SIM TALK

Linking SimGenetics to Commercial Cattle

SPECIAL ISSUE
2021 Membership Directory

**STAND STRONG
SIMMENTAL**

GREETINGS, ASA MEMBERS AND ALL FELLOW BEEF INDUSTRY PARTNERS

Randy Moody
Chairman,
ASA Board
of Trustees

There has never been a better time to be involved with the Simmental breed than today. I realize that saying is a mouthful, but I truly believe this to be a true statement.

The spring bull sale season is just wrapping up and it is amazing to see the enthusiasm and demand for SimGenetics all across the country. It is obvious that our breeders are producing the cattle that fit and meet the expectations of the

commercial cattlemen from coast to coast. Keeping the commercial industry in the best position to be profitable is the target ASA strives to hit every day.

ASA has many programs in place that give all cattle producers the opportunity to garner vast amounts of data (knowledge) about their cattle. Some programs that come to my mind are: the Cow Herd Roundup (CHR), Calf Crop Genomics (CCG), Carcass Expansion Program (CXP), and the Carcass Merit Program (CMP).

CHR and CCG are both designed to give you the opportunity to DNA test your animals at an extremely affordable price. CMP gives producers the ability to prove their young bulls in different herds. It is through this program and the CXP that ASA is increasing the

number of carcass records in the IGS Multi-Breed Genetic Evaluation. To put this in “cowboy” language, all of the aforementioned programs give us the most accurate and largest multi-breed genetic evaluation in the world.

The April board meeting was an amazing thing to be a part of. We were able to be face to face (this alone was reason to be excited) but the real prize was to see everyone working hard to keep focused on the betterment of all aspects of our Association. My advice is to stay tuned because in the near future you will see tremendous advancements with new EPD for your cattle.

Fall Focus 2021 will be in Denver, Colorado, August 27–31. The Colorado Simmental Association has worked alongside ASA staff to make the year’s Fall Focus a great event.

While thinking about all of the excitement among Simmental enthusiasts, we have to include our American Junior Simmental Association. The largest AJSA National Classic this breed has ever seen was held in the midst of a pandemic. I strongly encourage all of you to make your way to Grand Island, Nebraska, June 26-July 2, 2021, to experience the excitement and passion for SimGenetics with our juniors.

I close by saying thank you to all of our staff and past trustees for being the visionaries who got the wheels turning on this great journey the Simmental breed is experiencing today.

SIMMENTAL PROVIDES Open-breed Registration Promotion

Knowledge is a powerful tool for success.

The American Simmental Association (ASA) recognizes that informed, data-driven decisions improve the bottom line for both seedstock and commercial producers. Making access to complete herd data easier, the **ASA Board of Trustees recently passed an open-breed promotion to dual-register cows that are registered with another breed association at the nominal rate of \$5.00 per head for fiscal year 2022.** As the ASA runs an open herdbook to any breed and believes strongly in the benefits of crossbreeding, many members of the ASA raise a variety of breeds of seedstock. Dual registry enables breeders to garner EPD from the largest multi-breed beef cattle genetic evaluation with the International Genetics Solutions (IGS), opens opportunities with other programs available from the ASA, and paints a more complete picture of the herd when all cows are in the database.

“We are taking away that cost-based hurdle for any person who wants access to the IGS Multi-breed Genetic Evaluation to receive a multi-breed, directly comparable EPD,” shares Chip Kemp, ASA director of Commercial and Industry Operations. “If someone has been intrigued by our database but was holding out, this is the opportunity to invest, and bring a large group of females into the IGS database for a credible multi-breed EPD.”

Starting in July 2021, the ASA will reduce the rate to register a cow already registered in another recognized breed association from \$17.00 to \$5.00 for the 2022 fiscal year (July 1, 2021, to June 30, 2022).

ASA’s director of Performance Data Programs, Jannine Story, shares that by dual-registering females, cattle producers take advantage of more meaningful data by creating ties to other offspring and animals in the genetic evaluation. “Not only is this a clear advantage for current members to receive a more complete picture of their herd’s performance through fuller pedigrees,” she says, “but also, this open-breed registration promotion, coupled with our various Total Herd Enrollment options, provides any producer, who may have not had access to a multi-breed evaluation before, timely access to weekly updated, low-cost, cross-breed directly comparable EPD on cows and calves.”

Any person can apply for registration on an animal registered with another breed association. To take advantage of ASA’s open-breed registration promotion, all dual-registration requests must be received or post-marked during the 2022 fiscal year. **To get started, email a list of the other breed association numbers with tattoos to simmental@simmgene.com.**

Sales:

North Alabama Bull Test, and private treaty sales. This year we have a large selection of outstanding BWF bulls for sale at the farm.

Wells Farm's goal is to supply commercial cattlemen with a large group of quality Simmental and SimAngus™ bulls to choose from in a relaxed setting at the farm. We pay special attention to disposition, carcass traits, and conformation. We would like to invite you to become one of our repeat customers who use us each year for their bull purchases.

Sigmon Simmentals is a first-generation Simmental influenced cow-calf operation in Berryville, Arkansas. Founded in 1994, Mike and Lisa have since grown the herd to include 95 purebred Simmental and crossbred cows. The operation really flourished when their children, Kylee and Logan, began showing cattle in 2008.

Beef Solutions Bull Sale, Ione

Located one hour east of Sacramento, CA. Circle Ranch markets 150 head of SimAngus™ bulls annually.

Today's cowherd is primarily a SimAngus™ composite of 50% Simmental and 50% Angus and the bulls we offer are multigeneration half bloods. We harness the power of heterosis to create a more durable genetic product regardless of the environmental challenges posed. We absolutely have a herd target for mature size that we think best fits the majority of our customers and the larger beef industry. The lions share of our bulls hit that target dead center and many of our customers prefer them. On the edges however you will find genetics here that can produce power house performance for higher resource situations as well as some lines created to minimize maintenance requirements for low input regions.

ALL FOR ONE

 International
Genetic Solutions

International Genetic Solutions takes a new approach to the beef business: Collaboration. We're working with producers like you to build a better future.

See why a growing number of cattle breeds are joining forces to empower seedstock and commercial cattlemen to identify only the best animals for their herds.

It's genetic improvement accelerated.
It's power to succeed.

ONE FOR ALL IGS STAND TOGETHER

Sponsorship Packages ASA Fall Focus 2021

August 27 - 31
Denver, Colorado

**Contributions
may be made to the
American Simmental-Simbrah
Foundation designated
to the Fall Focus.**

For more information about
sponsoring Fall Focus 2021,
please contact Bill McDonald
at 540.230.6225 or by email at
mcdonaldfarms.bulls@gmail.com

Become a sponsor of ASA's Fall Focus 2021
and enjoy the following:

Bronze (Under \$500):

- Name listed in Fall Focus program (*must commit by June 10*).
- Name included on sponsor poster.
- Name on fallfocus.org.
- Group photo at the event.

Silver (\$500-\$999):

In addition to the above perks, donors will also receive the following:

- Banner ad on fallfocus.org.
- Designed poster — 20 x 30 inches.
- eNews recognition.
- Slide show promotion during breaks.

Gold (\$1,000-\$3,499):

In addition to the above perks, donors will also receive the following:

- An article about the donors in *the Register* and online.

Platinum (\$3,500 and above):

In addition to the above perks, donors will also receive:

- Ten minutes to address attendees.

Consider joining the Allied team in 2021

Upcoming events

2021

2021 Breed Bash – Brush, CO

Sat./Sun. June 5&6 – Multi-breed state field day
Sat., June 5 – CJSA annual meeting

2021 Colorado State Fair – Pueblo, CO

Mon., Aug. 30 – Junior Breeding Heifer show
Tues., Aug. 31 – Breeding bull show
Wed., Sept. 1 – Breeding female show

2021 ASA Fall Focus – Denver, CO

Fri., Aug. 27 – Tour of NWSS grounds and CSA
cattle displays
Sat., Aug. 28 – Educational day
Sun., Aug. 29 – ASA open committee meetings
Mon. & Tues., Aug. 30 & 31 – ASA board meetings

2022

National Western Stock Show – Denver, CO

*Note the slightly altered schedule for Simmental
events at the 116th NWSS*

Sat., Jan. 15 – Female pen show
Sun., Jan. 16 – Bull pen show
Mon., Jan. 17 – ASA Meet-n-Greet and
The One XXVIII sale
Tues., Jan. 18 – Junior/Youth show
Wed., Jan. 19 – Open-class bull and female shows

- ◆ Brochures
- ◆ Booths
- ◆ Banners
- ◆ Flyers
- ◆ Logos
- ◆ Posters
- ◆ Photo retouching
- ◆ Business cards
- ◆ eBlast ads

DATA DRIVEN PROGRAMS

Members benefit from ASA programs built to ensure quality record reporting and reward important but rare data, such as data like mature cow weights, feed intake, carcass records, and female genotyping.

Genotyping are a wonderful tool to improve EPD accuracy; however, the backbone of every genetic evaluation is still performance data. Without records for traits of interest, we can't use genomics to its full potential. Looking toward the future, it's important to continue collecting and submitting performance data on your animals, in addition to using genomic technology.

Total Herd Enrollment (THE)

THE ensures the most accurate prediction from the genetic evaluation so that both commercial and seedstock producers can make more informed selection decisions. THE is a cow inventory reporting program designed to gather production, longevity, and fertility performance data on the whole cow herd. THE requires participants to provide annual reproductive and inventory status on their cow herd.

Breeders benefit by

1. Improved quality of data submitted for genetic evaluation through whole contemporary group reporting.
2. Improved reproductive EPD by focusing on the cow herd.

"Whether registered or commercial, I like to know how our cows are performing. Each of our females need to look like a brood cow that has the structure and the EPD behind her to make it. Enrolling in THE gives us the data we need to produce animals that perform."

