *the Register* or *SimTalk*, you are automatically included in Sales Call prior to your sale. Broadcast to over 7,500 subscribers, Sales Call announces the date of your sale, and provides a link to your catalog or website.

Incredibly Affordable Full-Color Catalogs

With direct access to ASA's database, our design team can provide quicker, more efficient catalog services. Contact Nancy Chesterfield for a free quote on our low-cost, full-color printing options.

Web Marketing

eBlast — Get the word out about your upcoming event by emailing over 7,000 ASA members and subscribers. This is ASA's most popular form of web promotion and is an affordable, effective option.

Banner ad — Place your ad on the Home page of Simmental.org, Sales Call, in our new phone app — SimmAPP, or in weekly editions of ASA's eNews.

Additional Services

Our experienced design staff can assist you in developing any form of creative printed promotion. Projects we can produce include:

- ◆ State directories
- ◆ Flyers
- ◆ Postcards
- ◆ Logos
- ◆ Business cards
- ◆ Banners
- ◆ Printed catalogs
- ◆ eBlast ads
- ◆ Brochures
- ◆ Photo retouching
- ◆ Booths
- ◆ Downloadable PDFs
- ◆ Websites
- ◆ Online catalog flipbooks
- ◆ Posters
- ◆ Save-the-date postcards

Transfer Services

Here's how it works: We provide a simple spreadsheet that contains all of the sale lots. Following the sale, return the completed spreadsheet to ASA — all we need is a record of the buyer number(s) on each lot and a list of your buyers. We'll handle it from there, matching buyer information to ASA memberships and completing the transfers.

- ◆ It saves you time and postage expenses when we complete the transfers online.
- ◆ Ownership is updated immediately. As soon as you give the green light, we can mail the certificates directly to the new owners or send them to you.
- ◆ Saves you the hassle of dealing with the paper certificates.

Sire Source

A directory designed to assist in the promotion of semen sales of quality Simmental, SimAngus™ and Simbrah bulls. This directory is mailed each spring to every ASA member in order to target potential clients at the height of the semen sales season. Thousands more are handed out at trade shows and industry events, and carried by ASA SimSpecialists throughout the year. We also offer the opportunity to promote additional sires in the online version of Sire Source anytime during the next year. Promoting your bull in the online version opens huge marketing avenues for you.

Here's what you get:

- ◆ Instant access through online Sire Source Catalog.
- ◆ Print version in hard copy at no cost to you.
- ◆ Discount on a full or half-page ad in *the Register* or the *SimTalk* anytime during the online post.

Introduce your Sires to the Industry

Sire Source is a Valuable Tool

A directory designed to assist in the promotion of semen sales of quality Simmental, SimAngus™, Simbrah, Fullblood bulls and bulls of other breeds. This directory is mailed each spring to every ASA member in order to target potential clients at the height of the semen sales season. Thousands more are handed out at trade shows and industry events, and carried by ASA SimSpecialists throughout the year. We also offer the opportunity to promote additional sires in the online version of the Sire Source anytime during the next year. Promoting your bull in the online version opens huge marketing avenues for you.

Sire Source users favor the standard format utilized in displaying listed bulls, which allows potential buyers to compare “apples to apples,” as every animal is presented in exactly the same format with information laid out on each page in identical fashion.

Here's what you get:

- ◆ Print version in hard copy at no cost to you.
- ◆ Instant access through the online Sire Source Catalog.
- ◆ Discount on a full page ad in *the Register* or the *SimTalk* anytime (one time only) during the online post.

Online Version of Sire Source:

- ◆ Easy to promote additional sires during the year.
- ◆ Current sires can be updated during the year — new bull photo, new bullet points, new support photos.
- ◆ Direct link to your bull in HerdBook.
- ◆ Promoting your bull in the online version opens marketing avenues for you.

Sample of the online Sire Source.

The table below clearly illustrates the increased popularity of the Sire Source as a promotional tool.

Sire Source number of bulls listed by year

	2011	2012	2013	2014	2015	2016	2017	2018	2019
Simmental	33	41	40	55	69	71	72	60	79
SimAngus™	16	14	17	39	59	78	86	86	77
Simbrah	1		4	3	4	4	8	10	
Fullbloods									1
Angus	2	1	1	2	1	1	1	1	2
Red Angus							1		
Total Bulls	52	56	62	99	133	154	168	157	159

Samples of the printed bull pages in the 2019 Sire Source.

Contact Nancy Chesterfield at 406-587-2778 or nchesterfield@simmgene.com to promote your bull(s) in the online version of the Sire Source or learn about listing bulls in the 2020 print edition.

Sale Date:
Value Based Genetics Sale, February
1, 2020, Decorah, IA. Herd improv-
ing bulls, females and embryo
matings available at all times.

*Our mission statement has become
simply: "VALUE BASED GENETICS".
Every selection criteria we use has an
economic benefit or cost. Selecting for
phenotype only without considering
feed efficiency, reproductive efficiency,
carcass, or growth would be disastrous
just as ignoring phenotype would
limit marketing. Our goal is to
produce the best females possible by
multiplying proven cow families and
incorporating value parameters on
their performance.*

Sale date:
Gold Bullion Group's 17th Annual
Sale, March 1, 2020

We have been breeding red and black Simmentals along with SimAngus™ genetics since 1986. We breed cattle that are structurally correct, moderate framed and deep bodied with plenty of muscle. Calving ease and maternal traits are very important as well as carcass quality. However, we will not sacrifice performance as we feel that is a major strength of the Simmental breed. The ranch is located 4 miles east and 5 miles north of Manhattan, Kansas. Feel free to drop by any time to look at our herd or the cattle we are currently offering.

Sale Date:

Annual Production Sale
March 25, 2020
LaCrosse, KS

Diamond H Ranch began in the spring of 2007. We purchased our first cow herd, which consisted of 30 pair. That summer we began preparing ourselves for the year to come. From building fence to working calves, we set our minds on one goal and that was to provide high quality genetics that would satisfy the needs of any producer, while increasing our customer's bottom-line. Red Angus and Red SimAngus™ cattle are the two breeds that we work with. In an industry with ever changing demands to produce a higher quality and more identifiable beef, we hope that our offering will aid in that quest.

We now have a cow herd consisting of 150 registered pairs and develop 75-100 replacement quality heifers. We have made several improvements and the ranch has continued to expand.

Our cattle have seen some very tough conditions over the years, but have managed to stand strong in both the hard and prime conditions. Through it all, we have persevered and we hope that our cow herd will only continue to grow so that we may provide you with the high-quality genetics that you are seeking.

Again, we thank you for your interest and for giving us the opportunity to serve you as a seedstock producer.

PROVEN GENETICS ...

Predictable Results

For over 30 years, we have been committed to raising cattle that work for a living and perform profitably.

We're proud to have always been involved with a breed that provides solutions to the entire beef industry, and look forward to a bright future with SimGenetics.

Some of our past sale successes:

Plan now to join us at the farm:

We, along with our Simmental sale partner, Klein Ranch, invite you to visit the farm during this year's Fall Focus in Manhattan, KS. We look forward to meeting you!

Sale:
We have bulls, cows, heifers,
semen and embryos for sale.

Jensen Simmentals breeding program concentrates exclusively on Fullblood Fleckvieh Simmental cattle. We have used full Fleckvieh bulls from the beginning and are in our fifth decade. Fleckvieh cattle have become increasingly popular due to their moderate frame, docile nature, and fleshing ability. We have concentrated on low birth weight, fast-growing cattle when selecting our bulls.

Sale Date:
First Wednesday in March

Klein Ranch is located in northwest Kansas and has been raising black and red registered Simmental and SimAngus™ cattle since 2005. Our family has been raising cattle since the 1930 in Rawlins County, KS. We strive to create cattle that are moderate in frame with performance in growth and carcass. Cows have sound feet with calving ease, fertility, and mothering ability. We take a balanced approach in selecting EPDs that will produce quality cattle that will fit the cattleman's needs. We currently are a part of the Cow Herd DNA Roundup. Visitors are always welcome.

Mission Statement:

The mission of Maxey Valley Farms is to communicate the importance and uniqueness of our heritage to subsequent generations and provide a strong foundation that will enable them to grow, prosper, and build on that legacy.

Please contact us with inquires about our operation and cattle availability, semen sales, and pricing or to discuss this remarkable breed of beef cattle I so fondly call "Traditional" Simmentals.

The Maryland Simmental Association will be sponsoring a number of Junior Simmental Show Divisions throughout Maryland to help promote and obtain recognition for the Simmental Breed.

We sincerely wish our juniors all the best with a fun and successful show year.

Progress Through Performance

The American Simmental Association's Progress Through Performance (PTP) program reflects an industry reality that producers routinely balance between phenotypic evaluation and scientifically-proven, industry-relevant EPDs and indexes. The ASA's sanctioning of worthy shows throughout the country aids in furthering the Association's mission and efforts to highlight SimGenetics to a wide and enthusiastic audience.

New PTP judge applications and all existing PTP judges are reviewed by the ASA Board of Trustees Activities and Events Committee (A&E). A&E seeks judges who are effective visual evaluators, understand and appreciate the value of sound science plus have a willingness to thoroughly discuss the cattle presented to them. Approved judges are highly esteemed cattle evaluators, aware of the EPDs and indexes used by the ASA.

The list of PTP-approved judges, the PTP judge nomination process, and pertinent PTP show information can be found at simmental.org. A&E and ASA staff consistently monitor the PTP program and are constantly in search of methods to enhance and elevate the program. 2019 will continue to provide strategic opportunities to hone the program and its alignment with ASA mission and membership interests.

ASA Ring of Champions

The ASA Ring of Champions program, implemented during the 2017-2018 show season, recognizes the most successful SimGenetics exhibited at the four largest PTP shows: American Royal, North American International Livestock Exposition, National Western Stock Show and Fort Worth Stock Show. Awarded divisions include Purebred Simmental Bull and Heifer of the Year and Percentage Simmental Bull and Heifer of the Year. After awarding points for placings in individual classes, divisions, and grand and reserve championships, the highest point earners are crowned as royalty in the ASA Ring of Champions at the end of the show season.

BREED FOR PROFIT

Utilize the #1 Tool to Maximize Terminal Value

TI Terminal Index

For more detailed information on TI, visit:
www.simmental.org

 **IGS** International
Genetic Solutions
beef@internationalgeneticsolutions.com
www.internationalgeneticsolutions.com

 **SimGenetics**
PROFIT THROUGH SCIENCE
American Simmental Association

Designed to work best when selecting sires for use in herds that finish all calves and sell on a grade and yield basis.

Uses USDA technology and CattleFax price projections to predict profit differences between sires in units of \$ per exposed female.

ASA utilizes the industry's most comprehensive sources of multi-breed carcass genetic predictions (MARC and IGS) to establish \$TI as the most effective terminal selection tool.

SimTALK

Linking SimGenetics to Commercial Cattle

Published four times annually with a special edition Breeder Directory, *SimTalk* is a glossy, full-color publication with a circulation of 40,000+ targeting commercial users of SimGenetics. Advertising in *SimTalk* provides a unique opportunity to brand and trademark your program to thousands of potential customers. If you are serious about communicating with the commercial beef business, consider an advertising presence in every one of our four annual issues.

ASA Publication's *SimTalk* Production Schedule Deadlines

	Sales Close	Ad Materials	Camera Ready	Mail Date
Early Fall 2019	July 23	Aug 1	Aug 12	Aug 26
Late Fall 2019	Sept 20	Sept 27	Oct 7	Oct 21
January 2020	Nov 25	Dec 13	Dec 20	Jan 13

Education

One of the first places commercial cattle producers go for help in understanding genetics is their trusted seedstock suppliers. Keeping ASA members up to speed on beef cattle genetics not only benefits our members, but helps their customers make more informed decisions. ASA strongly believes in education and communication with our members and their customers through a variety of platforms.

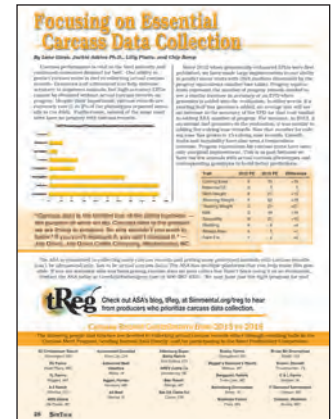

eNews

ASA's weekly electronic newsletter is packed with timely updates. Subscribe to eNews and have the latest ASA events and news delivered to your inbox every week. To subscribe, go to ASA's homepage: www.simmental.org/enews.

Print Magazines: the Register and SimTalk

Two main missions of ASA Publication, Inc. are to educate and communicate with ASA members. Our magazines are chock-full of articles about seedstock breeders, commercial producers, innovations in the beef industry, and newsworthy events.

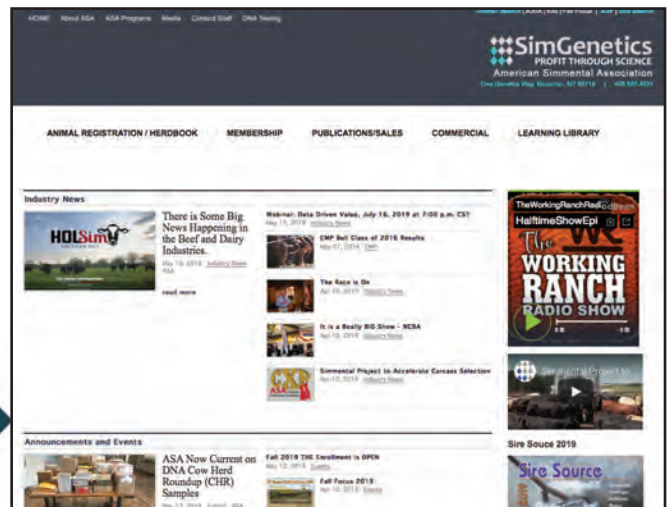

Website

www.simmental.org

ASA and ASA Publication, Inc. provide online information to keep you informed on the industry and ASA activities and programs. Our website also provides easy access to ASA's database, Herdbook Services.

Value of Genetics?
"Why are We Here?"

Fall Focus

The ASA fall board meeting is coupled with a day-long educational session focused on animal breeding and current topics important to seedstock breeders and commercial cattle operations. Open committee meetings and staff updates are a perfect opportunity to learn what's happening at the ASA and offer your ideas. The 2018 Fall Focus was extra special as it was also our 50-year celebration. Join us in Manhattan, KS, August 23-27, 2019, for a promising set of meetings in the Little Apple. Watch for more details and view past years' presentations at www.fallfocus.org.

Educational Promotion of ASA's Services and Programs

In 2018, ASA expanded opportunities for members to request ASA specialists to attend their events. This new infrastructure aims to grow awareness of ASA services and programs among ASA members, their customers, and the beef industry community. See Page 32 for more details.

State Associations

State associations are locally- and regionally-based Simmental entities that operate independently from ASA to support seedstock breeders in specific locales. Access your state association officers on ASA's website.

SimmApp

The new SimmApp is a one-stop shop for many of ASA's outreach efforts. To download the app, go to the Google Play Store or the Apple Store on your phone.

You can find ASA, AJSA, and IGS on your favorite social media platform too!

Have you visited simmental.org lately?

The main page of the website has a new look highlighting ASA spotlight articles, industry news, and easy to navigate location for articles in a series.

simmental.org makes it easy for you.

Scientific & Technical Advancements

The Science of Genetic Improvement is at the Core of ASA's Very Existence.

In 2018, we celebrated 50 years since the foundation of the ASA. The theme for the year was “Embrace the Past, Imagine the Future.” Articles in *the Register* throughout the year highlighted key turning points in the Association, most centered around the adoption of science and technology. In *Simmental's American Journey*, by Dr. Bob Hough, ASA's commitment to science and the role it played in the current success of the Association is highlighted. From the founding fathers' passion for progeny and performance testing to the comeback in the late 1990s and early 2000s attributed to using science to select better cattle for the commercial customers to the current success of SimGenetics in the industry, commitment to science is the thread linking genetic improvements and the success of ASA's members. The tradition of commitment to science lives on in the current ASA leadership.

IGS Multi-breed Genetic Evaluation powered by BOLT

IGS's multi-breed genetic evaluation system has the distinction of being the world's first and the world's largest. Although ASA has been running and refining its multi-breed system since 1997, in May 2018 ASA published a full suite of EPDs with a revolutionary change to the evaluation, dubbed the IGS Multi-breed Genetic Evaluation powered by BOLT. Leveraging software developed by Theta Solutions, LLC, the IGS science team revamped the genetic prediction models to better estimate EPDs, added single-step genomics, and gained more accurate accuracy, all while performing weekly evaluations for the collective IGS breed associations. With over 17 million records and nearly 200,000 genotypes from 12 collaborative breed associations in the US, Canada, and Australia, our multi-breed database is the largest in the world and continues to grow at the rate of over 375,000 records annually.

The team continues to innovate with research and development of new traits, adding new breed associations, investigating improved parameters, and developing novel DNA markers. Moreover, the IGS team continues to improve the feedback loop among breed organizations through the development of web-based interfaces to allow each organization to troubleshoot animal movement and genotype-related exclusions.

New IGS Breed Association Partners

In 2018, the IGS team welcomed four new breed associations to the evaluation — Australian Shorthorn Association, American Salers Association, Salers Association of Canada, and the North American South Devon Association.

Improving Existing Traits

The IGS team continues to fine-tune the genetic evaluation to provide the most reliable EPDs possible. Updates in breed composition estimates, possible interactions between age of dam and contemporary group, and updates to genetic variance components are all underway. The team is continuing to

explore new ways of identifying the most predictive genomic markers to squeeze the most out of genotyping and improve EPD accuracy. Science is never static, and the IGS science team continues to use the most current science to improve the IGS genetic evaluation.

New Trait Development

The IGS science team is investigating the addition of new economically relevant traits (ERT) into the genetic evaluation. Among these are days (or age) to finish, dry matter intake, and heifer pregnancy. Days (or age) to finish can be thought of as a cost related to both feed intake and yardage. The work on this important trait complex is in collaboration with Colorado State University, which has considerable experience in this area.

Economic Selection Indexes

The ASA provides two economic selection indexes developed in collaboration with retired USDA geneticist Mike MacNeil. Relying on economic data from CattleFax, the All-Purpose Index (\$API) and Terminal Index (\$TI) are the result of well-conceived, rigorous mathematical computation. These indexes blend EPDs of ERT from calf survival to marbling scores to estimate an animal's overall impact on profitability. Used extensively in the swine, poultry, and dairy industries for many years, economic selection indexes allow breeders and commercial cattle producers to make more profitable decisions than ever before when selecting seedstock.

Multi-breed: By combining the databases of multiple breed associations into one large dataset, each association leverages their data with data from the other associations, resulting in better predictions than any of the associations could do on their own. Additionally, each breed's EPDs are on the same base, which allows for easier selection decisions by commercial customers using these breeds.

Speed: The fastest genetic evaluation software that has ever existed, allowing for more frequent evaluations with larger datasets, incorporation of more advanced and superior methodology than previously thought computationally possible.

Accuracy: More precise computation of EPD accuracy — a more accurate accuracy.

Single-step Genomic Evaluation: Inclusion of genomic information directly into the evaluation, simultaneously with pedigree and performance data. The genomic evaluation delivers more precise DNA predictions for various traits.

Flexibility: Allows for a much wider range and ease of implementation of statistical models (e.g., multi-breed stayability and docility).

Quality Data to Fuel the Genetic Evaluation

ASA members play a critical role in genetic evaluation. The phrase “we’re all in this together” is certainly on the mark when it comes to our genetic evaluation. Though a top-tier genetic evaluation system requires an engine built on cutting-edge technology, that engine will not get us anywhere without fuel — the fuel being data. No matter how high-tech the system used to calculate EPDs, achieving high levels of accuracy requires large volumes of high-quality records.

Total Herd Enrollment (THE)

A cow-inventory-based reporting program, THE requires participants to provide annual reproductive and inventory status on their cow herd. THE is designed to improve quality of data submitted for genetic evaluation and improve and develop reproductive EPDs. Collecting records on the entire cow herd and complete contemporary groups greatly improves the ability to predict genetic merit from those records.

Commercial EPDs

The ASA’s commercial option in THE allows commercial operations to enroll their females and submit valuable data on their calves. In return, the ASA calculates EPDs on their cow herd — a win-win situation. Commercial producers now have access to tools once reserved for seedstock operations. DNA-enhanced EPDs and indexes are available through this option. Producers can make more knowledgeable selection decisions regarding their female base and select bulls that best fit their herd and marketing plans. This genetic information can be incorporated into a commercial program that values and differentiates the profitability of feeder cattle — such as the IGS Feeder Profit Calculator™.

Cow Herd DNA Roundup (CHR)

Female genotypes are rare and valuable, especially for predicting maternal traits such as stayability and maternal calving ease. Furthermore, genotyping entire herds improves genomic evaluations by reducing bias created when only the best cattle are genotyped. Therefore, gathering massive amounts of genotypes on entire cow herds will significantly improve genomic predictions and rate of genetic progress for maternal traits. Considering these facts, the ASA Board of Trustees passed an innovative resolution to invest in the future of genomic technology for ASA members. In August 2017, the Board of Trustees voted to offer a \$20 genomic profile (50K including parentage) to members who test their entire cow herd (a \$30 savings). Additionally, breeders who submit mature cow weights with either body condition scores (BCS) or hip

heights (HH) receive a \$5 rebate. In 2018, ASA members in partnership with GeneSeek genotyped over 30,000 cows and added 28,000 mature weights with either BCS or HH measurements — numbers that continue to grow.

Carcass Merit Program (CMP)

Since its beginning, the CMP brought in carcass data from 50 different herds fed and harvested in nearly every cattle-feeding region in the US. In 2017, the ASA expanded the number of cooperator herds in the CMP, which will result in an increase in carcass data in 2019. The ASA also expanded data collection to include feed intake measurements on approximately 1,000 head, GGP-F250 DNA tests completed on all nominated sires, and genotyping on the harvested calves.

Carcass Expansion Project (CXP)

Despite the importance of carcass traits to our industry, few producers devote resources to collecting and recording actual carcass data. While the CMP is a valuable progeny test, it is limited in the number of records produced. We cannot depend on the CMP alone to bring in carcass data. In the age of genomics, it is clear we need genotypes on animals with actual carcass phenotypes. Adding another layer of commitment to predicting carcass traits, the ASA initiated a new program, dubbed the Carcass Expansion Project, in the fall of 2018 to increase the number of carcass records on genotyped animals. The ASA Board of Trustees and staff are ramping up both phenotypic and genotypic data collection on terminal calves — a vital part of our vision.

ASA benefits from several partnerships with research institutions including:

- ◆ Colorado State University
- ◆ Cornell University
- ◆ Iowa State University
- ◆ Kansas State University
- ◆ Montana State University
- ◆ National Beef Cattle Education Consortium (NBCEC)
- ◆ Oklahoma State University
- ◆ University of Idaho
- ◆ University of Illinois
- ◆ University of Missouri
- ◆ University of Nebraska
- ◆ University of Vermont
- ◆ USDA Fort Keogh
- ◆ USDA Meat Animal Research Center (MARC)

IGS Feeder Profit Calculator™

2018 was an exciting and formative year for the IGS Feeder Profit Calculator™ (FPC). The FPC officially launched in the early weeks of the 2018 fiscal year (summer 2017) with a goal to provide the industry with pervasive awareness of true feeder calf profit potential. Since that time roughly 300 certificates have been generated to provide producers with greater understanding of the calf crop they've assembled. At the same time, these certificates are shared with marketers and potential buyers to empower information and data share across all parties involved in the transaction of moving and trading feeder cattle.

The 2018 fiscal year closed with a bang for the FPC as well. IMI Global, the industry's dominant third party verifier of health and traceability information, opted to join forces with IGS in promoting the FPC to the industry. This is a logical addition to IMI's lineup of knowledge-based services. The FPC continues to garner the interest of serious marketing platforms, such as Superior Live-stockAuctions and major traditional markets.

What is IGS?

International Genetic Solutions (IGS), the genetics and science arm of the ASA, facilitates collaboration of like-minded breed associations with genetic evaluation and genetic improvement of beef cattle. IGS has the world's largest multi-breed genetic evaluation and publishes EPDs on the same base for easier comparisons across breeds. Beyond the genetic evaluation, the IGS breed associations work together to build producer awareness of genetics and crossbreeding, support the IGS Feeder Profit Calculator™, and grow youth development for the associations.

The IGS Advantage

- ◆ Largest multi-breed genetic evaluation of beef cattle
- ◆ All breeds and breed compositions
- ◆ Full suite of EPDs and indexes
- ◆ Direct EPD comparisons
- ◆ Full range of DNA enhancement options
- ◆ Commercial herd access
- ◆ Producer-friendly cost structures
- ◆ IGS Feeder Profit Calculator™ (FPC)

"This concept of data sharing or data commingling facilitates efficient bull selection and adds a simpler tool to the commercial producer's toolbox for bull selection."

— Dr. Kris Ringwall, University of Saskatchewan
Director of the Livestock and Forage Centre of Excellence

"The decision to join the collaborative evaluation undertaken by International Genetic Solutions (IGS) will bring a number of advantages to commercial cow-calf producers and other participants in the beef value chain."

— Dr. Bob Weber, Kansas State University
Cow-calf Extension Specialist

"IGS represents an unprecedented collaboration between multiple beef breed associations with a common goal: improving National Cattle Evaluation and providing commercial cattle producers with the tools needed to make informed selection decisions."

— Dr. Matt Spangler, University of Nebraska
Beef Genetics Specialist

Interesting Facts

Genetic Evaluation Database

- ◆ 17.6 Million Records in the Multi-Breed Genetic Evaluation Database:
 - American Chianina Association
 - American Gelbvieh Association
 - American Maine-Anjou Association
 - American Shorthorn Association
 - American Simmental Association
 - Canadian Angus Association
 - Canadian Gelbvieh Association
 - Canadian Limousin Association
 - Canadian Shorthorn Association
 - Canadian Simmental Association
 - North American Limousin Foundation
 - Red Angus Association of America

◆ 375,000+ New animal records added annually

◆ 190,017 Genotyped animals in the database

ASA Database

- ◆ 5.6 Million Animal records in ASA's database
- ◆ 121,069 Active cows enrolled annually in Total Herd Enrollment (THE) by ASA members
- ◆ 1,474 Active ASA members committed to THE
- ◆ 73,286 Registrations issued in the last year
- ◆ 36,323 Transfers processed in the last year
- ◆ 8,559 Active adult and junior members

The Key to Success — ASA Members' Commitment to Genetic Improvement

Cutting-edge technology by itself does not guarantee progress — it must be used. Perhaps no other breed has made as much genetic progress as Simmental. SimGenetics deliver on the traditional strengths of maternal and growth traits, plus marbling and every measure of efficiency quantified at MARC. The genetic progress is a testament to ASA members' willingness to roll up their sleeves and use sound scientific principles to breed better cattle and produce better beef.