- Grant Jones, Chundy Land and Cattle, Haigler, NE

3. Performance Advocate recognition. Breeders who submit 90% of their entire calf crop contemporary group on 8 of the 13 traits qualify as a dedicated Performance Advocate. THE herds with 90% of the records on 10 out of the 13 traits qualify for the higher tier system. Those who meet this designation are highlighted in the Late Fall *SimTalk* and on ASA's website.

Contact your THE team to find the best fit for reporting data on your entire herd.

Cow Herd Roundup (CHR) and Calf Crop Genomics (CCG)

CHR and CCG are research projects launched by ASA in collaboration with Neogen® Genomics to offer 50% off a GGP-100K genomic panel to participating breeders who test their entire cow herd (CHR) or calf birth group (CCG). If breeders submit additional phenotypic data on the animals in either program, they can receive additional discounts.

CHR and CCG bring great benefits to participating members

1. Global benefits of improved trait predictions.
2. CHR: for many traits, adding genomic results to a dam's EPD is similar to doubling a lifetime of calf records to the cow's information.
3. CCG: More complete information to make selection decisions earlier in an animal's life, saving valuable resources spent developing bulls and heifers.
4. Parentage included. Large-scale testing will reveal and help correct errors in pedigrees, resulting in better EPD predictions and cleaner records for the future.
5. Parentage markers are in the database for easier parentage testing for the future.
6. Additional trait testing available at "add-on" pricing.

Andrew explains the decision behind enrolling in CHR. "And then we decided ... we might as well DNA test a lot of our cows as well. A lot of the bulls that we're buying are DNA tested and we figured if we want to improve our calves and our cow herds faster, then we probably want those EPD to be more accurate. And we figured if we DNA tested all of them that would speed up our process and increase the accuracies of the EPD."

- Andrew Katterman, Kattle Bell Farm, Hale, MI

Did You Know?

- ◆ The CMP has been the largest source of carcass data submissions to the ASA database.
- ◆ The CMP tests approximately 30 young sires in commercial herds annually.
- ◆ From conception to harvest, it takes approximately three years for carcass information to be added to a sire's performance proof.

"It is rare for a breed association program to literally be a win for everyone, but the CMP and CXP programs accomplish a big win for all. A win for the CMP herd by providing free semen, subsidized payments for each harvested carcass, complete birth to harvest processed data, and EPD on their cow herd that allows for more accurate genetic improvement for generations into the future. A win for the enrolled bull owner by supplying non-biased, third party complete data from birth to harvest on your sires as well as maternal data well into the future. Possibly the biggest win is for the members who do not enroll sires but use genomically-enhanced EPD. Yes, the CMP and CXP programs are a win for everyone."

*- Former ASA Chairman of the Board,
Gordon Hodges, Hamptonville, NC*

Carcass Merit Program (CMP)

From providing confidence in calving ease to predicting end product value, the Carcass Merit Program (CMP) offers critical records to ASA members. Historically, the CMP contributed over 1,000 birth-through-weaning records, and over 500 yearling weights and carcass records annually. Recently ASA added new cooperator herds, individual feed intake collection, and genotyping calves to the program. In 2020, the CMP tested 29 bulls in over 1,100 commercial females which will eventually source approximately 360 carcass records for the ASA genetic evaluation. All new CMP sires were evaluated on a prototype sequencing genomic panel helping further develop more impactful genomic technologies. Breeders interested in obtaining rare and valuable carcass records can enroll in the CMP for \$1,500/sire.

Did You Know?

- ◆ The THE commercial options have seen the largest growth in ASA animal enrollments in the past year.
- ◆ Pairing the commercial programs with any of the research programs (CHR, CCG, CMP, or CXP) is one of the quickest ways for commercial producers to accelerate genetic knowledge on their cowherd.
- ◆ For growth traits, a genomics test (GGP uLD or 100K) is like adding over 20 progeny records to that animal's EPD.

Carcass Expansion Project (CXP)

Despite the importance of carcass traits to our industry, few producers devote resources to collecting and recording actual carcass data. While the CMP is a valuable progeny test, it is limited in the number of records produced. We cannot depend on the CMP alone to bring in carcass data. In the age of genomics, it is clear we need genotypes on animals with actual carcass phenotypes.

In the fall of 2018, ASA added another layer of commitment to predicting carcass traits. ASA initiated a program called the Carcass Expansion Project to increase the number of carcass records on genotyped animals. The ASA Board of Trustees and staff are ramping up both phenotypic and genotypic data collection on terminal calves — a vital part of our vision.

Did You Know?

- ◆ All members benefit from the CXP. Carcass data and genotype information increase the robustness of carcass evaluation on every animal in the genetic evaluation.
- ◆ More than 52 herds, made up of ASA members, commercial breeders, and universities, took part in the research project.
- ◆ Over 4,385 DNA samples have been submitted in the CXP project since its beginning, with more to come.

Feed Intake Incentive

The cost of feed is the number-one cost to the beef industry annually (65% of the production cost of beef). The ability to predict differences in feedlot intake of sires' offspring is an important component in the assessment of differences in profitability between sires. Collecting individual feed intake data on calves of known sire groups will improve our ability to predict feed intake and thus improve our ability to predict differences in profit.

The ASA offers a 50% price discount on GGP-100K genomic tests, in exchange for feed intake data from the same animal. This incentive couples the need to increase the number of feed intake records in our database with an increase in the use of genomic testing.

Commercial Services — Value Added for Members' Customers

ASA seedstock breeders can leverage ASA and IGS commercial programs to provide better service to their customers. Encourage your commercial customers to enroll in the THE commercial option, CHR, and use the IGS Feeder Profit Calculator™ to make more informed decisions and market their calves more effectively. In addition, adding records from your customers' herds is like building your own young sire test program. Make ASA's customer service team your customer service team.

Sale Date:

Callaway Cattle Company's
AFFORDABULL SALE, Saturday
before Thanksgiving each year.
November 20, 2021

*We strive to produce highly fertile,
structurally sound, functional cattle
with performance, longevity, eye
appeal and balanced EPDs.*

Our visual selection criteria includes:

- 1) correct feet and legs,
- 2) ample muscling,
- 3) plenty of depth,
- 4) easy fleshing ability,
- 5) sound udders and
- 6) a moderate frame size.

*We would welcome the opportunity to
drive you through our pastures and let
you see our cow herd for yourself.*

*We currently have a group of fall calving
cows for sale private treaty as well as

The Proof is in the Progeny

A young sire test such as the Carcass Merit Program (CMP) serves two main purposes:

- Earliest progeny proof attainable on young sires.
- Commercial producers sample promising young bulls for free.
- Reward-based program for commercial producer involvement.

PROFIT THROUGH SCIENCE
American Simmental Association

EDUCATION

ASA strongly believes in education and communication with our members and their customers.

One of the first places commercial cattle producers go for help in understanding genetics is their trusted seedstock suppliers. Keeping ASA members up to speed on beef cattle genetics not only benefits our members, but helps their customers make more informed decisions. ASA strongly believes in education and communication with our members and their customers using a variety of platforms including printed articles, online resources, social media outlets, presentations at a variety of events, and the Fall Focus educational symposium. ASA's educational efforts involve many of our team and overlap with programs like our State Association relationships, SimSpecialist team, marketing efforts, and publications.

the Register and SimTalk

Two main missions of ASA Publication, Inc. are to educate and communicate with ASA members. Our magazines are chock-full of articles about seedstock breeders, commercial producers, innovations in the beef industry, and noteworthy events.

eNews

ASA's weekly electronic newsletter is packed with timely updates. Subscribe to eNews and have the latest ASA events and news delivered to your inbox every week. To subscribe, go to www.simmental.org/eneWS.

Website

www.simmental.org

In 2019, simmental.org took on a "newsier" landing page with industry updates, the Down to the Genes, Women of ASA, and breeder features in one easy-to-locate and searchable spot.

The Learning Library, launched in 2019, is an easily accessible resource center highlighting SimGenetic cattle, the basics behind EPD and dollar index systems, ASA's many programs and services, and the latest technologies available through DNA and genomic testing.

IGS Carcass EPD Updates

IGS Carcass EPD Updates
By Heidi Johnson, Ph.D.

Carcass records on terminal cattle, female rare and highly sought-after phenotypes for National Cattle Evaluation. As the number of carcass phenotypes are limited to the National Cattle Evaluation, the data used to estimate the IGS Meat Animal Research Center to adjust genetic predictions for carcass records. Programs like the Carcass Merit Program and Carcass Evaluation Program are adding valuable terminal records and genomic information to the genetic evaluation.

As with any trait under selection, some effects will change over time. For example, the genetic value of carcass records will change over time as the genetic value of carcass records changes. The genetic value of carcass records will change over time as the genetic value of carcass records changes. The genetic value of carcass records will change over time as the genetic value of carcass records changes.

IGS BULL SESSION

What can breeders do to make EPDs better more accurate?

Thursday, July 16 at 5:00 p.m. Mountain

Join Industry panelists: Ryan Boldt (Red Angus Association of America), Dr. Bob Weaver (Kansas State University), Toby Jordan (Waukar Farms), Casey Fanta (Porter Ranches), Kevin Porter (Porter Ranches)

Seedstock breeder panelists: Toby Jordan, Casey Fanta, Kevin Porter

to learn specific tips for breeders to record and submit high-quality data for genetic evaluation.

Register for the IGS Bull Session at internationalgeneticsolutions.com

IGS International Genetic Solutions
beef@internationalgeneticsolutions.com
www.internationalgeneticsolutions.com

In lieu of in-person educational symposiums in 2020, ASA and IGS offered several online webinars open to the public on a variety of topics including feet/leg scoring, the "Why" behind the IGS collaboration, updates to growth trait prediction, what breeders can do to improve the accuracy of their EPDs, and how can those interested collect carcass records.