Sale Date:
18th Annual Carcass Performance
Partners Bull Sale, March 14, 2020,
Lucedale, MS

Our bulls keep getting better and better each year. That's what they are supposed to do if we are breeding our cows to the right AI sires. Many large herds keep all their bulls to have enough bulls to have a sale on their farms but their tail-end bulls are not as outstanding. We offer only our best. The lower quality calves meet an appointment with a pocket knife – so we can offer you a bull that is a top-end bull with all the performance, calving ease, disposition, carcass traits and maternal traits you are looking for that will make your calves more profitable. Our group of smaller breeders do just that, cut the bottom end – grow out the best to bring to Lucedale!

Mr Ishee Justified

Mission Statement:

To produce outstanding performance Simmentals, SimAngus™ and Simbrahs that are easy calving, muscular with great maternal ability and possess outstanding carcass characteristics that will make our customers money!

We are 4th generation cattle producers in South Mississippi. We started A.I.ing our cows to the very best performance Simmental bulls in the world in 1981. Our formula for success is a multi-trait approach of selecting cattle for: Calving Ease + Performance + Maternals + Carcass = \$\$\$\$.

Fort Worth Stock Show and Rodeo

Show Date - February 2, 2020
817-877-2400
www.fwstockshowrodeo.com

The American Simmental Association

is proud to sanction high-quality Simmental and Percentage Simmental Progress Through Performance (PTP) shows throughout the country. The PTP program is designed to promote multi-level progress within the SimGenetics industry. PTP shows effectively combine the assessment of statistical data, such as EPDs and actual measurements, with traditional phenotype evaluation.

PTP Judges

PTP approved judges have been deemed as respectable and knowledgeable cattle evaluators by the ASA Board of Trustees Activities and Events (A&E) Committee. To be named as a PTP approved judge, an application must be sent by the applicant or on the applicant's behalf along with two letters of recommendation from current ASA members for review by the ASA Board of Trustees A&E Committee. The A&E Committee approves or denies all applicants. Each year the A&E Committee inspects the list of approved judges and makes modifications when necessary. View the PTP approved judges list at: www.simmental.org

Our Registered Full Fleckvieh Simmental farm was started in 1994. It is based on the belief that Fleckvieh-influenced cattle provide valuable carcass quality and yield in today's beef market. We have a variety of offspring to offer including red, black, and polled. Our breeding program uses both top AI sires and hybrid herd sires. Disposition is very important to us in our selection process. We are members of the Fullblood Simmental Fleckvieh Federation and American Simmental Association. Our farm utilizes the (THE) Total Herd Enrollment Program with the American Simmental Association.

For Sale:

Bulls are sold privately at the farm.
Bred heifers and show prospects
available private treaty.

At Oval F Ranch, we believe in sound productive, big-bodied cows that can have a calf and raise it. We use EPDS to help improve economical traits and appreciate productive females with eye appeal. Since 1971, we've been serious about breeding quality Simmentals with COW POWER production in mind. We have turned 17 generations in our leading cow families using AI. WE'LL SHARE!

Visitors Welcome. Plan a trip to tour the herd.

Sale Date:
The Gathering at Shoal Creek,
April 4, 2020

Shoal Creek Land and Cattle is located in Excelsior Springs, MO, just a short drive outside of Kansas City. We are a purebred cattle operation producing Simmental, SimAngus™, and Red Angus genetics for both the registered producer as well as the commercial industry. Take some time to browse our site and if you have any questions please contact us, or better yet stop by the ranch. We have an "Open Gate" policy, visitors are always welcome. And don't forget to "Like" us on Facebook for regular updates on sale offerings and what's going on at Shoal Creek.

- More Pounds.
- More Muscle.
- More Marbling.
- More Profit.

Success. SimAngus™.

"To really see premium value at a good cost of gain, animal genetics need to have potential for both muscle and marbling. Simmental and Simmental-crossed cattle really fit the bill."

Tracy Brunner
Cow Camp Feedyard

"A large percentage of the cattle we feed have Simmental influence. Simmental has what a lot of cows need — more carcass weight, more live weight, more ribeye area, and still keeps the marbling intact."

Tom Williams
Chappell Feedlot

Trait	Simmental Rank vs. Major Continental Breeds	Angus/Red Angus Rank vs. Major British Breeds
Marbling Score	First	Second
Carcass Weight	First	First
Weight Gain Feed Efficiency	First	Second
Weaning Weight	Second	First
Post Weaning Gain	Second	Second

Sale Date: Bull Sale, March 3, 2020

Settled between the Highwood and Little Belt mountains, Hill's Ranch Simmentals is proud to call central Montana home. We have been raising Simmentals since 1969 and find them to be the best type of cattle to meet our goals of providing an excellent beef product. From the beginning, Hill's Ranch has focused on calving ease, maternal and growth traits. Now as we look into the future, the goal is to also incorporate exceptional carcass and tenderness traits. Come join us in March for our annual bull sale. Females are also available so stop in any time to view our cattle. The coffee pot is always on.

YOUR ROAD TO SUCCESS STARTS HERE

For over 40 years, Lassle Ranch Simmentals has focused on **problem free, performance proven Simmental and SimAngus™ genetics**. Let us help you get on the road to success! Please visit our website to learn more about our program, www.lassleranchsimmentals.com

JOIN US FOR OUR 27TH ANNUAL BULL SALE!
FEBRUARY 13, 2020 AT THE RANCH

Begger's Diamond V

Two-year-old
heifer with
a seven-
month-old
bull calf

At Begger's Diamond V Ranch the rancher comes first. Our focus is to raise homozygous black homozygous polled Simmental, SimAngus™ and Angus seedstock that calve easy and have the genetics that work for the cowmen and women who raise them.

Our cattle are easy-keeping, sound, and low-maintenance, these cattle possess excellent udder quality and pigment is a high priority. We don't tolerate wild, nervous cattle and you shouldn't have to either. At Begger's Diamond V Ranch we offer over 200 high-quality breeding bulls annually that have passed our rigorous culling program. You can be confident that your purchase will be guaranteed to satisfy the most demanding cowman's needs. You bet they calve easy, weigh heavy at weaning, and they will sire outstanding replacement females that won't need pampering to survive. These cattle work in tough environments and excel in profitability (feeders and packers love them). They are more than a pretty set of EPDs.

Plan to attend our 44th Annual Production Sale February 5, 2020, where over 80 long-age 18-month-old and 120 stout yearling bulls sell, every one black and polled and all ranch-raised in an environment that separates cattle that become problematic; yes they are backed by a guarantee second to none.

Big Sky Genetic Source Bull Sale

ASA Publication, Inc.

Your Source for Everything Simmental

Circulation — 6,000 +

Circulation — 40,000 +

the Register

Serving as ASA's official publication, the Register has a circulation of 6,000 and focuses primarily on the active membership. Mailed nine times annually, *the Register* provides a direct and consistent line of communication to the ASA membership in a glossy, full-color format.

SimTalk

Published four times annually, *SimTalk* is a glossy, full-color publication with a circulation of over 40,000. With a focus on the Simmental breed's role in the commercial industry, each issue of *SimTalk* finds its way to commercial cow-calf producers, feedlots, and much more.

ASA Membership Directory

Increase your brand recognition and introduce your program to thousands by advertising in the ASA Membership Directory, mailed annually in June. Breeders reference this publication year-round, and new buyers use it to get into the Simmental business. Thousands more are handed out each year to your potential customers at trade shows and Simmental events.

Sire Source

A directory designed to assist in the promotion of semen sales of quality Simmental, SimAngus™ and Simbrah bulls. This directory is mailed each spring to every ASA member in order to target potential clients at the height of the semen sales season. Thousands more are handed out at trade shows and industry events, and carried by ASA SimSpecialists throughout the year. We also offer the opportunity to promote additional sires in the online version of Sire Source anytime during the next year. Promoting your bull in the online version opens huge marketing avenues for you.

Here's what you get:

- ◆ Instant access through online Sire Source Catalog.
- ◆ Print version in hard copy at no cost to you.
- ◆ Discount on a full or half-page ad in *the Register* or the *SimTalk* one time during the year.

Circulation — 9,500 +

Back in 1987, when the American Simmental Association made the decision to bring its official magazine in-house, the staff was given a mission: “to provide communication, education, and information” to the membership.

First, under the banner of *the Register*, and later when *SimTalk* and for a time, *American Simbrah*, were added under the larger umbrella of ASA Publication, Inc., the editorial and advertising staff has adhered rigidly to the original mission.

Today, numerous other responsibilities have been added, including an Annual Report, a Breeder’s Directory, Sire Source, sale catalogs, press releases, and web marketing, among many others.

Communication:

- ◆ ASA’s magazines, *the Register* and *SimTalk*, provide an outlet for members to stay up-to-date on industry events, fellow breeders’ sales, and state association events, while also allowing members the opportunity to communicate their events.

Education:

- ◆ ASA taps into the rich knowledge of the staff by creating educational articles, and gives members

access to additional educational resources and much more through a variety of platforms ranging from print to social media.

Information:

- ◆ Keeping abreast of industry news, the state of SimGenetics in the marketplace, and having a source for accurate information is important for producers. ASA Publication is committed to providing up-to-date industry news and information.

An effective outlet for Advertisers!

With the increasing demand for SimGenetics, now is the perfect time to create a specific marketing plan to access the growing number of breeders and potential customers. ASA Publication, Inc. has all of the resources to help you create an effective marketing strategy.

Advertising with ASA provides added value beyond the ad. Your sale date will be published in *the Register* and *SimTalk* Datebooks, on simmental.org, and sale reports with averages, high-sellers, and up to four photos printed in *the Register*.

Incredibly Affordable Full-Color Catalogs!

Be sure to contact Nancy Chesterfield for a free quote on your sale catalog or other special promotional items. Our quotes on low-cost, full-color printing options may just surprise you! Also, with our vast photo library and direct access to ASA's database, we can provide quicker, more efficient service in our catalog department — making the process easier for you.

Date Book

Listing of sales by month. Printed in each issue of *the Register* and *SimTalk*. No charge, no requirements.

Mailing Lists

Whether you are mailing a sale catalog or one of our specially-design promotional projects, we can help you obtain a custom mailing list that specifically targets your ideal demographic.

Web Marketing

eBlast — Our most popular form of web promotion is the **eLink**, or eBlast that emails directly to approximately 7,000 ASA members and subscribers. It's a quick and affordable way to get the word out about your upcoming event. Turn-around time for **eLink** can be as fast as one day.

One eLink eBlast	\$250	(includes design services)
Two eLink eBlasts	\$325	(no changes in design)
Three eLink eBlasts	\$400	(no changes in design)
Changes in design	\$250	per eBlast

Banner ad — ad placed on our website and Sales Call or weekly editions of ASA's eNews.

One Banner ad	\$200 per week
---------------	----------------

Online Sale Catalog

Posting ASA designed sale catalog online in flipbook or PDF format included in package. Posting of outsourced catalogs in flipbook or PDF format: \$150.

Additional Services

Our experienced design staff can assist you in developing any form of creative printed promotion. Projects we can produce include:

Brochures	Flyers	Websites
Posters	Postcards	Banners
Printed catalogs	Business cards	eBlast ads
Photo retouching	Logos	Booths
Online catalog flipbooks	Save-the-date postcards	
Downloadable PDFs		
Per Bid Basis.		

Sales Call

If you have recently advertised in *the Register* or *SimTalk*, you are automatically included in **Sales Call** prior to your sale.

Sales Call is broadcast to over 7,000 subscribers. **Sales Call** announces the date of your sale, location and provides a link to your sale catalog or website.

Added Value

Your advertisement in any one of our publications provides added value beyond your ad. Your sale dates will be published in the Datebook of both *the Register* and *SimTalk* issues leading up to your event, as well as on our website at www.simmental.org. Sale reports submitted by advertisers will be published in *the Register* featuring sale averages, high-selling lots, and up to four photos.

Transfer Services for Sale Managers

Here's how it works: we provide a simple spreadsheet that contains all of the sale lots. Following the sale, return the completed spreadsheet to ASA — all we need is a record of the buyer number(s) on each lot and a list of your buyers. We'll handle it from there, matching buyer information to ASA memberships and completing the transfers.

- ◆ It saves you time and postage expenses when we complete the transfers online.
- ◆ Ownership is updated immediately. As soon as you give the green light, we will mail certificates directly to the new owners.

January 25, 2020
West Point Sale Barn,
West Point Livestock, NE

At J&C Simmentals we believe quality and performance are more important than percentage. We offer quality bulls from purebred to 1/4 blood for both the registered producer as well as the commercial cowman. We guarantee our bulls and feel confident you will find something in the offering that will fit your needs. Our females are fancy, high-performance females that will fit any operation. Stop by anytime and we'll be happy to discuss cattle and the cattle industry with you.

Quick Reference Guide to ASA EPDs and \$ Indexes

Expected Progeny Differences (EPDs)

EPDs are the most accurate and effective tool available for comparing genetic levels. In using EPDs, the difference between two sires' EPDs represents the unit difference expected in the performance of their progeny. For example, if sires A and B have EPDs of +10 and -5, a 15-unit difference would be expected in their progeny (moving from -5 to +10 yields 15 units). Key to using EPDs is knowing what units they are expressed in. If the above case referred to weaning weight EPDs, A would be expected to sire 15 pounds more weaning weight than B. If calving ease were the trait, A would be expected to sire 15 percent more unassisted births in first-calf heifers; in other words, if B sired 30 assists in a group of 100 heifers, we'd expect A to require 15 assists. A percentile-ranking chart is required to determine where a bull's EPDs rank him relative to other bulls in the breed. For percentile rankings or more detailed information about EPDs and \$ indexes, visit www.simmental.org, then click Percentile Tables under the Animal Registration/Herdbook tab.

Listed below are the units ASA EPDs are expressed in:

All-Purpose Index (\$API): Dollars per cow exposed under an all-purpose-sire scenario. (See right for more details).

Average Daily Gain (ADG): Pounds of post-weaning daily weight gain.

Back Fat (BF): Inches of backfat at 475 days.

Birth Weight (BW): Pounds of birth weight.

Calving Ease (CE): Percent of unassisted births when used on heifers.

Docility (DOC): Percent of offspring receiving a disposition score of 1 (docile).

Carcass Weight (CW): Pounds of carcass weight at 475 days.

Maternal Calving Ease (MCE): Percent of unassisted births in first-calving daughters.

Milk (MLK): Pounds of weaning weight due to milk.

Marbling (MRB): Marbling score at 475 days.

Maternal Weaning Weight (MWW): Pounds of weaning weight due to milk and growth.

Ribeye Area (REA): Square inches of ribeye.

Stayability (STAY): Percentage of daughters remaining in the cow herd at six years of age.

Terminal Index (\$TI): Dollars per cow exposed under a terminal-sire scenario. (See right for more details).

Weaning Weight (WW): Pounds of weaning weight.

Yearling Weight (YW): Pounds of yearling weight.

Yield Grade (YG): Yield grade score at 475 days.

\$ Indexes

Though EPDs allow for the comparison of genetic levels for many economically important traits, they only provide a piece of the economic puzzle. That's where \$ indexes come in. Through well-conceived, rigorous mathematical computation, \$ indexes blend EPDs and economics to estimate an animal's overall impact on your cow herd enterprise. The same technology that led to the dramatic progress in swine, poultry and dairy genetics over the last several decades was used to develop the following \$ indexes:

All-Purpose Index (\$API):

Evaluates sires for use on the entire cow herd (bred to both Angus first-calf heifers and mature cows) with the portion of their daughters required to maintain herd size retained and the remaining heifers and steers put on feed and sold grade and yield.

Terminal Index (\$TI):

Evaluates sires for use on mature Angus cows with all offspring put on feed and sold grade and yield.

Using \$API and \$TI:

First, determine which index to use; if you're keeping replacements use \$API, if not, \$TI. Then, just as with EPDs, zero in on the unit difference between bulls. (As described above, index units are in dollars per cow exposed.) The difference can be used to determine how much a bull is worth compared to another. Or, put another way, how much you can pay for one bull compared to another. For example, when buying an all-purpose-type sire, you can quickly figure a bull scoring +100 for \$API is worth an extra \$6,000 over a +50 bull if both are exposed to 30 cows over 4 years ($\$50 \text{ diff.} \times 30 \text{ hd.} \times 4 \text{ yr.} = \$6,000$). A percentile-ranking chart is required to determine where a bull's index value ranks him relative to other bulls in the breed. For percentile rankings or more detailed information about EPDs and \$ indexes visit www.simmental.org, then click Percentile Tables under the Animal Registration/Herdbook tab.

Important disclaimer:

DO NOT compare index values of purebreds of different breeds, hybrids of different breed composition or purebreds with hybrids — our system was not developed to make valid comparison among these groups. Therefore, you must first determine the breed and breed composition appropriate for your herd and use index values to compare animals within that population.

Annual Bull Sale –
February 21, 2020, Creighton, NE

Sandy Acres Simmental is one of Nebraska's premier Simmental operations. More than 40 years of breeding Simmentals with calving ease and growth with maternal excellence. The cow herd is primarily purebred polled Simmental, red and black, with some F1 Simmental-Angus calves and a few full Fleckvieh cows. With high-demand sires, King Pin, Zero Gravity and Deep Rock, the Sandy Acres Simmental herd has some of the most in-demand bulls sold in the plains region.

A Profitable Cow Herd Begins With Honest Reflection.

1. Who is Profiting?

Are your industry partners helping you stretch your dollars? Or, are you merely lining the pockets of others? In an effort to chase those vaunted premiums have you sacrificed the fertility and longevity of your cowherd? Have you been convinced of the merits of straightbreeding, when you know the time-tested truths of crossbreeding and heterosis? Tradition only has staying power if it is linked with technology, adaptability, and beneficial business relationships.

USDA MARC GPE Progress Report 22 data states that a 50% Continental x 50% British composite is optimal balance of yield grade and quality grade.

2. Collaboration.

You demand humble business partners willing to collaborate on your behalf. You reach your hand across the fence and expect your breed association to have the courage to do the same. The American Simmental Association was a founding partner in International Genetic Solutions (IGS). IGS now represents 15 breed associations and the largest beef genetic evaluation on the planet. We Collaborate. You Profit.

IGS has over 17.6 million head in its database and adds more than 375,000 head every year.

3. Truth.

Ask any crop farmer – the size of a check doesn't reflect profitability. In recent years, crop producers deal in larger dollars, but haven't necessarily taken more money home to their families. It is uncontested that cow fertility and reproduction are the primary impact on the bottom line for a beef producer. Regardless of biases or misconceptions, some breeds have focused on an efficient cow while some speak purely to terminal premiums.

It is scientific fact that the Crossbred cow is more fertile and more profitable over her lifetime.

Sponsorship Packages ASA Fall Focus 2019 August 23-27, Manhattan, KS

Contributions
may be made to the
American Simmental-Simbrah
Foundation designated
to the Fall Focus.

For more information about
sponsoring Fall Focus 2019,
please contact Bill McDonald
at 540.230.6225
or by email at
mcdonaldfarms.bulls@gmail.com

Become a sponsor of ASA's Fall Focus 2019
and enjoy the following:

Bronze (Under \$500):

- Name listed in Fall Focus 2019 program
- Name included on sponsor poster
- Name on fallfocus.org
- Group photo at the event

Silver (\$500-\$999):

In addition to the above perks, donors will also receive the following:

- Banner ad on fallfocus.org
- Your business brochure included in the registration packets (*Design and printing fees will apply*)
- Designed poster — 20 x 30 inches
- eNews banner
- Tabletop space by registration desk for business promotion

Gold (\$1,000-\$3,499):

In addition to the above perks, donors will also receive the following:

- Slide show promotion during breaks

Platinum (\$3,500 and above):

In addition to the above perks, donors will also receive the following:

- Ten minutes to address attendees

SimmApp Available Now!

Get the latest beef industry and ASA news, *SimTalk* and *the Register* magazines, Sire Source, upcoming sales, industry events, deadlines, educational articles and the ASA's Youtube channel — all in one place.

Sign-up to receive notifications tailored to your needs!

Find it today on Google Play, Apple Store, or Amazon App.

BREED FOR PROFIT

Utilize the #1 Tool to Maximize Genetic Improvement

 **IGS** International
Genetic Solutions

beef@internationalgeneticsolutions.com
www.internationalgeneticsolutions.com

 **SimGenetics**
PROFIT THROUGH SCIENCE

American Simmental Association

All Purpose Index API

Designed to work best when selecting sires for use in herds that retain replacements and culled females and steers are finished and sold grade and yield.

Uses USDA technology and CattleFax price projections to predict profit differences between sires in units of \$ per exposed female.

ASA establishes API to be the most effective selection tool available to commercial producers working to improve their genetics and ranch profitability.

For more detailed information on API, visit: www.simmental.org

Sale Date:

Genetic Opportunity Sale,
November 1, 2019, Albemarle, NC
Angus and SimAngus™ Bulls for sale.

With over 100 purebred cows, HRF runs an extensive ET program from their exclusive donor herd. Angus cattle are mainly Schaff Angus based, while Simmental originated from Hook Farms and Kappes Simmental herds.

Our breeding philosophy is based on docility, phenotype, fertility, calf performance, and structural soundness.

In addition to the ET and AI programs, HRF maintains a small group of cleanup herd bulls selected from leading breeders across the US.

We welcome your visit to evaluate our program.

BataBrothersSimmentals

Sale Date:
23rd Annual Bull Sale
February 7, 2020, Rugby, ND

Bata Brothers Simmentals is a family-run operation in NE North Dakota that consists of Joe and his sons, Mark and Chris. Together we maintain an entirely Purebred Simmental herd of both red and black cows. Our focus is on producing high-performance, growth-oriented cattle that will add pounds and increase profitability for our customers. Our 23rd annual bull sale will be held in Rugby, ND, with sale partner Travis Bell. We sell powerful breed-leading bulls and a select group of bred heifers annually. Feel free to contact us any time.

Annual Sale:

Bull and female production sale 4th Wednesday in February. Open heifers, semen, embryos, flushes, and donor prospects available at all times by private treaty.

Our family is passionate about breeding Simmental cattle that are on the forefront of genetic progress. Tremendous selection pressure is placed upon foot and udder quality, along with calving ease, performance, and carcass traits. Our herd sires and donor dams are some of the most well known and heavily used genetics in the upper Midwest. Please feel free to stop in at any time to view the cowherd or call and talk "Simmental".

Bull and Female Sale
January 24, 2020

Terry Ellingson and father, Trueman, began Ellingson Simmentals in 1990 with the purchase of foundation females from Kenner Simmentals of Leeds and Marvin Ritz of Almont. Through use of embryo transfer and artificial insemination, the herd has grown to 150 brood cows of both black and red color. The goal has always been to produce high-performance cattle with calving ease, high carcass traits and functional females. Sires that have had national impact on the breed include Black Perfector, Olie, Ideal, Klondike and Dominator. Our farm is located in northeastern North Dakota between Grand Forks and Devils Lake, just 10 miles north of Highway 2. Please stop by whenever you would like to inspect our breed-improving genetics!

SimGenetics
PROFIT THROUGH SCIENCE
American Simmental Association

- Available to all seedstock and commercial members — regardless of breed type or breed makeup.
- \$20/sample requires both cow weights and body condition score (otherwise \$25/sample).
- Parentage included.
- Limited time only. There is a capped budget for project, so don't delay!
- Collaborative research project with GeneSeek®.

"Genetic Explosion" Sale
Friday, February 14, 2020
At the Ranch, Almont, ND

*Your commercial bull headquarters,
along with breed-leading herd sires! All
backed by the TNT 100% guarantee!
No creep feed! We invite everyone to
come to the ranch to view the cattle
and see the way we manage our herd.
We are very proud of our cattle, and
feel you will be proud of "The Explosive
Difference" they will make for you. I
truly have a passion for this business,
and love breeding cattle and the never
ending pursuit to try to make them
better. One of our greatest blessings
over the past 35 years is the wonderful
people we have met, and the dear
friends we have made in this business.*

If they don't load they don't pay.

We see the struggles feeders are facing
with heavy-weight, straightbred calves.

Carcass and gain are crucial, but you
demand a healthy, vigorous calf that
makes it on the truck.

Crossbreeding and Heterosis —
added calf survivability without
sacrificing Marbling and Gain.

Let us help source
and identify responsibly
crossbred calves.

American Simmental-Simbrah Foundation

The American Simmental-Simbrah Foundation (ASF) is committed to supporting the work of the ASA through three primary pillars: youth; education; and research. Contributions made to the ASF will be invested as a part of good financial planning to ensure the Foundation will stay strongly committed to its mission, and to ensure ASA continues to advance and maintain leadership within the beef industry. To enhance existing programs, the Foundation has implemented a new model for fundraising: member groups. If you have an interest in fundraising for any of these special projects, contact one of the listed Foundation Board Members to get involved!

Walton-Berry Graduate Student Support Grant

The Walton-Berry Graduate Student Support Grant supports graduate education with emphasis on the genetic improvement of livestock. The fund, originally started by Jim Berry of Wildberry Farms, honors Dr. Bob Walton's life-long efforts in animal breeding and raising Simmental cattle. The Walton-Berry Graduate Student Support Grant funds graduate education in research programs to directly improve applied livestock genetics and help build future experts in animal breeding. There are two awards annually — one for \$5,000 and a second for \$3,000 for graduate education programs; each recipient will contribute to ASA Publication, Inc. regarding their research for both *SimTalk* and *the Register*.

Feed Intake Project

The cost of feed is the number one cost to the beef industry annually (65% of production cost of beef). The ability to predict differences in feedlot intake of sires' offspring is an important component in the assessment of differences in profitability between sires. The Feed Intake Project collects individual feed intake data on calves of known sire groups to improve our ability to predict feed intake and thus improve our ability to predict differences in profit. Goal: \$30,000/year.