Fall Focus

The ASA Fall Board meeting is coupled with a day-long educational session focused on animal breeding and current topics important to seedstock breeders and commercial cattle operations. Open committee meetings and staff updates are a perfect opportunity to learn what's happening at the ASA, and offer your ideas. Due to restrictions surrounding the COVID-19 pandemic, the 2021 Fall Focus moved to Denver, CO on August 27 to 31. Fall Focus 2022 will be in Roanoke, VA.

Watch for more details and view past years' presentations at www.fallfocus.org.

State Associations

State associations are locally and regionally based Simmental entities that operate independently from ASA to support seedstock breeders in specific locales. Access your state association officers on ASA's website.

SimmApp

The SimmApp is a one-stop shop for many of ASA's outreach efforts. To download the app, go to the Google Play Store or the Apple Store on your phone.

You can find ASA, AJSA, and IGS on your favorite social media platform too!

Educational Promotion of ASA's Services and Programs

In 2018, ASA expanded opportunities for members to request ASA SimSpecialists to attend their events. This new infrastructure aims to grow awareness of ASA services and programs among ASA members, their customers, and the beef industry community.

This may be a formal presentation, as one of the speakers at an event, or a few minutes in front of the crowd with an invite to consult one-on-one about ASA's programs and services. We are seeking members who would like an event to be considered. Notify ASA if you meet at least one of the five parameters.

1. Audience Qualifier

Must have a minimum of 25 individuals in attendance; highlighting ASA program(s); event must align with ASA goals and programs; ASA personnel must be the focus for at least 30 minutes or 50% of the event.

2. \$3,500 in Business with ASA

(within a fiscal year) per membership; must allow some form of education or program awareness.

3. \$2,000 in Advertising with ASA Publication

Must be a singular membership/account or a collaborative sale; must allow some form of education or program awareness.

4. \$500 "Buy-a-Day"

Must allow some form of education or program awareness.

5. State Associations

State associations receive two free days per year for ASA attendance; must allow some form of education or program awareness; one of the two days must be a commercially oriented event.

Sale Date:
Annual production sale. Offering
PAP tested SimAngus™, Angus, and
Fleckvieh bulls and females. Sale
date will be Friday March 25, 2022.

Vertical Edge Genetics practices the art of fine breeding in our seedstock operation that produces PAP tested Angus, SimAngus™ and Fleckvieh cattle. We strive to produce moderate framed, efficient, sound structured mother cows that excel in a high desert environment. With that efficiency we demand good work ethic and profitable performance in our 4 – 5 frame cows. We do not creep feed, and run on non-irrigated native grass pastures with just salt and mineral supplement.

We would love to visit with you anytime and enjoy showing the cowherd to visitors.

Sale Date:
Bulls of the Big Sky,
Billings, MT,
February 21, 2022

Our genetics originate from purchases we made in 1992, but we use today's leading edge genetics to make cattle that can perform for the commercial and seedstock producers with today's needs.

We are very excited to continue to build and celebrate the 13th Annual Bulls of the Big Sky Sale February 21, 2022.

Our females join the Western Choice Simmental Sale December 4, 2021.

INTERNATIONAL GENETIC SOLUTIONS

Data is our life blood!

No One Shares Like IGS

Early in life, we are taught to share. Share with our siblings, share with our classmates, share with our neighbors. The fact that we have to learn this behavior is telling — it's not instinctive. It's human nature to protect what is "ours" and become territorial to ensure we have what we need to survive and thrive; however, we have seen how we all can do better by working together, sharing resources, and maybe most importantly, sharing ideas. This philosophy of camaraderie and collaboration is at the heart of the International Genetic Solutions (IGS).

IGS aims to serve the beef industry by providing resources for genetic improvement using the best technology available and unprecedented collaboration. The IGS collaboration now has 20 million animals and over 300,000 genotypes from nearly 20 different organizations. Not only is it the largest beef cattle database, but it also has a huge amount of connectivity among the different organizations. Nearly one-third of the progeny records in the IGS evaluation have siblings in a separate database and multiple sires have progeny in as many as 12 databases. If each of these databases was an island with an isolated evaluation, we could all breathe a little easier because the evaluation would be much simpler. But it wouldn't be better. It wouldn't be as accurate. It wouldn't give the best genetic predictions of the animals in the evaluation.

Instead, the IGS model has chosen the harder path. It is complex to have one evaluation with 20 different data sources. It is challenging to have a multi-breed genetic evaluation and to account for different breed effects and heterosis. But at the end of the day, we want to provide the BEST possible genetic predictions, not only to seed-stock breeders but for anyone using EPDs to select their future genetics.

The IGS model also sets aside the territorial behaviours often seen in breed associations and societies. The IGS system opens the doors of communication among all the IGS partners to offer better resources to all the members and ultimately the beef industry. We all benefit from working together and sharing various perspectives from different breeds of cattle, different breed associations, and different countries, but all with the common goal of beef cattle genetic improvement. Beyond making the best possible

The Power of Collaboration

The total data in the IGS genetic evaluation dwarfs any singular database contribution. By pooling the information into one genetic evaluation, all associations gain better genetic predictions than any could do alone.

genetic predictors, the staff from the various IGS partners learn from each other, share educational material, collaborate on different research projects, and work through various challenges that most of us have faced independently, but can get through better together.

While the future is unknown to all of us, it is certain to improve by working together toward the same common good.

Did You Know?

- ◆ The IGS staff offers personalized assistance and consultation with each and every IGS Feeder Profit Calculator™ data submission.

While 2020 offered many challenges, the IGS science team continued to make improvements and grow the IGS Multi-breed Genetic Evaluation.

Here are a few highlights:

Evaluation updates

The genomic imputation was improved by developing a new set of imputed markers to better match the majority of the genomic tests completed to date. A group of improved changes to growth trait predictions was launched in the summer of 2020, soon followed by updates in the carcass evaluation in the fall of 2020.

IGS Partner growth

Early in 2020, the American Salers, Canadian Salers, and North American South Devon Associations progressed into regular weekly evaluations. New partners started testing their data through the beta evaluation including (Canadian Charolais and Simmental Australia Association), as well as two non-traditional partners, Digital Beef Commercial Product and Bovitrac. New partner conversations are an ongoing and an ever-present part of our weeks.

Joint Hosted Webinars

The IGS group developed a series of educational webinars with panelists and speakers from a variety of breeds, countries, and backgrounds. Webinars tackled subjects such as: why IGS partners would want to collaborate with each other, improvements made to the growth trait evaluation, how breeders can help to make their EPDs more accurate, and what breeders and commercial operations do to acquire carcass records. These webinars are archived on the IGS website for anyone to access.

New trait development

While much work is done to maintain and improve the existing evaluation, the science team is continuing to make progress in new trait development with priority focused on Heifer Pregnancy, Mature Cow Weight, and Dry Matter Intake EPDs.

"The commercial cattle producer is the backbone of the American beef industry. However, their world is often restricted to a cycle of pasture, loading chute, sale barn . . . and back to pasture. ASA recognizes that, and they also understand that everyone needs to come to the table in order to advance the industry's need for cohesion in tech, marketing, and optics. An example of ASA's innovative offering can be found in the IGS Feeder Profit Calculator™."

- Tim O'Byrne, Publisher/Editor of Working Ranch magazine

IGS Feeder Profit Calculator™ (FPC)

The IGS Feeder Profit Calculator (FPC) continued to illustrate its value to data hungry decision makers throughout 2020. In a year of uncertainty, information and knowledge seemed to be at a premium. The FPC is ideally suited to share facts and insights into the terminal merit of US feeder cattle. As a result, over 18,000 head of calves received a third-party view of profit potential through the FPC in the calendar year of 2020. That was a 50% increase over 2019. The FPC certificates were used by marketers and buyers to source responsibly produced, low risk calves with a predictable upside. The certificates were used by sellers to highlight the genetic and management prowess they had built into their calf crop. Thus, both groups were speaking the same no-nonsense language of dollars and cents. Additionally, many farms and ranches used the FPC predictions as a benchmarking tool to give them yet another view of their current practices. Superior Livestock Auctions (SLA), the largest marketer of feeder calves in the US, saw a nearly 400% increase in the number of cattle sold with a FPC certification. Progressive seedstock producers across the country continue to encourage their commercial clients to put the FPC to work. It is proving its worth across the country and is a no cost service provided by IGS.

"It is very simple and easy to submit an FPC application. And well worth the couple minutes it takes!"

Rincker Simmentals is a seedstock cow-calf operation located in East Central Illinois. The primary herd raises seedstock replacement and show heifers along with select performance bulls. Several cows are targeted for show quality steer and heifer calves, and our customers' success is our focus. Annually, Rincker Simmentals makes available the top selections from its calf crop, along with quality AI bred heifers.

Please feel free to contact us anytime for more information on our cattle, sales or upcoming events. Visitors are welcome anytime.

Let's try the Truth.

Instead of the typical
Beef on Holstein sales pitch.

SimAngus™ bulls are the most ideal complement to a Holstein female to generate a high profit terminal beef calf. Get the facts at holsteinusa.com/holsim/

Anytime you sell a Beef x Holstein calf prior to harvest the buyer is going to pay you less. Period.

The answer?

Use the same thorough genetic selection process you use throughout the rest of your business. Quit letting salesmen pawn off their leftovers on you. Then, retain ownership on those cattle all the way through the feedyard. Maximize your return and diversify your business.

This is the truth. The world has seen enough hype. It's Simple. SimAngus™.

Private Treaty:

All breeding females and bulls are for sale private treaty. Contact Dan for more information.