AMERICAN SIMMENTAL-SIMBRAH
F O U N D A T I O N

Steer Profitability Competition

The AJSA Steer Profitability Competition (SPC) is designed to provide members of the AJSA meaningful exposure to the opportunities and challenges associated with cattle feeding. The SPC not only allows participants to measure and compare the profitability of their own animal(s), but of greater importance, introduces young beef enthusiasts to peers, mentors, industry advocates, and exceedingly difficult-to-acquire experiences for any beef producer.

Sarah "Sally" Buxkemper Research Fund

Sarah "Sally" Buxkemper, owner of RX Ranch, was an early proponent of breeding composite cattle and was instrumental in developing Simbrah and SimAngus™ HT cattle. She was sold on SimGenetics when her first calves hit the ground in 1971 and on ASA because of its founding principles of genetic improvement, research, education, and youth development. Sally was one of the first women to earn an animal husbandry degree and to be trained in AI in the 1950s. She was an early researcher of the bovine genome when she earned her M.S. in Molecular Biology in 1998. Always learning, she put knowledge into practice in her herd and shared her experiences one on one with fellow breeders, with youth and their families, as well as at podiums around the world. In keeping with her long affiliation and fervent devotion to SimGenetics and research, the Sarah "Sally" Buxkemper Memorial Fund will be used to support the research arm of the American Simmental-Simbrah Foundation.

Fall Focus Educational Symposium

Each fall the ASA hosts an educational session in conjunction with the fall board meeting. Since 2014, this symposium has educated nearly 700 participants from all over the country along with international guests. The day-long event features recognized experts in livestock genetics, animal breeding, and other key topics for beef cattle. Seedstock producers, commercial cattlemen, industry personnel, other breed associations, and academics come together for this session and following social. Join us in hosting the 2019 Fall Focus in Manhattan, KS, by donating funds to this event. Goal: \$10,000/year.

Foundation Wall

“Brand Yourself in Simmental History” by being included in the ASA’s office through a personalized branded wall plaque, or by dedicating a tree outside the building. Several levels of sponsorship exist, with all proceeds going to the Foundation. You may designate which of the three pillars you wish to support by tagging your donation to a specific project.

The Foundation Auction

A great crowd supported the Foundation Auction this year raising, a total of \$63,170 combined from the many items up for auction and a generous donation of \$10,000 from Golden Book Award Recipient, J.W. Brune. The Phillips Family (Rocking P Livestock, Chan and Tonya Phillips and Keith and Lindsay Phillips and their families) donation heifer auctioned at the One Sale raised \$45,000. At SimMagic, the Trans Ova donation brought \$3,000. The total for all fundraising events in Denver, 2019: \$111,170.

The Foundation Board and Staff would like to thank all the contributors and donors who have made last year’s fundraising and support for many programs and projects even more successful than the last year. Last fiscal year (2018) a total of \$239,862 was received from supporters of the Foundation.

AJSA National Classic

Each year your state associations play host to the largest Sim-Genetics event in the country, one of the most prestigious youth livestock events, the AJSA National Classic. With each year’s National Classic bigger than the last, more and more Sim-Genetics enthusiasts attend the National Classic and purchase SimGenetics; at the same time, state associations are saddled with a growing financial responsibility in hosting. Help lighten the load by contributing and ensuring many years of AJSA National Classics to come.

Youth Merit Awards

Dollars for scholars. Established in 1981, the Merit Award is designed to provide recognition to junior members who have made “significant contributions to their community, home, family, school, and the Simmental or Simbrah breeds of cattle.” As college tuition continues to increase, the Foundation continues to support 16 AJSA members each year by awarding over \$25,000 in scholarships, 11 Silver Merit Awards and five Gold Merit Awards, to help them continue their collegiate educational endeavors.

AJSA Eastern and Western Regional Classics

Together as one team, our junior programs will flourish! The Eastern and Western Regions have each formed state groups to fundraise for their yearly Regional Classics. The Eastern Regional group hosts a fundraiser at the NAILE each year, allowing states in the east to step up more freely to host Classics, due to a lower financial cost. Following suit, the Western Region formed their own group. The goal is to see states within a specific region as one unit, rather than individuals. The establishment of these regional groups is to raise funds for the Eastern and Western Regional Classics, regardless of which state holds the classic.

Young Canadian Exchange Project

Each summer, two AJSA Board of Trustee members will be randomly selected to attend the Young Canadian Simmental Association National Classic. This is not just an opportunity to travel, but also an opportunity for AJSA members to learn about international agriculture, new ideas to progress the Association, and gain new friends while building their resume and personal experience.

Sale Date:
October 2019

At CR6 Cattle, we raise purebred and percentage Simmental, SimAngus™ and Club Calf prospects. We breed our cattle with various genetics that will suit both registered and commercial producers as well as individuals and 4H members looking for show cattle. It is our passion to breed and provide sound-quality cattle. We put high priority on caving ease, sound sturdy legs, and combinations that will produce high meat to frame ratios along with style for the show world.

We will have a production sale in October of 2019. We welcome individuals to come see the farm and our cattle. Located in Edgerton, OH off of St. Rt. 6.

Yeah, We're **HOT**

But we can take it!

Heat, Humidity, Fescue

The American Simmental Association offers the Beef Industry's most varied and robust lineup of heat tolerant, fescue tolerant, disease resistant cattle. As you battle through the environmental challenges that face your cow herd, take the time to check out SimAngus™ HT, Simbrah, and slick-haired Simmental and SimAngus™ options.

Important Partners, Past and Present

Dr. Bert Moore
State Association Liaison
406-587-4531 • Ext. 509
bmoore@simmgene.com

A review of the American Simmental Association's 50-year history brought to light the important role that state associations played in the growth and expansion of SimGenetics across the country. The thoughts and vision of the founding members were not in line with what was considered "conventional wisdom" in the livestock world. Fortunately, there were those who subscribed to the performance philosophy scattered throughout the country and they became important advocates for

the breed. Many of these people set about organizing local and state meetings which attracted new members with like interests. ASA's first paid-executive officer, Don Vaniman, saw the value of "grassroot" support in promotion, education of both breeders and the public, and in marketing as priority factors that could contribute to the breed's growth and ultimate success. In the early years of the Association, Vaniman put considerable time, energy, advice, and resources into the formation of state associations.

State associations played an important role in the promotion and expansion of SimGenetics in the early days of ASA's existence and continue to serve that crucial role today. With a history of strong support for state associations, the ASA took a bold step in 1979 by putting promotional funds in the hands of the state associations with the creation of the Cost Share Program. If a state association would invest in promotional activities, the national Association would share in a proportion of the expense. Revision and expansion of this program led to the creation of the Check-Off and Check-Off Bonus Programs whereby each state association can receive funds based on the numbers of registrations within that state with incentives for other in-state activities. These programs not only energize the membership, they also provide extensive promotional activities customized to each state's needs and potential.

ASA's connection with state associations strengthens promotional efforts to the benefit of not only SimGenetics but the entire beef industry. It helps create spokesmen, advocates, and support at the local level and assists in leading a spirit of cooperation throughout the industry.

Cost Share: \$4,000 Each Year for Advertising and Promotion

Cost Share Program

Designed to reach regional markets by assisting states in the advertising and promotion of SimGenetics. The program also provides support for the promotional activities of state associations to help increase their membership as well as their market share. May be submitted throughout the year. State associations maximizing their use of Cost Share funds (\$4,000) receive an additional \$1,000 for use in advertising and promotion. **Deadline June 30.**

- ◆ Print advertising
- ◆ eBlasts
- ◆ Booths and booth space
- ◆ Web development and maintenance
- ◆ Newsletters and member directories
- ◆ *SimTalk* special mailings
- ◆ ASA representation at state events

Check-off Program

Paid quarterly and based on animal registrations in your state. The only requirement is for your state association to send us your current list of officers. **Deadline June 30.**

- ◆ Based on animal registrations in your state — 25¢ per animal
- ◆ Current list of officers submitted each quarter — online form is available

Check-off Bonus Bucks

Paid annually at the end of the fiscal year. For additional bonus dollars, a state association must submit a report indicating participation in the list of options — this bonus is also based on animal registrations in your state.

Deadline July 10.

- ◆ Booth and Booth space — 10¢
- ◆ Field Day with ASA Representative — 10¢
- ◆ AJSA Event — 10¢
- ◆ Promotional Advertising - Cost Share Participation — 10¢
- ◆ Website Promotion (link to ASA site) — 10¢
- ◆ Mailings (include promotion for ASA Representative) — 10¢
- ◆ PTP Show — 10¢

If a state completes:

- 1 bonus criteria — 10¢ per registration
- 2 bonus criteria — 20¢ per registration
- 3 bonus criteria — 30¢ per registration
- 4 bonus criteria — 50¢ per registration
- 5 bonus criteria — 60¢ per registration
- 6 bonus criteria — 70¢ per registration
- 7 bonus criteria — 80¢ per registration

Maximum reward incentive is \$1.05 per registration within the state (base + all incentive categories).

State Association Ad Templates

Ad templates are available to download for your use. There is no cost attached to this service. The template contains the 50% generic advertising required through the Cost Share Program. They are ready to use — just place your state information in the remainder of the ad space (white area), and you are ready to go! Ads designed entirely by you may be accepted if they contain 50% generic advertising and are pre-approved.

Promotional Material Available for Use

- ◆ Brochures are available for your booth at trade shows
- ◆ Only cost to your association is shipping
- ◆ Order early to save money on shipping

State Association Pull-up Display Booth

- ◆ Can be purchased with Cost Share dollars
- ◆ Several booths to choose from

Any questions can be answered by calling Bert Moore at 406-587-4531 • Ext. 509

Samples of ads and a booth used by State Associations to promote SimGenetics. These ads qualified for cost share dollars.

Cost Share funds are available for a wide variety of promotional activities and are detailed at: www.simmental.org

- ◆ 14 state associations received an additional \$1,000 in Cost Share funds for 2019 for maximizing use of funds in 2018.
- ◆ 33 state associations applied for and received Check-Off dollars.
- ◆ 96.4% of the eligible Check-Off dollars were paid out to state associations.
- ◆ 5% more Check-Off Bonus funds were paid out than last fiscal year.

ASA RING OF CHAMPIONS 2019-2020

Only the four major shows involved in the national show rotation are eligible for the "ASA RING OF CHAMPIONS 2019-2020".

Shows include: 2019 American Royal
2019 North American
2020 National Western
2020 Fort Worth Stock Show

Award Divisions:

- Purebred Simmental Heifer of the Year
- Purebred Simmental Bull of the Year
- Percentage Simmental Heifer of the Year
- Percentage Simmental Bull of the Year

Qualifications:

- Exhibitor must be an active member in good standing with the American Simmental Association
- Purebred Simmental: 7/8 Simmental and up
- Percentage Simmental: at least 3/8 Simmental, but less than 7/8 Simmental
- Animals and their exhibitors must abide by the rules of the show(s) in which they participate.
- All ASA Ring of Champions award winners must at a minimum complete an ultra-low density DNA test before awards are given.

Protect Your Profit, Submit Your Data

Need a more informative way to make selection decisions?

Do you keep calving records on every cow in your herd?

Do you collect performance records on your calves and mature cows?

Looking for a better overall understanding of how your herd is performing?

Total Herd Enrollment may be for you.

Total Herd Enrollment

A dam management program

Herds that participate in THE:

- Are included in the world's largest multi-breed genetic evaluation
- Receive more informative EPDs
- Improve cow records and develop pedigrees
- Have access to free online data submission, reports, management software, and genetic trends
- Can be registered, commercial, and cows of other breed

Registered Herd Options:

TR – Option A

- Register > 45% of calf crop.
- EPDs on whole calf crop to make informative selective decisions

SR – Option B

- Register < 45% of calf crop.
- EPDs on registered animals only

Commercial Herd Options:

LR – Option C

- Register < 5% of calf crop
- EPDs on whole calf crop to make informative selective decisions

CM – Option D

- Non-registered calf crop
- EPDs only on females, whether registered or not

For more information contact a THE specialist at
406-587-4531 ext. 704 or by email the@simmgene.com.

Are you a Progressive Commercial Producer?

Do you use AI, single sire pastures, parent verification?

Do you select replacement heifers?

Do you want genetic predictions on all your females regardless of breed composition?

If the answer is **Yes!** Step into the future and become part of the world's largest genetic evaluation system.

Jack Southworth
Southworth Bros. Inc.
Seneca, OR

"We like being in ASA's Total Herd Enrollment (THE) option because of the genetic resources and tools that are available to us at a reasonable price point. As seedstock and commercial producers we've always used serious records, but now we're just at a higher level. Combining THE record keeping and ASA's other unique programs has simply provided us a better way to measure how our herd stacks up and to make better mating and heifer selection decisions."

John A. Grande
Grande Ranch Co.
Martinsdale, MT

"ASA's Total Herd Enrollment has provided a valuable tool for improvement of our herd. Probably the largest single benefit has been developing EPDs and indexes on all our females, which has tremendously improved our replacement heifer selection. Making our carcass data easier to report and utilize is a significant benefit as well."

You Are What You Eat

I'm Fescue

Beef producers who rely on fescue-based pastures know the blessings and the curse. Your cows experience one of the harshest and most relentless environmental impacts in the U.S. Beef Industry. As such, you need cows that shed early and face the heat.

The American Simmental Association offers the Beef Industry's most varied and robust lineup of heat tolerant, fescue tolerant, disease resistant cattle. As you battle through the environmental challenges that face your cow herd, take the time to check out SimAngus™ HT, Simbrah, and slick-haired Simmental and SimAngus™ options.

Call us today to discuss SVJ genetics!

Come one, come all!

All Breeds Welcome!

"Thank you to the AJSA for putting on this high-quality and educational event. I've enjoyed every minute and look forward to watching this program grow. I will totally do this again!"

- Audrey Redalen, program participant, MN

"Many thanks to the entire staff at the American Junior Simmental Association who put forth so much effort to make this opportunity possible for me and all the other young people who have been involved in this opportunity. Thank you!"

- Madeline Smith, program participant, KY

"I just wanted to start my last monthly summary by saying thank you. Thank you for having this awesome program for me to participate in my senior year of high school. I have enjoyed every minute of it, and I am excited to watch this program grow and have hundreds of participants in the upcoming year."

- Carlye Rodenbeck, program participant, TX

"Thanks to you all at AJSA! It's been a great experience! Mitchell said to me last night, "now that my last write up is done, I'm gonna miss it!" Kudos to you all!"

- Jen Vaad, program parent, CO

"Thank you for all your hard work making this happen and working through all the kinks for us!"

- Brady Wulf, program participant, MN

"I have enjoyed the competition and learned so much over the past months."

- Ella Fischer, program participant, MO

PROFIT THROUGH SCIENCE
American Simmental Association

2020 AJSA STEER PROFITABILITY COMPETITION

The AJSA Steer Profitability Competition (SPC) is designed to provide junior members meaningful exposure to the opportunities and challenges associated with cattle feeding. The SPC will not only allow participants to measure and compare the profitability of their own animal(s), but of greater importance, it will introduce young beef enthusiasts to peers, mentors, industry advocates, and experiences that are exceedingly difficult to acquire for any beef producer. Participants in the SPC program will be powerful voices as they transition from junior membership to adult participation within the beef industry.

ANIMAL REQUIREMENTS

1. Steers only
2. Entrant must be an AJSA member
3. Animals must be entered in the ASA database
4. One parent on file in the ASA database
5. DNA sample required with entry form
6. Birth date range: 1/15/19 to 4/15/19
7. Weaning date range: 8/15/19 to 10/15/19
8. Castration must occur prior to weaning
9. Steers must weigh 500 - 750 lbs at delivery
10. Steers must be polled or dehorned
11. Any breed composition welcome provided they meet rules 1-9

CONTEST GUIDELINES

1. Entry fee of \$50/ head
2. Feedlot placement approximately November 1
3. All decisions at the discretion of feedyard
4. Harvest will occur approximately May 2020
5. Participation in monthly e-meetings
6. Entrant will receive reports on:
 - a. Monthly feed and health bill
 - b. Final feedyard data
 - c. Final carcass performance data

Winners will be announced at the 2020 National Classic Awards Banquet in Grand Island, NE. Awards will be granted for the top three animals overall, top three pen of 3 overall, and top monthly write-up participant.

CONTEST DETAILS:

- 1) All steers on GrowSafe feed intake system throughout the entire project.
- 2) Individual intake and gain information on all steers.
- 3) Monthly weights on all steers.
- 4) Steers will be fed at University of Missouri Beef Research & Teaching Farm in Columbia, MO.
- 5) A monthly newsletter highlighting SPC details, industry news and steer performance.
- 6) Monthly bill detailing specific expenses on each steer.

CONTINUED THIS YEAR

Different feedback formats each month

- Short essay questions with prompts
- Infographic or social media post
- 1/2 to 1 page summary
- Short online quiz tailored to participant age

Animals must be entered by 9/27/2019.

Sale Date:
"King of the Range" Bull Sale –
Thursday, February 6, 2020

If you are trying to rebuild an aging cowherd, expanding an existing herd or simply trying to maximize pounds in a terminal program the option with Simmental or SimAngus™ are proven! We have tried to deliver genetics that will help in any direction you might be headed.

For the 9th straight year we have been recognized for being a Performance Advocate (PA) and enrolled in Total Herd Enrollment (THE) in that every animal in our herd has data turned in for birth weight, weaning weight, yearling weight and hip height. We take great pride in the data collection process and rest assured all the data is getting turned in.

Bulls and heifers are available for viewing at the ranch anytime, call or just stop by! If we can be of any help please give us a shout and thank you for taking the time to look thru our offering.

Sale Date:

Annual Bull and Female Production Sale, Friday, February 14, 2020

R & R Cattle Company is a family owned and operated business located in central South Dakota along the Missouri River. We are in the seedstock business to produce performance oriented Simmental, SimAngus™ and Angus bulls and females aimed at the commercial production of efficient beef cattle with high cutability. Traits such as polled or horned status, color, eye and udder pigmentation, disposition, udder quality, scrotal circumference and hoof quality are taken into consideration when making breeding decisions. Contact us for more information about our program and the genetics we have to offer.

Have You Checked Out Active Herd?

A FREE and EASY cattle management software.

Keep up-to-date informal records that can be directly imported into ASA's database.

Easy access:

Import existing active animal groups or create new pasture groups and animal records.

Stay current:

Add updated performance data: actual birth, weaning, and yearling weights; calving ease scores; and import information directly into Herdbook for the most accurate EPD updates.

Save time:

Directly register cattle by moving informal pasture groups and records into an ASA job for data submission.

Save money:

Active Herd's goal is similar to other cattle management software but free with ASA membership.

Track Your Management Data:

- Herd health treatments
- Breeding, pregnancy, calving
- Weaning and yearling weights and measurements
- Inventory and active pastures

To access:

Log into herdbook.org, go to "Herd Mgmt", and select "Active Herd".

Members Focus on Data

We are now in an era where science, particularly the field of genomics, is rapidly influencing the speed at which we understand an animal's genetic potential. One DNA sample is like adding 20 to 25 progeny records to an animal's EPDs. Genomics are a wonderful tool to improve EPD accuracy; however, the backbone of every genetic evaluation is still performance data. Without records for traits of interest, we can't use genomics to its full potential. Looking toward the future it's important to continue collecting and submitting performance data on your animals, in addition to using genomic technology.

Members benefit from ASA programs built to ensure quality record reporting and reward important but rare data like mature cow weights, feed intake, carcass records, and female genotyping.

Total Herd Enrollment (THE)

THE is a cow-inventory-based reporting program to gather production, longevity, and fertility performance data on the cow herd. THE requires participants provide annual reproductive and inventory status on their cow herd. To comply with the program, a breeder is required to submit a calving record for every cow on inventory that calved during the year (whether its calf was dead or alive) or a productivity code as to why she did not calve.

THE is designed to:

- 1) Improve quality of data submitted for genetic evaluation through whole contemporary group reporting
- 2) Improve and develop reproductive EPDs by focusing on the cow herd

There are four THE options (Figure 1) designed to meet the needs of the variety of ASA member operations. Options vary by fee structure and the data returned. Please contact your THE team to assist in selecting the option that best fits your breeding program.

Figure 1. Total Herd Enrollment Options

	Option A (TR) Total Registration	Option B (SR) Selective Registration	Option C (LR) Limited Registration	Option D (CM) Commercial
Enrollment Fees:	\$15.00	\$0.00	\$7.50	\$500/herd
Registration Fees:	\$0.00	\$30/\$40/\$50 ^a	\$30/\$40/\$50 ^a	\$42/\$52/\$62 ^a
Choosing the best options:		^a Depending on age of calf	^a Depending on age of calf	^a Depending on age of calf
If you register > 45% of your calf crop.	✓			
If you register < 45% of your calf crop and don't use EPDs for selection decisions.		✓		
If you register < 20% and use EPDs for selection decisions.			✓	
If you have a commercial herd.				✓
Benefits of Enrolling:				
EPDs to make informative selective decisions.	✓	Reg. Animals Only	✓	Females Only
Herd participates in genetic evaluation.	✓	✓	✓	✓
Reproductive record on every cow enrolled.	✓	✓	✓	✓
Commercial cows or cows of other breeds are eligible.	✓	✓	✓	✓
Requirements when enrolled:				
Every registered SM/SI dam must be enrolled.	✓	✓	✓	
Each dam enrolled must have calf or productivity reported/year.	✓	✓	✓	✓
Deadlines to be met for enrollment and calf data.	✓	✓	✓	✓

Performance Advocate Program

Members in THE are eligible to participate in the Performance Advocate Program. The Performance Advocate Program encourages thorough reporting of performance records.

To become a performance advocate, breeders submit data on their entire calf crop for multiple traits.

Breeders need to be vigilant about using calf removal codes to achieve Performance Advocate status. Herdbook Services provides graphs indicating the proportion of calves with data for each trait for easy tracking.

Performance Advocates are highlighted annually in the Late Fall *SimTalk* and on ASA's website — a designation that carries weight in the industry. In 2018, 91 data-driven breeders were recognized as Performance Advocates — way to go!

ASA Performance

Cow Herd DNA Roundup (CHR)

The CHR is a great opportunity for members to test their entire cow herd at a very inexpensive cost. Through the CHR, members have rapidly increased genotypes and phenotypes from their cow herds. In one year, the number of females genotyped increased by 30,000 and nearly all of these have mature weight with either body condition score and/or hip height measurements — important indicators of cow intake requirements.

In addition to the global benefits of improved maternal trait predictions, the CHR brings great benefits to participating members:

1. For many traits, adding genomic results to a cow's EPDs is similar to adding a lifetime of calf records to the cow's information.
2. Parentage included — current error in parentage is estimated at 7%. Large-scale testing will reveal and help correct errors in pedigrees resulting in better EPD predictions and cleaner records for the future.
3. Parentage markers are in the database for easier parentage testing in the future.
4. Additional trait testing available at lower "add-on" pricing.

Carcass Merit Program

From providing confidence in calving ease to predicting end product value, the Carcass Merit Program (CMP) offers critical records to ASA members. Historically, the CMP contributed over 1,000 birth through weaning records, and over 500 yearling weights and carcass records annually. Recently ASA added new cooperator herds, individual feed intake collection, and genotyping calves to the program. In 2018, the ASA tested 33 bulls in nearly 2,000 females, and collected almost 600 carcass records. The ASA added 1,000 genotypes on terminal calves — extremely rare and vital data for genomic marker predictions of carcass traits. Breeders interested in obtaining rare and valuable carcass records can enroll in the CMP for \$1,500/sire.

Carcass Expansion Program

New in 2018, the Carcass Expansion Program aims to ramp up the number of carcass records on genotyped cattle in the ASA database. Read the Science and Technology section for more information.

Incentive for Feed Intake

The ASA offers a 50% price discount on GGP-LD genomic tests, in exchange for feed intake data. This incentive couples the need to increase the number of feed intake records in our database with an increase in the use of genomic testing.

Genomic Testing

Outside of the above specific programs, ASA strongly encourages breeders to leverage genomic testing to quickly increase accuracy of EPDs in unproven cattle (see Science and Technology section for more). In the past two years, the number of genotypes in the genetic evaluation has tripled — this is extremely valuable for those using the IGS evaluation for breeding decisions — keep up the commitment ASA members!

Commercial Services — Value Added for Members' Customers

ASA seedstock breeders can leverage ASA and IGS commercial programs to provide better service to their customers. Encourage your commercial customers to enroll in the THE commercial option, CHR, and use the IGS Feeder Profit Calculator™ to make more informed decisions and market their calves more effectively. In addition, adding records from your customer's herd is like building your own young sire test program. Make ASA's customer service team your customer service team.

Sale Date:
Family Matters Sale
September 21, 2019, Auburn, KY
TN Beef Agribition
March 14, 2020, Lebanon, TN

Our operation focuses on exceptional donor females stemming from some of the breed's top cow families, and utilizing those genetics for embryo transfer. We flush several donor females to produce genetics that are offered at the Family Matters Sale, and the Tennessee Beef Agribition. We can guarantee if you purchase an animal from Tylertown Simmentals that it possesses the best genetics we can offer, and it has been raised with tender loving care!

Please stop by if you are in the area, or contact us if we can assist you with any questions concerning our operation or the genetics we have to offer.

Building Blocks of Commercial Genetic Awareness

by Lane Geiss, Director of Commercial and Nontraditional Data Programs

The commercial programs offered by the American Simmental Association (ASA) are an effort to provide genetic tools to the largest sector of the beef industry— the cattle operations. These efforts are supported through multiple ASA programs and the world’s most comprehensive beef genetic database. The three pillars to ASA Commercial Programs are the: **Total Herd Enrollment — Commercial option (THE-CM)**, **Cow Herd DNA Roundup (CHR)**, and the **IGS Feeder Profit Calculator™ (FPC)**. These programs allow commercial producers to maximize the genetic awareness surrounding their program and to make better management and selection decisions.

Each of these programs are designed to offer assistance at three key management moments in commercial operations; **Breeding, Heifer Selection, and Weaning**. This article will briefly dive into how each program functions.