Harker Simmentals has grown and changed since the 1990s. Substance, structural soundness and quality EPDs with an emphasis on maternal characteristics are a few things the Harker's use as building tools. Today, the operation consists of 150 head of purebred and percentage Simmental females and purebred Black Angus females. Fancy heifer calves are auctioned through the Field of Dreams Sale now held at the Harker's farm. Females purchased through the Field of Dreams Sale are exhibited by juniors from across the country.

Her Biological Clock is Ticking!

Cumulative Mature Cow Phenotypes and Female Genotypes in ASA Database

50K DNA Tests *as low as*
\$20/COW

Adding a DNA test to your decision is like knowing ...

25	Calving ease scores
22	Birth weights
25	Weaning weights
15	Stayability records

- Available to all seedstock and commercial members — regardless of breed type or breed makeup.
- \$20/sample requires both cow weights and body condition score (otherwise \$25/sample).
- Parentage included.
- Collaborative research project with Neogen Genomics.
- Heifer calf and replacement heifer testing available through December 31, 2020. Only calving age cows (bred heifers or older) will be accepted as of January 1, 2021.

Sale Date:

Right By Design Sale,
November 27, 2021 on the farm

Trennepohl Farms is a diverse family farm operation. For four generations we have prided ourselves on producing some of the finest seedstock genetics and agricultural products anywhere. Through the vision and leadership of our grandfather, Howard, Trennepohl Farms beginnings trace back to some of the greatest bloodlines that the Belgian Draft Horse industry has known. It is that purebred seedstock passion that has laid the foundation for our success thus far.

We are committed to ensuring that our products will be successful for our customers including livestock, grain, hay and straw. Thank you for your interest in our program.

Introduce your Sires to the Industry

Sire Source is a Valuable Tool

A directory designed to assist in the promotion of semen sales of quality Simmental, SimAngus™, Simbrah, Fullblood bulls and bulls of other breeds. This directory is mailed each spring to every ASA member in order to target potential clients at the height of the semen sales season. Thousands more are handed out at trade shows and industry events, and carried by ASA SimSpecialists throughout the year. We also offer the opportunity to promote additional sires in the online version of the Sire Source anytime during the next year. Promoting your bull in the online version opens huge marketing avenues for you.

Sire Source users favor the standard format utilized in displaying listed bulls, which allows potential buyers to compare “apples to apples,” as every animal is presented in exactly the same format with information laid out on each page in identical fashion.

Sample of the online Sire Source.

Simmental
SimAngus™
Angus
Red Angus

www.simmental.org/siresource

Here's what you get:

- ◆ Print version in hard copy at no cost to you.
- ◆ Instant access through the online *Sire Source* Catalog.
- ◆ Discount on a full page ad in the *Register* or the *SimTalk* anytime (one time only) during the online post.

Online Version of Sire Source:

- ◆ Easy to promote additional sires during the year.
- ◆ Current sires can be updated during the year — new bull photo, new bullet points, new support photos.
- ◆ Direct link to your bull in HerdBook.
- ◆ Promoting your bull in the online version opens marketing avenues for you.

Samples of the printed bull pages in the 2021 Sire Source.

Contact Nancy Chesterfield at 406-587-2778 or nchesterfield@simmgene.com to promote your bull(s) in the online version of the *Sire Source* or learn about listing bulls in the 2022 print edition.

STATE ASSOCIATIONS

Thank You Leaders and Volunteers

Dr. Bert Moore

State Association Liaison
406-587-4531 • ext. 509
bmoore@simmgene.com

In the year 2020, there are very few commentaries that do not make mention of COVID-19. Now that is taken care of, let's thank those members of our state associations for their efforts in keeping this important arm of the American Simmental Association active and moving forward. From the early days of the Association, the leadership recognized the importance and value state associations could bring. Executive Officer Don Vaniman spent a great deal of time assisting in the formation of state associations when the ASA was in its infancy.

We must recognize that many of the state association activities are run by volunteers. These people invest their time and resources at the local level for the collective benefit of the members in their area as well as the nation. It is not unusual for innovations to flow from state associations to ASA trustees and staff. Some of the strengths of state associations come from the diversity of their ideas, management systems and goals of their production programs, all influenced by whatever part of the country they come from.

The **Cost Share Program**, initiated in 1979 through a bold step by the ASA Board of Trustees, brings funds from the ASA into the promotional programs of state associations. The leaders and volunteers in each state association, within certain guidelines, have discretionary use of these funds for many types of promotional efforts and through multiple media sources. They know how the funds can be used most effectively because they are residents of the area.

The promotional efforts of the **Cost Share Program** can be useful in helping to expand registration numbers. The **Check-Off Program** rewards each state association with 25¢ for each registration recorded in that state and is available quarterly. These funds can be used for any state association sponsored activity. Since Check-Off monies are available quarterly, regular correspondence with state associations serves as a way to keep in touch.

State association sponsored events such as hosting field days, booths at livestock events, and other activities can earn extra funds, also based on registration numbers under the **Check-Off Bonus Program**. This provides incentives to state associations to engage their volunteer members to further expand the SimGenetic story.

State associations are encouraged to have an ASA SimSpecialist at state events. Each state may select two activities, one of which must be commercially oriented, for an ASA SimSpecialist to attend. Events could include producer meetings, field days, trade shows, or other educational programs.

The ASA participates on several levels, but it is the state association leaders and volunteers that provide the grassroots support that gives substantial strength to the mission of the American Simmental Association.

We thank you!

"The American Simmental Association Cost Share and Check-Off programs are a very valuable part of the Minnesota Simmental Association tools to promote the Simmental breed. Through the dollars received through these programs the MSA is able to do more advertising and support more junior activities than we would otherwise be able to do. These ASA programs are greatly appreciated and utilized!"

- Beth Andersland, Treasurer of the Minnesota Simmental Association

Did You Know?

- ◆ 23 State associations received Cost Share dollars.
- ◆ Six State associations received an additional \$1,000 in Cost Share funds for 2021 for maximizing use of funds in 2020.
- ◆ 31 states applied for and received Check-Off dollars.
- ◆ 93.8% of all eligible Check-Off dollars were paid out (tied to registration numbers).
- ◆ 23 states received Check-Off Bonus Bucks.

Cost Share: \$4,000 Each Fiscal Year for Advertising and Promotion

Cost Share Program

Designed to reach regional markets by assisting states in the advertising and promotion of SimGenetics. The program also provides support for the promotional activities of state associations to help increase their membership as well as their market share. May be submitted throughout the fiscal year. State associations maximizing their use of Cost Share funds (\$4,000) receive an additional \$1,000 for use in advertising and promotion. **Deadline June 30.**

- ◆ Print advertising
- ◆ eBlasts
- ◆ Booths and booth space
- ◆ Web development and maintenance
- ◆ Newsletters and member directories
- ◆ *SimTalk* special mailings
- ◆ ASA representation at state events

Check-Off Program

Paid quarterly and based on animal registrations in your state. The only requirement is for your state association to send us your current list of officers. **Deadline June 30.**

- ◆ Based on animal registrations in your state — \$0.25 per animal.
- ◆ Current list of officers submitted each quarter — form is available online.

Check-Off Bonus Bucks

This program steps up the amount of money each state association may collect from the number of animal registrations in their state. An association can receive up to \$1.10 per registration (versus the standard of \$0.25 per registration) by completing all of the seven Check-Off Program approved bonus activities (see next column). Find details on the ASA website. Check-Off Bonus Bucks are paid annually, at the end of the fiscal year. **Deadline July 10. Deadline July 10.**

Cost Share funds are available for a wide variety of promotional activities and are detailed at:

www.simmental.org

Approved bonus activities

- ◆ Booth and booth space
- ◆ Field day with ASA SimSpecialist
- ◆ AJSA event
- ◆ Promotion advertising (Cost Share participation)
- ◆ Website promotion (link to ASA site)
- ◆ Mailings (include promotion for ASA SimSpecialist)
- ◆ PTP show

Increases per bonus activity

- 1 bonus criteria = \$0.10 per registration
- 2 bonus criteria = \$0.20 per registration
- 3 bonus criteria = \$0.45 per registration
- 4 bonus criteria = \$0.55 per registration
- 5 bonus criteria = \$0.65 per registration
- 6 bonus criteria = \$0.75 per registration
- 7 bonus criteria = \$0.85 per registration

Maximum reward incentive is \$1.10 per registration within the state (base of \$0.25/per registration plus seven bonus criteria)

State Association Ad Templates

Ad templates are available to download for your use. There is no cost attached to this service. The template contains the 50% generic advertising required through the Cost Share Program. They are ready to use — just place your state information in the remainder of the ad space (white area), and you are ready to go! Ads designed entirely by you may be accepted if they contain 50% generic advertising and are pre-approved.

Promotional Material Available for Use

- ◆ Brochures are available for your booth at trade shows.
- ◆ Only cost to your association is shipping.
- ◆ Order early to save money on shipping.

State Association Pull-up Display Booth

- ◆ Can be purchased with Cost Share dollars.
- ◆ Choice of several booth options.

If Beef is Your Business

The American Simmental Association Carcass Merit Program (CMP) is the beef industry's most demanding and informative young sire test. The program is a hallmark of ASA breed improvement for economically relevant carcass traits. Commercial producers play an integral part in this project.

CMP
ASA
CARCASS MERIT PROGRAM

 **SimGenetics**
PROFIT THROUGH SCIENCE

American Simmental Association

To learn more about the CMP visit www.simmental.org, then click Carcass Merit Program under the Commercial tab.

Questions, contact lgieess@simmgene.com for more information regarding this program.

Participants receive:

- ◆ \$60 for each AI-sired calf with carcass information
- ◆ Free semen on top young herd sires
- ◆ Free ASA Genetic Evaluation on your cowherd
- ◆ Free genotyping on terminal progeny
- ◆ Keep any or all replacement females

Become a Carcass Merit Program test herd today

**The CMP is a structured young sire progeny test. Participating cooperator herds will random sample their cowherd with CMP semen, and the resulting male (or female) progeny will be harvested with individual carcass data gathered. ASA Staff will work with cooperator herds to provide bulls that fit the general criteria of your management program, however only bulls nominated into the CMP program may be used. Producers are encouraged to be somewhat proficient in Microsoft excel for accurate and consistent record keeping.*

BEST PRACTICES FOR SEEDSTOCK PRODUCERS

Best Practices to Receive the Most Accurate Genetic Predictions

1 Clearly define breeding objectives

With the ability to increase the rate of genetic change comes the possibility to make mistakes at a faster pace. Breeding goals need to be clearly identified to ensure that selection at the nucleus level matches the profit-oriented needs of the commercial industry.

2 Use whole herd reporting

Inventory-based reporting captures more complete phenotypes on reproduction and longevity traits, and thus creates more accurate genetic selection tools.

3 Properly define contemporary groups

It is important for the precision of the genetic evaluation to group animals treated uniformly. Proper reporting of contemporary groups reduces bias in EPD.

4 Take data collection and reporting seriously

Phenotypes are the fuel that drives the genetic evaluation. Take pride in collecting accurate data. Report records on the complete contemporary group in order to paint the most accurate picture of the genetics in these cattle. If possible, collect additional phenotypes like mature cow weight, cow body condition score, udder scores, feed intake, and carcass data.

5 Make both thorough and accurate phenotypic data collection for economically relevant traits a high priority

The quantity and quality of fertility traits need to dramatically improve. Providing disposal codes to identify why females leave the herd is vital. Commercial data resources, where the true economically relevant traits exist, are going to become more critical to capture. Breeders can help prove the genetics of their own seedstock by encouraging their commercial customers to join ASA's Commercial Total Herd Enrollment (THE) option and add valuable data to the evaluation.

6 Use index-based selection

As the list of published EPD continues to grow, using economic selection indices will become even more helpful to reduce the complexity of multiple trait selection.

If the number of EPD increase, tools to reduce the complexity of sire selection for commercial producers must continue to develop. Breed associations and seedstock producers have the obligation to aid commercial clientele in making profitable bull selection decisions.

Jackie Atkins, Ph.D.

Matt Spangler, Ph.D.

Bob Weaver, Ph.D.

Wade Shafer, Ph.D.

7 Use genomics

Genomic selection offers an opportunity to increase the rate of genetic change and break the antagonistic relationship between generation interval (the average age of the parents when the next generation is born) and the accuracy of selection (e.g., accuracy of EPD) — two components that determine the rate of genetic change. However, as with any tool, genomic information must be used correctly and to its fullest extent.

Adding a DNA test to your decision is like knowing . . .

- ◆ 25+ calving ease scores
- ◆ 22 birth weights
- ◆ 25+ weaning weights
- ◆ 25+ yearling weights
- ◆ Stayability/productivity records on 15 daughters
- ◆ 6 carcass weights
- ◆ 10 marbling scores
- ◆ 8 ribeye area measurements

All this from a test you can complete before you wean the calf.

 **IGS Multi-breed Genetic Evaluation**
powered by BOLT

Best Practices for Genomic Testing

1 All animals within a contemporary group should be genotyped.

If genomic data are meant to truly enable selection decisions, this information must be collected on animals before selection decisions are made. The return on investment of this technology is substantially reduced if it is used after the decision is made. The ASA offers the Calf Crop Genomics (CCG) program to offer 50% off GGP100K test for breeders who commit to genotype the entire calf crop. See sidebar for more details.

2 Both male and female animals should be genotyped.

The promise of genomic selection has always suggested the largest impact is for lowly heritable and/or sex limited (e.g., fertility) traits or those that are not routinely collected (e.g., disease). This is indeed true, but it necessitates that genotyped animals have phenotypes. For sex-limited traits, this becomes a critical choke point given historically the vast majority of genotyped cattle are males. If producers wish to have genomic-enhanced EPD for traits such as calving ease maternal and heifer pregnancy, they must begin or continue to genotype females. The ASA has a unique program called the Cow Herd DNA Roundup (CHR) to help herds collect female genotypes. See sidebar for more details.

3 Genotypes can provide useful information in addition to predictions of additive genetic merit.

Do not forget the value in correcting parentage errors, tracking inbreeding levels, identifying unfavorable haplotypes, estimating breed composition, and estimating retained heterozygosity. All of these can be garnered from populations that have a well-defined set of genotyping protocols.

The beef industry should be congratulated for the rapid adoption of genomic technology, but there is a lot of work to do. Of critical importance is the fact that genomic technology will continue to change and does not replace the need for phenotypes nor the fundamental understanding of traditional selection principles including EPD and accuracy.

Total Herd Enrollment (THE)

A cow inventory reporting program, THE requires participants to provide annual reproductive and inventory status on their cow herd. THE is designed to improve quality of data submitted for the genetic evaluation, and in turn improve and develop reproductive EPD. By submitting data on the entire calf crop or contemporary group, breeders will receive more accurate predictions of their cattle. The ASA has four THE options to fit most seedstock and commercial operations.

Cow Herd DNA Roundup (CHR)

The Cow Herd DNA Roundup (CHR) is designed to increase the number of female genotypes to better predict maternal traits, such as maternal calving ease. Genotyping entire herds reduces bias created when only the best cattle are genotyped. Gathering massive amounts of genotypes on entire cow herds will significantly improve the genomic predictions and rate of genetic progress. As parentage testing is included, CHR herds will have pedigrees validated through DNA. Participating breeders benefit from having genomically enhanced EPD on the entire cow herd — equivalent to a lifetime number of calf records in several traits for an exceptionally low cost.

Calf Crop Genomics (CCG)

Calf Crop Genomics, a research project launched by the ASA in collaboration with Neogen Genomics, offers 50% off GGP100K genomic test including parentage (\$25 compared to \$50 equivalent test) to participating breeders who test their entire calf crop. Genotyping entire calf crops is important to use genomically enhanced EPD (GE-EPD) for selection decisions, reduce selection bias in genomic predictions, and increase the volume of genotyped animals for future improvements to genetic predictions. The latter two points make any singular genomic test in the future better for all members using genomics.

Carcass Expansion Project (CXP)

Despite the importance of carcass traits to our industry, few producers devote resources to collecting and recording actual carcass data. While the Carcass Merit Program (CMP) is a valuable progeny test, it is limited in the number of records produced. We cannot depend on the CMP alone to bring in carcass data. In the age of genomics, it is clear we need genotypes on animals with actual carcass phenotypes.

Adding another layer of commitment to predicting carcass traits, the ASA initiated a new program, called the Carcass Expansion Project, in the fall of 2018 to increase the number of carcass records on genotyped animals. The ASA is ramping up both phenotypic and genotypic data collection on terminal calves — a vital part of our vision.

Sale Date:
Value Based Genetics Sale, February
5, 2022, Decorah, IA. Herd improv-
ing bulls, females and embryo
matings available at all times.

*Our mission statement has become
simply: "VALUE BASED GENETICS".
Every selection criteria we use has an
economic benefit or cost. Selecting for
phenotype only without considering
feed efficiency, reproductive efficiency,
carcass, or growth would be disastrous
just as ignoring phenotype would
limit marketing. Our goal is to
produce the best females possible by
multiplying proven cow families and
incorporating value parameters on
their performance.*

MEMBER FOCUSED SERVICES

ASA members represent a diverse group of cattle operations.

From the traditional Simmental and SimGenetic seedstock breeders, to seedstock operations of a different breed, to progressive commercial cattle operations, ASA offers services to meet all their needs. ASA provides tools and information tailored to the varied requirements of our members and their customers.

ASA Membership Perks

- ◆ Open herdbook, ASA welcomes all breed compositions to help members produce more profitable beef cattle.
- ◆ Online access to Herdbook Services 24 hours / 7 days a week registration, transfers, and payments.
- ◆ *the Register* and *SimTalk* magazines, *Sire Source*, e-newsletter, and eBlasts.
- ◆ Rights and privileges to elect Trustees and vote on changes to Rules and Bylaws.
- ◆ Be a part of the world's largest multi-breed beef cattle genetic evaluation.

Herdbook Services

A primary function of ASA is maintaining cattle performance records, pedigrees, ownership, and other genetic information in the database. Herdbook Services gives current members electronic access to their own herd data. EPD, dollar indexes, genetic traits and conditions, pedigree, and adjusted performance information on all animals in the database are available to the public on ASA's website. Check out www.herdbook.org for more information.

Using Your Data

Herdbook has many useful reports and summaries available to download.

- ◆ Dam averages (calving intervals, BW averages, WW averages, etc.)
- ◆ Calf crop summaries
- ◆ Herd and Animal EPD, data, and ratios
- ◆ DNA summaries
- ◆ Genetic trait conditions
- ◆ Genetic trends
- ◆ Custom built herd reports

Herdbook Services Tools

Registrations

A structured way to report, register, or update animal records 24 hours / 7 days a week.

Transfers

Transferring the registration certificate from one owner to another keeps member inventories current, brings the new owners into the Simmental community through *SimTalk* subscriptions, and adds marketing opportunity with buyers.

- The first transfer is free.

Animal Lookup

The main animal page includes EPD, indexes, and pedigree for any animal with a known registration number, name, or tattoo.

Planned Mating

An easy-to-navigate tool for EPD estimates on calves resulting from specific mating(s).

EPD Search

A user-friendly search to generate a list of animals tailored to meet your needs — members may specify thresholds for dollar indexes, EPD, and /or accuracies as well as coat color and horned / polled preference.