Total Herd Enrollment — Commercial

The THE-CM is the foundation to these programs and allows participants to fully capitalize on the true genetic awareness of their cow herd. This is a whole-herd reporting program that helps isolate the known genetic potential of every female owned. The industry’s best metric for understanding genetic merit on individual animals is through an expected progeny difference (EPD). Simply put, an EPD describes the difference in production value for a given trait compared to other cattle. These are all calculated through pedigree relationships and performance records — and genomics if desired. Selection indexes take that one step further by combining multiple economically relevant EPDs along with industry costs and thresholds into a prediction model. Seedstock breeders undoubtedly use EPDs and selection indexes to make mating decisions. Why shouldn’t commercial producers have the same technology?

Follow this link to learn more about THE-CM: www.simmental.org/commercial

Cow Herd DNA Roundup

The CHR is an opportunity to push the accelerator on female genetic awareness. Every cattleman knows which cow is his best producer, but do they know right away which replacement heifer will fill that role? The field of genomics allows us to gain a better understanding of a young heifer's genetic potential even before she starts producing. This technology uses known regions on the bovine genome that impact specific economically relevant traits. For example, longevity in cattle is known once they've been in production for almost a generation, but producers would hope to know that information before they invested time and money in replacements. Through genomics, we can use known genetic markers to give an indication of whether a female may last in the herd longer (or shorter) than others. The CHR will provide years of information before you have to invest years of time.

Follow this link to learn more about CHR:
www.simmental.org/chr

IGS Feeder Profit Calculator™

While the other two programs are focused around the cow herd, the FPC is centered around where commercial producers make ends meet. They've invested a lot of time and money into not only their cow herd, but also their bull battery because they know the role genetics play in the end product. They've also invested in their management protocols to ensure the feeder calves they raise will stay healthy and perform in the feedlot. These investments help producers stay profitable and build a more valuable feeder calf, but are their buyers aware of their commitment? The FPC is a third-party view of the profit potential on a calf crop through the understanding of genetics, health, and management. Buyers want low-risk, high-potential calves with earning potential. Producers want to highlight that their calves fit potential buyer's needs. As opposed to traditional marketing slogans and empty statements let's provide true awareness. **We can Know or Guess. Choose Know.**

Follow this link to learn more about the FPC:
www.internationalgeneticsolutions.com

ST

Clint Berry

"The FPC is a simple and easy tool that commercial cattlemen can utilize to differentiate their cattle in the marketplace. Works in breeding programs using various breeds and has no cost to the producer."

Since 1982, **Buzzard Hollow Ranch** has been striving to produce Fleckvieh cattle that are moderate framed with fertility and milk, easing calving, set on sound feet and legs. The cattle have to have body capacity, natural muscling, short hair coats, longevity, carcass quality, ease of fleshing and eye appeal, all to meet the needs of our environment and that of our customer base. In addition to the Fleckviehs, Simbrahs and SimAngus™ have been added to the program, along with Red Angus to meet the needs of a broader customer base. Select both Power and Maternal genetics and blend them into a select product that has calving ease and growth, fertility, milk, muscle, depth of rib, ease of fleshing, with excellent carcass data all set on sound feet and legs. Our future depends on our ability to produce cattle that meet the needs of the Seedstock Producers worldwide and meet the needs of the Commercial Cattle Industry.

7P Ranch

For close to 50 years, we've been producing Simmental and Simmental-influenced cattle.

You see, we believe in these cattle and our breed association, and we believe there is not a better way to add the combination of growth, maternal and carcass traits to your cowherd than by utilizing Simmental and Simmental-influenced genetics.

We have incorporated breed leading sires in our extensive AI program in order to produce cattle you can count on. Recent Purebred Simmental AI sires include: Hook's Beacon, Hook's Baltic, TJ Jackpot, CDI Maverick, TRAXS Rushmore and WS Zenith.

Recent SimAngus™ AI sires include: CCR Boulder, NLC Entrepreneur and TJ Dark Horse.

In the last two years we have added a new dimension to our program by breeding a substantial portion of our Simmental cowherd to elite Brahman AI sires to produce 1/2 Simmental 1/2 Brahman females.

We are excited to be offering 50 of these bred F1 Simbrah heifers in our upcoming Fall Production Sale.

Join us at our upcoming sales at the ranch, Tyler, Texas

2019 Board of Trustees

Committees

Executive Committee

Gordon Hodges, Chairman
Tim Curran, Chairman-Elect
Randy Moody, Treasurer
Erika Kenner
Mike Forman
Wade Shafer (EVP)
Staff Contact: Linda Kesler

Activities & Events

Review and recommend to the Board any new Association activities and events or changes to existing programs. An Association program is defined as any event that is sponsored in whole or in part by the Association in terms of financial support, staff time and effort, or the use of the Association name. It shall include, but not be limited to, such items as sales, contests, programs and membership in other organizations.

Steve Eichacker, Chairman
J. W. Brune
Jim Ligon
Cliff Orley
John Griswold
Tim Smith
Tom Nelson
Clay Lassle
Staff Contact: Rachel Endecott (lead)
and Luke Bowman

Finance

This Committee shall monitor the investment program of the Association on a periodic basis, review the income and expense reports monthly, prepare and submit to the Board of Trustees for approval an annual operating budget, and review proposed capital expenditures for approval or recommendation to the Board.

Randy Moody, Chairman
Gordon Hodges
Tim Curran
Steve Eichacker
Tim Smith
Staff Contact: Linda Kesler

Growth & Development

Review and recommend to the Board of Trustees new programs or activities which will foster and promote the continued growth and development of the breed and the Association. Functions such as promotion, public relations, member relations, advertising, and the role of the Association within the beef industry will be addressed by this committee.

Mike Forman, Chairman
Tim Curran
Randy Moody
Fred Schuetze
Gary Updyke
Greg Walthall
Tom Hook
Erika Kenner
Staff Contact: Chip Kemp (lead),
Jannine Story,
and Lane Giess

Breed Improvement

All activities which would have a bearing on the improvement of the breed will be the responsibility of this Committee. Performance guidelines, research, genetic monitoring, DNA analysis, and regulations for new technology, are examples.

Tom Hook, Chairman
J. W. Brune
Tim Curran
Tim Smith
Clay Lassle
Tom Nelson
Cliff Orley
Fred Schuetze
Staff Contact: Jackie Atkins (lead),
Lauren Hyde,
and Mahdi Saatchi

Policies & Procedures

This committee shall be responsible for the aspects of Association life that require an interpretation of policy or procedural questions or the formulation of proposals that will have a bearing on the membership of this Association.

Randy Moody, Chairman
Erika Kenner
Gary Updyke
Jim Ligon
John Griswold
Greg Walthall
Steve Eichacker
Mike Forman
Staff Contact: Steve McGuire (lead)
and Sheldon Ross

Simbrah

The objectives of this Committee are to review policy, rules, regulations, activities, promotional methods, and materials which pertain to the Simbrah breed and make recommendations to the ASA Board of Trustees.

Jim Ligon, Chairman
Fred Schuetze
John Griswold
Randy Moody
Tim Smith
Tim Curran
J.W. Brune
Greg Walthall
Staff Contact: Luke Bowman (lead)

Trustee Nominating Committee

The Vice Chairman shall serve as Chairman. One Trustee from each of the four areas will be appointed to complete the Committee. A minimum of two (2) persons for each vacancy on the Board will be presented for consideration as Board nominees. The Board shall then select a nominee whose name shall be placed on the nominating ballot.

Tim Curran, Chairman-Elect
Mike Forman
Cliff Orley
Fred Schuetze
Erika Kenner
Staff Contact: Linda Kesler

Columbus, MT

**Keeping quality at the center of
our attention!** Our emphasis in our
breeding program is to provide a
complete package: balanced EPDs,
visual appraisal, growth, and efficiency!

For Quality Simmental Purebred
and Percentage Give Us A Call!

ASA Membership

Consider joining the American Simmental Association

We take our mission statement seriously and pride ourselves in the programs we have available for your advantage. Our friendly customer service staff are just a phone call away — 406.587.4531 or by email: simmental@simmgene.com.

ASA Membership Perks

- ◆ Access to Herdbook Services to report performance records, transfer animals, use planned mating tool, search EPDs, or generate reports on your herd
- ◆ Free access to our simplified cattle management software, Active Herd
- ◆ 24 hour/7 days a week access to online registration and payments
- ◆ Rights and privileges to elect Trustees and vote on changes to Rules and Bylaws
- ◆ Opportunity to participate in complete herd reporting with reduced or no registration fees for enrolled animals in the Total Herd Enrollment (THE) program
- ◆ Access to world's largest multi-breed database and genetic evaluation.
- ◆ Venues for interaction with progressive, innovative breeders like you.
- ◆ Educational/Informational opportunities through print and electronic medias to keep you up-to-date. *SimTalk*, *the Register*, *enews*, and simmental.org to name a few.
- ◆ Thriving state associations to connect you with like-minded breeders.
- ◆ Member oriented data programs like the Cow Herd DNA Roundup to help your operation thrive.
- ◆ TraitTrac — designed to trace genetic defects.
- ◆ ASA's customer service team ready to provide assistance.
- ◆ Open HerdBook Policy — accepting all data regardless of breed or breed composition.

Become involved with progressive, innovative breeders like you through the American Simmental Association.

Visite our website to learn more:

www.simmental.org

Do you want to maximize genetic profitability on your ranch?

Gain the ASA advantage by using . . .

◆ The world's first, largest and most powerful multi-breed genetic evaluation

Fueled by data from 11 progressive breed associations across the United States and Canada that combine for over 17,500,000 total animal records with over 375,000 new animals added annually.

◆ An industry-common EPD base

Direct across-breed EPD comparisons simplify and allow for more effective crossbreeding decisions.

◆ Economic Selection Indexes

Long accepted by animal geneticists and competing meat animal species as the most effective means of utilizing EPDs to maximize profit.

American Simmental Association

Founders of IGS an unprecedented collaboration between progressive breed associations to enhance beef industry profitability.

BTR**TOM BROTHERS***"Generations of Commitment to the Land, Cattle, and People"***Tomorrow is what drives us today.**

We've been working towards tomorrow since 1857, when we began ranching in South Texas. We continue to combine common sense, hard work and innovation into our performance-based selections. Being poised for the future drives our management style and decision making that has allowed us to endure for generations.

We measure. We evaluate. We track progress and we plan for tomorrow. We want our cattle to always work in a variety of management scenarios, be problem free and continually add to the profit potential of our program and our customers.

We're not just here today... our history, our cattle and our program all point to tomorrow.

SIMANGUS™ and SIMBRAH

Sale Date:
Annual Bull & Heifer Sale
and Open House,
November 9, 2019 at the farm.

MEETING YOUR NEEDS as a genetic
provider of quality bulls and heifers
is important to us. We strive to raise
Simmental and SimAngus™ bulls that
will improve your herd and make you
money. We have calving ease and
power bull options and combination
bulls too to fit your herd production
goals. The heifers are bred to make
great cows and we also have some
nice show heifers each year. Feel free
to contact us for any of your cattle
needs or to discuss the
Simmental breed.

2019

October

6 WSA Midwest Fall Round-Up Sale
Grant County Fairgrounds – Lancaster

2020

March

21-22 WSA Annual Meeting and Spring Spectacular
Sale Weekend
Grant County Fairgrounds, Lancaster, WI

Junior Purchase Credit Incentive Program

- Juniors purchasing heifers, steers or embryos at a WSA sanctioned sale will now be eligible to receive credit toward their next purchase of an animal and/or embryos at future WSA sanctioned sales or utilize earned show credits, if eligible, toward scholarships.
- Juniors must be a member in good standing in either the WJSA or a member of another state cattle association. Any Junior that shows his or her animal at least twice and provides validated proof of purchase and participation in an event with the animal that was purchased at a WSA sanctioned sale shall be eligible for a \$150.00 credit toward their next purchase of an animal from a WSA sanctioned sale. Any Junior in or entering his/her Junior year of High School up to their maximum WJSA membership age, with commitment to a post secondary education will be eligible to convert their purchase credits into a scholarship to the school of their choice. Scholarship will be paid upon completion of first semester and proof of enrollment in the following semester.
- The animal is not required to place or win to be eligible.
- Please refer to the WSA/WJSA website for more information.

WILKINSON FARMS SIMMENTALS

WS PROCLAMATION E202 // PB SM

ASA#: 3254156

High selling bull in our 2018 sale. He has impressed several astute cattlemen with his overall physical presence. First calf crop has produced awesome reports!

KBHR SNIPER E036 // PB SM

ASA#: 3312030

Herd Sire at Wilkinson Farms and the high selling bull in Keller's 2018 sale. Outcross red genetics paired with phenomenal carcass traits. First calf crop averaged 70-75lbs on first calf heifers at our ranch.

BREEDING FOR THE FUTURE

Are you a Canadian breeder wanting the most complete source of Simmental information in the US?

Get
the Register
and
SimTalk!

the Register, the official publication for American Simmental Association, is sent to all active members. If you are not a member, but still want to receive *the Register*, it is easy to subscribe.

ASA Membership:

1. Membership costs: \$50.00 initiation/set-up charge plus \$110.00 annual service fee which totals \$160.00 US Dollars for the first year.
2. Annual service fee after the first year is \$110.00/year US Dollars.

If you have or would like to join the ASA, contact the ASA office at 406-587-4531 or join online.

Subscription — *the Register*:

1. Subscription rate: \$150.00/year US Dollars. 9 issues produced annually.
2. All issues of *the Register* are mailed first-class.