"The women in the processing and DNA department have been an outstanding group of women with whom to work. Their dedication to the association and membership is above and beyond routine expectations. They are always willing to assist and get the job done in a short amount of time. These women truly care about making the Simmental breed the best it can be and providing excellent customer service."

- Danielle LeDoux, Ree Heights, SD

Did You Know?

- ◆ In 2020, the ASA issued 75,122 registration certificates, almost 2,000 more than 2019.
- ◆ In 2020, 22 herds were recognized as performance advocates, a distinction recognizing breeders for collecting eight or more traits on their whole cow herd.

Active Herd

Digitally manage your herd records and import them directly into Herdbook when ready.

- ◆ Weaning and yearling weights and measurements
- ◆ Herd health treatments
- ◆ Breeding, pregnancy, calving
- ◆ Inventory active pastures

Total Herd Enrollment

This is the ASA's whole herd reporting program designed to gather production, longevity, and fertility data. ASA has four THE options meant to fit most seedstock and commercial operation needs. Reach out to our THE team to get started or answer any questions.

DNA Services

From basic trait testing to genomically enhanced EPD, ASA offers a full suite of DNA options.

- ◆ Approve an AI sire or donor dam (required for registrations). New as of July 2020, the GGP-100K test qualifies AI sires and donor dams.
- ◆ Test and track animals at risk for a genetic condition or trait.
- ◆ Parent-verify a purchased embryo (required for registration).
- ◆ Increase the accuracy of EPD through uLD and 100K genomic testing.

Annual Production Sale
March 23, 2022
LaCrosse, KS

Diamond H Ranch began in the spring of 2007 when we purchased our cow herd, which consisted of 20 pair. Over the years we have focused on breeding to high quality genetics, implementing superior hybrid vigor and getting the female right first. Our goal is to provide superior genetics that would satisfy the needs of any producer, while increasing our customer's bottom-line. Red Angus and Red SimAngus™ cattle are the two breeds that we work with. In an industry with ever changing demands to produce a higher quality and more identifiable beef, we hope that our offering will aid in that quest.

We now have a cow herd consisting of 200 registered pairs in addition to our commercial heifer buy-back program. We are always striving to make improvements and the ranch has continued to expand.

Our cattle have seen some very tough conditions over the years, but have managed to stand strong in both the hard and prime conditions. Through it all, we have persevered and we hope that our cow herd will only continue to grow so that we may provide you with the high-quality genetics that you are seeking.

Again, we thank you for your interest and for giving us the opportunity to serve you as a seedstock producer.

Kansas

Simmental Association

2021/2022 Schedule of Events

2021

June

- 4-6 KJSA Annual State Show – Manhattan – <http://ksjrsimmental.squarespace.com/>

Fairview Kingpin 57H ASA# 3875233

Homozygous polled, 100% Fleckvieh, Non-diluter

Expect his progeny to be well sought after. He combines it all into one package, top 25% for CE and top 10% for growth, with excellent carcass EPD. Add to that his length of spine, dark color, homozygous polled, and excellent disposition.

JS PR Hulk H10 ASA# 3769403

Homozygous polled, 100% Fleckvieh, Non-diluter

Top 35% for CE with more punch, top 2% for growth, and again very good carcass EPD. An eye catcher from birth.

JS MT Hammer H243 ASA# 3769407

Polled 100% Fleckvieh, Non-diluter

A Metro son in the top 15% for CE, top 4% for YW, and top 15% for MM.

**The next generation
of polled Fleckvieh
will be ushered in by
these three exciting
young guns**

It takes multi-generations to produce quality polled 100% Fleckvieh cattle, and even more effort to produce homozygous polled. Service from these fine bulls, and progeny from Southseven Polled Perfection, ASA# 3544651, homozygous polled 100% Fleckvieh, will be available at our Labor Day weekend sale, Midwest Fleck Event. Make plans to attend.

Midwest Fleck Event

Sunday at 2:00 pm – September 5, 2021

This sale will be broadcast live on the internet.

Sale Date:

First Wednesday in March

Klein Ranch is located in northwest Kansas and has been raising black and red registered Simmental and SimAngus™ cattle since 2005. Our family has been raising cattle since the 1930 in Rawlins County, KS. We strive to create cattle that are moderate in frame with performance in growth and carcass. Cows have sound feet with calving ease, fertility, and mothering ability. We take a balanced approach in selecting EPDs that will produce quality cattle that will fit the cattle-man's needs.

Visitors are always welcome.

PROVEN GENETICS . . .

Predictable Results

For over 35 years, we have been committed to raising cattle that work for a living and perform profitably.

We're proud to have always been involved with a breed that provides solutions to the entire beef industry, and look forward to a bright future with SimGenetics.

Some of our past sale successes:

IRVINE RANCH

“Great fulfillment comes from making *progress* in meaningful work.”

Do you have a passion for the BEEF business? What a gift it is to work in a profession that you love, can provide for your family, and feed the world. Irvine Ranch is committed to being a *Partner in Progress* for those of you who love this business as we do.

5 Decades of Genetic Improvement for Productive, Efficient, and Long-lasting Maternal Genetics.

Through Irvine Ranch's ongoing feed intake project, genetic differences for feedlot and cowherd profitability are being identified and selected.

Producer:		YG	
Grade-Side 1	Grade-Side 2		
76.00 G44-1 Master Chef Prime			3.40
77.00 G44-1 Master Chef Choice			3.20
78.00 G44-1 Master Chef Prime			3.30
79.00 G44-1 Master Chef Choice			3.40
80.00 G44-1 Master Chef Prime			2.90
81.00 G44-1 Master Chef Choice			2.30

Providing wholesome and tasty BEEF to consumers is vital to the sustainability of our industry, and is at the forefront of IR's genetic selection.

- More Pounds.
- More Muscle.
- More Marbling.
- More Profit.

Success. SimAngus™.

"To really see premium value at a good cost of gain, animal genetics need to have potential for both muscle and marbling. Simmental and Simmental-crossed cattle really fit the bill."

Tracy Brunner
Cow Camp Feedyard

"A large percentage of the cattle we feed have Simmental influence. Simmental has what a lot of cows need — more carcass weight, more live weight, more ribeye area, and still keeps the marbling intact."

Tom Williams
Chappell Feedlot

Trait	Simmental Rank vs. Major Continental Breeds	Angus/Red Angus Rank vs. Major British Breeds
Marbling Score	First	Second
Carcass Weight	First	First
Weight Gain Feed Efficiency	First	Second
Weaning Weight	Second	First
Post Weaning Gain	Second	Second

Mission Statement:

The mission of Maxey Valley Farms is to communicate the importance and uniqueness of our heritage to subsequent generations and provide a strong foundation that will enable them to grow, prosper, and build on that legacy.

Please contact us with inquires about our operation and cattle availability, semen sales, and pricing or to discuss this remarkable breed of beef cattle I so fondly call "Traditional" Simmentals.

PROFIT THROUGH SCIENCE
American Simmental Association

EFFECT OF SIRE BREED ON SALE PRICE OF BEEF STEER CALVES

Superior Livestock Auction, Summer 2020^a

SimAngus™-sired steer calves sold through Superior Livestock Auction in summer 2020 earned **more at sale time** than all other calves.^b

It's no wonder the percentage of **SimAngus™** calves marketed through the industry's largest video auction has grown **eightfold** since 2010.

Want low-risk, high-potential calves with earning potential?

STAND STRONG SIMMENTAL

406-587-4531 • simmental.org

^a For lots of 50 head or more. ^b Kansas State University, December 2020, Superior Livestock Auction data analysis of 3,280 lots, 594,900 head of beef calves marketed during summer 2020. (P<.0001)
^c Lots that qualified for breed-related programs were excluded from the model due to potential confounding effects with sire breed analysis and, for many, few lots in the data.
^{d, e, f} Means without a common superscript differ (P<0.05) Lots of calves in breed-identified groups were sired by bulls from the respective breeds and out of dams with no Brahman influence.

**BELLES & BULLS OF THE
BLUEGRASS**

April 2, 2022 at the Bluegrass
Regional Marketplace,
Lexington, KY.

*Simply put, our mission is to produce
great looking cattle with breed leading
numbers. Some would call this impossi-
ble. It's for sure a challenge. But it's the
goal. We will never be satisfied but we
think about it, plan for it, and work at
it every day!*

The Maryland Simmental Association will be sponsoring a number of Junior Simmental Show Divisions throughout Maryland to help promote and obtain recognition for the Simmental Breed.

We sincerely wish our juniors all the best with a fun and successful show year.

KNOW.

Or guess.

Choose KNOW.

IGS is ideally suited as the benchmark in gauging feeder calf value. The IGS Feeder Profit Calculator™ leverages the world's largest beef genetic evaluation to identify the Relative Value of your feeder calves and to provide a third-party certification to data-driven buyers. All at no cost to you!

Open to majority of breeds and breed compositions.

Market with confidence and maximize your purchasing dollars.

Legal disclaimer: The projections, values, and other calculations produced by the IGS Feeder Profit Calculator™ are based on user inputs. IGS does not independently verify the information provided by users. The mathematical models and assumptions related to market conditions utilized in the IGS Feeder Profit Calculator™ may change significantly. IGS makes no representation that any IGS Feeder Profit Calculator™ projection will be realized and actual results may vary significantly from IGS Feeder Profit Calculator™ projections. The relative market values produced by the IGS Feeder Profit Calculator™ represent a relative valuation for comparison purposes only and do not represent an actual market value.

Profit Through Science

We do the science, you make the profit.

SIMTALK

Linking SimGenetics to Commercial Cattle

Published four times annually with a special edition Breeder Directory, *SimTalk* is a glossy, full-color publication with a circulation of 40,000+ targeting commercial users of SimGenetics. Advertising in *SimTalk* provides a unique opportunity to brand and trademark your program to thousands of potential customers. If you are serious about communicating with the commercial beef business, consider an advertising presence in every one of our four annual issues.

ASA Publication's *SimTalk* Production Schedule Deadlines

	Sales Close	Ad Materials	Camera Ready	Mail Date
Early Fall 2021	July 23	July 30	Aug 12	Aug 30

YOUR DATA. THEIR FUTURE.

LIKE IT OR NOT —
WE KNOW THE TRUTH.

Data drives our beef decisions today. Data will drive it even more tomorrow.

So, how do you get maximum genetic awareness at a tolerable price point?

One on one consultation and multiple pricing options allow ASA's Total Herd Enrollment to meet your family's needs. Squeeze every drop of genetic knowledge from your herd to give your kids and grandkids the greatest chance at raising their own families in the beef business. There are options available to meet the needs of almost any production system and they can work with any breed type.

Simmental Simbrah Association

Come one, come all! All Breeds Welcome!

"I love this program and appreciate that it is flexible for other activities. I like it more when Cowan can be on the live webinar but that's life. The data is awesome and it a great learning experience. Many of the assignments were high level. I think that is great but can be daunting when even the parents aren't awesome at it." – **Natasha Mortenson**

"She really enjoyed it all, the varied content was awesome! The hands on things she enjoyed more than the papers, but that is her being young." – **Chelsea Faulhaber**

"I greatly appreciate how this program has continued to be open to feedback and evolve! An example that especially resonates with me as a parent is how the assignments have developed into truly educational experiences. The first year of the SPC program primarily focused on the assignments summarizing the content of the webinars. This year the participants have had the opportunity to showcase through a number of different avenues what they've learned. These learning activities accommodate diverse types of learning styles and help to solidify the information in a meaningful way!" – **Abbie Redalen**

"As a parent and a Simmental breeder, this program is so valuable in my eyes. Please continue to communicate what we can do to support this program!" – **Abbie Redalen**

"I enjoy the data! Grace and I enjoy working together, particularly using good data for making decisions and then evaluating our results. This is one of the reasons we continue to participate in the SPC, to learn more about our own operation from the terminal side. I am encouraged that she gets excited about topics that she is learning from." – **Chuck Ewing**

"I enjoyed a ton this year participating in the SPC Contest. My favorite part was honestly probably making my steers ration! It was so different than any of the other assignments and it honestly took things to a whole different perspective for me. As always every year I seem to learn more and more, I love the topics that the webinars go over and they has awesome speakers/presenters this year so it made it really fun to listen to. There was nothing that I disliked this year, you guys all made it really fun for me anyways and I really enjoyed it." – **Audrey Redalen**

"I liked to learn about everything and I think it will all help me moving forward." – **Cowan Mortenson**

American Simmental Association

2022 AJSA STEER PROFITABILITY COMPETITION

The AJSA Steer Profitability Competition (SPC) is designed to provide junior members meaningful exposure to the opportunities and challenges associated with cattle feeding. The SPC will not only allow participants to measure and compare the profitability of their own animal(s), but of greater importance, it will introduce young beef enthusiasts to peers, mentors, industry advocates, and experiences that are exceedingly difficult to acquire for any beef producer. Participants in the SPC program will be powerful voices as they transition from junior membership to adult participation within the beef industry.

REQUIREMENTS

1. Steers only
2. Entrant must be an AJSA member
3. Animals must be entered in the ASA database
4. Either sire or dam on file in the ASA database
5. Birth date range: 1/15/21 to 4/15/21
6. Weaning date range: 8/15/21 to 10/15/21
7. Castration must occur prior to weaning
8. Steers must weigh 500-750 lbs at delivery
9. Steers must be polled or dehorned
10. Any breed composition welcome provided they meet rules 1-9

CONTEST GUIDELINES

1. Entry fee of \$65/ head
2. Feedlot placement approximately November 1
3. All decisions at the discretion of feedlot
4. Harvest will occur approximately May 2022
5. Participation in monthly e-meetings
6. Entrant will receive reports on
 - a. Monthly feed and health bill
 - b. Final feedyard data
 - c. Final carcass performance data

Winners will be announced at the 2022 National Classic Awards Banquet. Awards will be granted for the top three animals overall, top three pen of three overall, and top monthly write-up participant.

DETAILS:

1. All steers on GrowSafe feed intake system throughout the entire project.
2. Individual intake and gain information on all steers.
3. Monthly weights on all steers.
4. Steers will be fed at University of Missouri Beef Research & Teaching Farm in Columbia, MO.
5. A monthly newsletter highlighting SPC details, industry news and steer performance.
6. Monthly bill detailing specific expenses on each steer.

CONTINUED THIS YEAR

Different monthly feedback formats

- Short essay questions with prompts
- Infographic or social media post
- Half- to one-page page summary
- Short online quiz tailored to participant age

Go to juniorsimmental.org to register or find more information.

Mr. Ishee Triple Trail Blazer 018H

Mission Statement:

To produce outstanding performance Simmentals, SimAngus™ and Simbrahs that are easy calving, muscular with great maternal ability and possess outstanding carcass characteristics that will make our customers money!

We are 4th generation cattle producers in South Mississippi. We started A.I.ing our cows to the very best performance Simmental bulls in the world in 1981. Our formula for success is a multi-trait approach of selecting cattle for: Calving Ease + Performance + Maternals + Carcass = \$\$\$\$.

JUNIOR PROGRAM

From little hands to big leaders;
grow with AJSA.

"The AJSA teaches what it takes to develop lifelong confidence in communication and teamworking skills, thus building successful leaders."

- Darla Aegerter, AJSA Youth Director

Youth Programs

Building an understanding of the beef industry while developing leadership, networking, and communication skills.

- AJSA was founded in 1975 and has nearly 3,000 active members.
- Governed by 16 AJSA Trustees serving a two-year term, for up to two terms. Trustees promote the Simmental breed while assisting in new programs and strengthening the leadership of junior members.

Regional and National Classics

- ◆ Regional Classics are held in June prior to the National Classic, and are hosted by a state association in one of four regions: Western, South Central, North Central, and Eastern.
- ◆ The National Classic is held each summer for a week, taking place in a different location across the country each year.
- ◆ The Classics provide an opportunity for junior exhibitors to showcase knowledge of their animals, the beef industry, and the Simmental breed.
- ◆ Mentor/Mentee Program, and recognition of the Merit Award winners.
- ◆ Juniors are required to compete in four out of the five educational contests to exhibit their animals:
 - Public Speaking, Sales Talk, Cattleman's Quiz, Calvin Drake Genetic Evaluation Quiz, and Livestock Judging.
 - Additional competitions include: Cattle Show, Showmanship, Photography Contest, Interview Contest, Junior Herdsman of the Year, and Steer Profitability Contest.

"Through years of participation in the educational contests, I was able to gain many lifelong skills that have shaped me into the person I am today."

- Kiersten Jass, Former AJSA Board President

- ◆ Juniors from across the country compete to place in the top 10 at the Regionals and the top 20 at the National Classic in each contest. At the National Classic, the esteemed overall top 20 in each age division are recognized.
- ◆ Cattle are exhibited for Percentage Simmental, Purebred Simmental, Simbrah, and Fullblood for the following divisions:
 - Bred and owned female, cow-calf pair, steer
 - Owned female, cow-calf pair, steer
 - Bred and owned bull

Visit www.juniorsimmental.org
to learn more about us.

Did You Know?

- ◆ 729 head of cattle were shown by 508 exhibitors at the 2020 National Classic in Brookings, SD.

American Simmental-Simbrah Foundation Scholarships

- ◆ Awards several scholarships totaling \$40,000 each year at the National Classic.
- ◆ Juniors receive Bronze, Silver, and Gold Merit Awards; Peter Courtney Memorial Scholarship; the Eileen DuJardin Memorial Scholarship; and Hotel Scholarship.

Steer Profitability Competition

- ◆ Provides an opportunity for members to get meaningful exposure to understand cattle feeding.
- ◆ Introduces juniors to peers, mentors, and industry advocates, and allows them to have experiences that are unique for any beef producer.

Summit Leadership Conference

- ◆ Held in conjunction with the American Junior Shorthorn Association and the American Junior Gelbvieh Association every other year.
- ◆ Focuses on educational workshops designed to enhance leadership development, communication skills, and beef industry knowledge.
- ◆ Juniors, ages 14-21 years of age from all over the country participate.
- ◆ Features nationally known speakers; and farm, ranch and industry-leading company tours.

"The Summit is an event that allows the next generation of cattlemen and cattlemen within IGS breeds the opportunity to network with like-minded individuals from across the United States and Canada. Attendees are presented with ample opportunities to learn about several facets of the beef industry, visit premier seedstock operations, develop skills to grow as a leader, and make connections with other leaders that have the potential to last a lifetime."

- Garrett Stanfield, Former AJSA Board Member

For Sale:
Bulls are sold privately at the farm.
Bred heifers and show prospects
available private treaty.

*At **Oval F Ranch**, we believe in sound productive, big-bodied cows that can have a calf and raise it. We use EPD to help improve economical traits and appreciate productive females with eye appeal. Since 1971, we've been serious about breeding quality Simmentals with COW POWER production in mind. We have turned 18 generations in our leading cow families using AI and ET. WE'LL SHARE!*

Visitors Welcome. Plan a trip to tour the herd.

Four Starr Genetics

THE SCIENCE OF GENETIC IMPROVEMENT is at the core of ASA's very existence.

Simmental is known as the science breed, because ASA and ASA members prioritize the science behind genetic improvement. Programs like Cow Herd DNA Roundup, Total Herd Enrollment, Calf Crop Genomic, Carcass Merit Program, and the Carcass Expansion Program are centered around helping members gather more high-quality and sought-after data. All the hard work to prove our members' cattle is paying off in commercial demand and profitable seedstock offerings.