To subscribe, you may do so by contacting Nancy Chesterfield or Rebecca Price at 406-587-2778.

Fees:

- Fees are in US dollars.
- Payment may be made by Visa, MasterCard or Discover.
- Payment by check must be in US dollars and include a nine digit routing number to avoid conversion costs and a \$10.00 international bank fee.

SimTalk:

Designed for the commercial cattleman, *SimTalk* has a circulation of more than 40,000 readers. Print subscriptions to *SimTalk* are not available in Canada. An electronic online version of *SimTalk* is available for free:

- Visit the American Simmental Association website: www.simmental.org — Click on “ASA Publication” tab.
- Under *SimTalk* click on “read this issue”.

Have you visited simmental.org lately?

The main page of the website has a new look highlighting ASA spotlight articles, industry news, and easy to navigate location for articles in a series. simmental.org makes it easy for you.

Sections include:

- ◆ Industry News and Events
- ◆ ASA Spotlight

Best Practices for Seedstock Breeders

Jackie Atkins, Ph.D.

Matt Spangler, Ph.D.

Bob Weaver, Ph.D.

Wade Shafer, Ph.D.

Best Practices to Receive the Most Accurate Genetic Predictions.

1 Clearly defined breeding objectives

With the ability to increase the rate of genetic change comes the possibility to make mistakes at a faster pace. Breeding goals need to be clearly identified to ensure selection at the nucleus level matches the needs (profit-oriented) of the commercial industry.

2 Whole herd reporting

Inventory-based reporting captures more complete phenotypes on reproduction and longevity traits, and thus creates more accurate genetic selection tools.

3 Proper contemporary groups

It is important for the precision of the genetic evaluation to group animals treated uniformly. Proper reporting of contemporary groups reduces bias in EPDs.

4 Take data collection and reporting seriously

Phenotypes are the fuel that drives the genetic evaluation. Take pride in collecting accurate data. If possible, collect additional phenotypes like mature cow weight, cow body condition score, udder scores, feed intake, and carcass data.

5 Phenotypic data collection for economically relevant traits needs to improve in both quantity and quality.

The quantity and quality of fertility traits, needs to dramatically improve. Providing disposal codes to identify why females leave the herd is vital. Commercial data resources, where the true economically relevant traits exist, are going to become more critical to capture. Breeders can help prove the genetics of their own seedstock by encouraging their commercial customers to join ASA's Commercial THE option and add valuable data to the evaluation.

6 Use index-based selection

As the list of published EPDs continues to grow, using economic selection indices will become even more helpful to reduce the complexity of multiple trait selection.

If the number of EPDs increase, tools to reduce the complexity of sire selection for commercial producers must continue to develop. Breed associations and seedstock producers have the obligation to aid commercial clientele in making profitable bull selection decisions.

7 Use genomics

Genomic selection offers an opportunity to increase the rate of genetic change and break the antagonistic relationship between generation interval (the average age of the parents when the next generation is born) and the accuracy of selection (e.g., accuracy of EPD) — two components that determine the rate of genetic change. However, as with any tool, genomic information must be used correctly and to its fullest extent. What is proposed herein is a list of 'best practices' for producers and breed organizations relative to genomic testing.

Best Practices for Genomic Testing

1 All animals within a contemporary group should be genotyped.

If genomic data are meant to truly enable selection decisions, this information must be collected on animals before selection decisions are made. The return on investment of this technology is substantially reduced if it is used after the decision is made.

2 Both male and female animals should be genotyped.

The promise of genomic selection has always suggested the largest impact is for lowly heritable and/or sex limited (e.g., fertility) traits or those that are not routinely collected (e.g., disease). This is indeed true, but it necessitates that genotyped animals have phenotypes. For sex-limited traits, this becomes a critical choke point given the vast majority of genotyped cattle are males. If producers wish to have genomic-enhanced EPDs for traits such as calving ease maternal and heifer pregnancy, they must begin or continue to genotype females. The ASA has a unique program called the Cow Herd DNA Roundup (CHR) to help herds collect female genotypes (see pop-out box below for more information). Through the CHR, members of the ASA more than tripled the number of female genotypes in the evaluation in less than one year.

3 Genotypes can provide useful information in addition to predictions of additive genetic merit.

Do not forget the value in correcting parentage errors, tracking inbreeding levels, identifying unfavorable haplotypes, estimating breed composition, and estimating retained heterozygosity. All of these can be garnered from populations that have a well-defined set of genotyping protocols.

The beef industry should be congratulated for the rapid adoption of genomic technology, but there is a lot of work to do. Of critical importance is the fact that genomic technology will continue to change and does not replace the need for phenotypes nor the fundamental understanding of traditional selection principles including EPD and accuracy.

Adding a DNA test to your decision is like knowing . . .

- ◆ 15 Calving ease scores
- ◆ 21 Birth weights
- ◆ 22 Weaning weights
- ◆ 24 Yearling weights
- ◆ Stayability/productivity records on 25 daughters
- ◆ 6 Carcass weights
- ◆ 8 Marbling scores
- ◆ 5 Ribeye area measurements

All this from a test you can complete before you wean the calf.

Total Herd Enrollment (THE)

A cow-inventory-based reporting program, THE requires participants to provide annual reproductive and inventory status on their cow herd. THE is designed to improve quality of data submitted for genetic evaluation and improve and develop reproductive EPDs. By submitting data on the entire calf crop or contemporary group, breeders will receive more accurate predictions of their cattle. The ASA has four THE options to fit most seedstock (and now commercial) operations.

Cow Herd DNA Roundup (CHR)

The Cow Herd DNA Roundup (CHR) is designed to increase the number of female genotypes to better predict maternal traits (such as maternal calving ease). Genotyping entire herds reduces bias created when only the best cattle are genotyped. Gathering massive amounts of genotypes on entire cow herds will significantly improve the genomic predictions and rate of genetic progress. As parentage testing is included, CHR herds will have pedigrees validated through DNA. Participating breeders gain the benefits of having genomically enhanced EPDs on the entire cow herd — equivalent to a lifetime number of calf records in several traits for an exceptional cost.

Carcass Expansion Project (CXP)

Despite the importance of carcass traits to our industry, few producers devote resources to collecting and recording actual carcass data. While the Carcass Merit Program (CMP) is a valuable progeny test, it is limited in the number of records produced. We cannot depend on the CMP alone to bring in carcass data. In the age of genomics, it is clear we need genotypes on animals with actual carcass phenotypes. Adding another layer of commitment to predicting carcass traits, the ASA initiated a new program, dubbed the Carcass Expansion Project, in the fall of 2018 to increase the number of carcass records on genotyped animals. The ASA Board of Trustees and staff are ramping up both phenotypic and genotypic data collection on terminal calves — a vital part of our vision.

SimTalk is an 8 1/8 x 10 7/8 inch publication produced by *the Register*, the official publication of the American Simmental Association. Published four times annually, *SimTalk* is a glossy, full-color publication with a circulation that targets commercial users of SimGenetics. Advertising in *SimTalk* provides a unique opportunity to brand and trademark your program to thousands of potential customers. If you are serious about communicating with the commercial beef business, consider an advertising presence in every one of our four annual issues.

Space and four-color rates for *SimTalk*:

Space Rates	Non-Contract	2X Contract	4X Contract	Four Color
1 page	\$890	\$840	\$800	\$300
2/3 page	\$760	\$730	\$700	\$200
1/2 page	\$510	\$480	\$460	\$150
1/3 page	\$380	\$370	\$350	\$100
1/4 page	\$260	\$250	\$230	\$75
1/8 page	\$150			\$50
3-inch mini	\$115			\$30
2-inch mini	\$85			\$15
2-inch card	\$289/year, 4 insertion			\$60
1-inch card	\$220/year, 4 insertions			\$40
Classified Ads	\$2.00/word, \$24.00 minimum, must be prepaid			

SimTalk Deadlines for Publication:

	Sales Close	Ad Materials	Camera Ready	Mail Date
Early Fall 2019	July 23	Aug 1	Aug 12	Aug 26
Late Fall 2019	Sept 20	Sept 27	Oct 7	Oct 21
January 2020	Dec 5	Dec 13	Dec 20	Jan 13
March 2020	Jan 20	Jan 30	Feb 8	March 2

ASA/*SimTalk* Membership Directory 2020 Deadlines for Publication:

May 1	May 10	May 23	June 15
-------	--------	--------	---------

Send all ad materials to: register@simmgene.com or Fax: 406-587-9301

A non-refundable fee of \$50.00 will be assessed if a client does not meet deadlines or if the client commits to advertising and cancels after the deadline or if the ad must be dropped to ensure on time publication.

Advertising materials (including photos) must be in *SimTalk* office by the dates listed above. *SimTalk*, which mails by bulk rate, assumes no responsibility for actual receipt date.

Design Charges

Advertising rates are for camera-ready ads only. Additional design charges will apply to any ad that is designed by ASA Publication, Inc.

Layouts & Proofs

Although every effort will be made to provide proofs on all ads, proofs are guaranteed only if all ad material arrives in *SimTalk* office prior to deadline.

Terms

All accounts are due and payable as invoiced. Interest charges of 1.5 percent per month (18 percent APR) will be added to accounts 30 days past due. If an account becomes 60 days delinquent, all ASA Publication, Inc. work may be suspended until full payment is made. After review by the ASA Executive Committee, ASA privileges may be denied to those with accounts over 90 days delinquent.

Advertising Content

SimTalk and its staff assume no responsibility or obligation to verify the accuracy and truthfulness of advertising copy submitted to *SimTalk*. However, *SimTalk* reserves the right to reject any advertising copy or photo which *SimTalk* deems unsuitable for publication for any reason, including copy or photographs which are false or misleading. *SimTalk* assumes no responsibility for the accuracy and truthfulness of submitted print ready ads. Advertisers shall indemnify and hold harmless *SimTalk* for any claims concerning advertising content as submitted. Advertising containing pedigrees or statements regarding performance must conform to records kept by the American Simmental Association. Copy deviating from official records may be changed as necessary without advertiser consent.

Editorial Policy

Opinions expressed are the writers' and not necessarily those of *SimTalk*. Photographs are welcome, but no responsibility is assumed for material while in transit or while in the office.

Sales Call

A bi-monthly
electronic announcement
of upcoming sales for
ASA Publication advertisers.

If you have recently advertised in ***the Register*** or ***SimTalk***, you are automatically included in **Sales Call** for the month prior to your sale, and is broadcast to over 7,500 subscribers. **Sales Call** announces the date of your sale, location, provides a link to your sale catalog or website.

Consider this package to promote your sale.

Basic Advertising Package Option

Contact:

Nancy Chesterfield
406-587-2778
nchesterfield@simmgene.com

Price: \$2,000

- ◆ One-year business card ad placement in *the Register* or *SimTalk*.
- ◆ One eBlast announcement prior to your sale.
- ◆ Two full-page ads in *the Register* or *SimTalk*.
- ◆ Link your sale to website.
- ◆ Sale announcement in **Sales Call** one month prior to your sale.
- ◆ Must purchase package in advance of your sale — ads can be placed throughout the fiscal year.
- ◆ Package can be modified.

Welcome to the cutting edge

Our new GGP lineup delivers amazing power to genomically enhance your EPDs.

Today, you can plan, select and manage young seedstock with the prediction accuracy of older bulls siring several calf crops. You can save years on your herd goals – for less than it costs to fill up with gas.

We not only make DNA testing easy. We make it profitable. From fast sampling of calf DNA to quick turn-around with new products that work in powerful synergy. From time-saving conveniences to a full range of innovations designed to help you take full advantage of beef genomics.

There are exciting new ways for us to work together to attain your goals with Simmental, SimAngus™, Simbrah and SimAngus HT cattle. And we would love to be your partner as you brand your legacy in the 21st Century. To learn more, contact ASA at (406) 587-4531 or visit www.simmental.org

Fullblood Simmental Fleckvieh Federation

If you are looking to add value to your herd, you cannot afford to pass up the proven benefits of Fleckvieh Simmental genetics! Fleckvieh cattle are moderate framed with excellent muscling and exceptional milk production. They easily adapt to diverse environmental conditions; hot or cold, they will perform in your location! Fleckvieh Simmental cattle provide management advantages with their docile temperaments and favorable birth weights. You can even custom design your herd by choosing from polled, horned and diluter-free genetics. It doesn't stop there! Maternal power? Yes! Fleckvieh cows exhibit excellent fertility and milking abilities. All that milk makes for fat, happy calves resulting in higher weaning weights. Terminal power? Yes! Fleckvieh cattle excel in the feedlot and on the rail, consistently producing the desirable carcass traits consumers' demand. Still have your doubts? The purity and consistency of the Fleckvieh lineage offers significant heterosis when utilized in Purebred and Commercial herds! Invest in Fleckvieh Simmental genetics to take your program to the next level!

Contact these Fleckvieh breeders or the FSFF office for more information.

Performance

with Profit in Mind

BALTIC

1SM00166 HOOK'S BALTIC 17B

Reg#: 2854454

GW-WBF Substance 820Y x Dikemans Sure Bet

- › Super sound with excellent feet and legs, BALTIC is proving to be the sire of long-lasting, docile females with the brood cow look.
- › With moderate birth weight and breed-leading growth, he will add the substance of bone and muscle many are seeking in a purebred Simmental bull. Look to BALTIC to add structural integrity and value to your next calf crop.