Did You Know?

- ◆ ASA members genotyped 52,000 cows with nearly an equivalent number of mature weights with body condition scores and/or hip height through the CHR. Because of this bolus of female genotypes and mature size information, the IGS has launched research into development of mature weight and cow intake predictions.
- ◆ Through CHR alone, the ASA has corrected almost 3,000 pedigree errors.
- ◆ In 2020, nearly 80% of the records submitted to the ASA came through Total Herd Enrollment (THE).
- ◆ In 2020, the ASA members submitted over 10,000 genomic tests on whole birth groups of calves in the first six months of the program.

"A large percentage of the cattle we feed have Simmental influence. Simmental has what a lot of cows need – more carcass weight, more live weight, more ribeye area, and still keeps the marbling intact."
- Tom Williams, Chappell Feedlot, NE

Simmental cows set the bar for fertility, weaning weights, and exceptional calving ease suited to a variety of environments. Simmental cows are adaptable, built to last in heat, fescue, or high altitudes.

Maternal Trait Genetic Trends

Purebred Simmental in past 20 years

Simmental genetics bring calving ease, early growth, and cow longevity, while keeping feed costs at a minimum.

Breed	Mature Cow Wt.
Hereford	1,419
Angus	1,410
Red Angus	1,409
Simmental	1,404

Source: USDA MARC

\$API Purpose Index (\$API)

Predicts cow herd profitability using valuable traits like cow longevity (STAY) and calving ease, while keeping pressure on terminal traits.

Compare the profit potential of two Simmental bulls using \$API

- 1 Bull A's \$API = \$120 and Bull B's \$API = \$180
- 2 Breeding 25 females/year
- 3 Used for 5 years

Bull	1 \$API		2 # Females per year		3 # years using the bull		Profit Potential
A	\$120	X	25	X	5	=	\$15,000
B	\$180	X	25	X	5	=	\$22,500
						Difference	= \$7,500

Just like an EPD, compare two bulls to see the expected difference in profit. Bull B is likely to result in direct revenue and expense savings of an additional \$7,500 over the course of five years. Plug in your numbers for **1**, **2**, and **3** to compare your potential earnings.

Simmental calves reliably perform in the feedyard — with better growth, better structure, and fewer health problems. Simmental cattle add pounds without sacrificing marbling.

Terminal Trait Genetic Trends

Purebred Simmental in past 20 years

\$Terminal Index (\$TI)

Predicts profitability when all calves are harvested.

Trait	Simmental rank compared to other Continental breeds
Marbling	First
Carcass Weight	Second
Back Fat	Second
Post Weaning Gain	First

Source: USDA MARC

Simmental cattle bring marbling and growth without too much fat. Simmental genetics perfectly complement British strengths and weaknesses for an ideal carcass.

ASA benefits from several partnerships with research institutions including

- ◆ Colorado State University
- ◆ Cornell University
- ◆ Iowa State University
- ◆ Kansas State University
- ◆ Montana State University
- ◆ National Beef Cattle Education Consortium
- ◆ Oklahoma State University
- ◆ University of Idaho
- ◆ University of Illinois
- ◆ University of Missouri
- ◆ University of Nebraska
- ◆ University of Vermont
- ◆ USDA Fort Keogh
- ◆ USDA Meat Animal Research Center (MARC)

"To see premium value at a good cost of gain, animal genetics need to have potential for both muscle and marbling. Simmental and Simmental-crossed cattle really fit the bill."
 - Tracy Brunner,
 Cow Camp Feedyard, Ramona, KS

By keeping the profitability of the **commercial cattle industry** at the heart of Simmental genetic tools, ASA members have built profitable cattle for both maternal and terminal beef cattle needs.

Did You Know?

- ◆ According to the National Association of Animal Breeders, Simmental ranks second for semen sales compared to all other beef breeds, and in recent years, the percentage of semen sold in the US from Simmental bulls has grown by 35%.

- ◆ \$API increased 27% and \$TI increased 26% in the last 20 years. This translates to an average **increased profit of \$3,375 per bull** when used to sire replacement heifers and harvesting remaining calves or \$2,000 when all calves are harvested.

2021 BOARD OF TRUSTEES COMMITTEES

Executive

Randy Moody
Barry Wesner
Steve Eichacker
J.W. Brune
Tom Nelson
Wade Shafer (EVP)
Staff: Linda Kesler

Activities & Events

Review and recommend to the Board any new Association activities and events or changes to existing programs. An Association program is defined as any event that is sponsored in whole or in part by the Association in terms of financial support, staff time and effort, or the use of the Association name. It shall include, but not be limited to, such items as sales, contests, programs, and membership in other organizations.

Steve Eichacker (Chairman)
J.W. Brune
Tim Clark
Victor Guerra
Chris Ivie
Clay Lassle
Greg Walthall
Staff: Luke Bowman

Assets & Finance

This committee shall monitor the investment program of the Association on a periodic basis, review the income and expense reports monthly, prepare and submit to the Board of Trustees for approval an annual operating budget, and review proposed capital expenditures for approval or recommendation to the Board.

Steve Eichacker (Treasurer)
Randy Moody
Barry Wesner
Victor Guerra
Chris Ivie
Staff: Linda Kesler, Wade Shafer

Breed Improvement

All activities which would have a bearing on the improvement of the breed will be the responsibility of this committee. Performance guidelines, research, genetic monitoring, DNA analysis, and regulations for new technology, are examples.

Tom Nelson (Chairman)
Kent Brunner
Brandon Callis
Chad Cook
Tim Curran
Doug Parke
Gary Updyke
Barry Wesner
Staff: Jackie Atkins

Growth & Development

Review and recommend to the Board of Trustees new programs or activities which will foster and promote the continued growth and development of the breed and the Association. Functions such as promotion, public relations, member relations, advertising, and the role of the Association within the beef industry will be addressed by this committee.

Barry Wesner (Chairman)
Brandon Callis
Tim Clark
Steve Eichacker
Tom Nelson
Doug Parke
Greg Walthall
Staff: Chip Kemp

Policies & Procedures

This committee shall be responsible for the aspects of Association life that require an interpretation of policy or procedural questions or the formulation of proposals that will have a bearing on the membership of this Association.

J.W. Brune (Chairman)
Kent Brunner
Chad Cook
Tim Curran
Victor Guerra
Chris Ivie
Clay Lassle
Gary Updyke
Staff: Sheldon Ross

Simbrah

The objectives of this committee are to review policy, rules, regulations, activities, promotional methods, and materials which pertain to the Simbrah breed and make recommendations to the ASA Board of Trustees.

Greg Walthall (Chairman)
J.W. Brune
Brandon Callis
Victor Guerra
Tom Nelson
Doug Parke
Barry Wesner
Staff: Luke Bowman

Trustee Nominating

The vice chairman shall serve as chairman. One Trustee from each of the four regions will be appointed to complete the committee. A minimum of two (2) persons for each vacancy on the Board will be presented for consideration as Board nominees. The Board shall then select a nominee whose name shall be placed on the nominating ballot.

Barry Wesner (Chairman)
Chris Ivie
Brandon Callis
Steve Eichacker
Tom Nelson
Staff: Linda Kesler

Foundation Board

Sale Date:
Bull Sale, March 1, 2022

Settled between the Highwood and Little Belt mountains, Hill's Ranch Simmentals is proud to call central Montana home. We have been raising Simmentals since 1969 and find them to be the best type of cattle to meet our goals of providing an excellent beef product. From the beginning, Hill's Ranch has focused on calving ease, maternal and growth traits. Now as we look into the future, the goal is to also incorporate exceptional carcass and tenderness traits. Come join us in March for our annual bull sale. Females are also available so stop in any time to view our cattle. The coffee pot is always on.

Begger's Diamond V

Two-year-old heifer with a seven-month-old bull calf

At Begger's Diamond V Ranch the rancher comes first. Our focus is to raise homozygous black homozygous polled Simmental, SimAngus™ and Angus seedstock that calve easy and have the genetics that work for the cowmen and women who raise them. Our cattle are easy-keeping, sound, and low-maintenance, these cattle possess excellent udder quality and pigment is a high priority. We don't tolerate wild, nervous cattle and you shouldn't have to either. At Begger's Diamond V Ranch we offer over 200 high-quality breeding bulls annually that have passed our rigorous culling program. You can be confident that your purchase will be guaranteed to satisfy the most demanding cowman's needs. You bet they calve easy, weigh heavy at weaning, and they will sire outstanding replacement females that won't need pampering to survive. These cattle work in tough environments and excel in profitability (feeders and packers love them). They are more than a pretty set of EPDs.

Plan to attend our 46th Annual Production Sale February 2, 2022, where over 80 long-age 18-month-old and 120 stout yearling bulls sell, every one black and polled and all ranch-raised in an environment that separates cattle that become problematic; yes they are backed by a guarantee second to none.

American Simmental-Simbrah Foundation

Building on our pillars of success.

"In collaboration with our Foundation Board of Directors, we are dedicated to raising funds to benefit the good of the breed. The primary goal of the American Simmental-Simbrah Foundation is to promote and grow the Simmental footprint through education, research, and youth development."
- Darla Aegerter, ASF Manager

Feed Intake Project
Walton-Berry Graduate Support Grant
Sally Buxkemper Memorial – Genetic Evaluation DNA Testing

Research & Technology

National Classic Support

Merit Awards –
11 Silver Merit awards and five Gold Merit awards given out each year to AJSA members to help them continue their college education.

Regional Classics – Eastern, Western, South Central and North Central

AJSA Leadership Development

Youth

Steer Profitability Competition
Fall Focus Symposium

Education

Will go toward the programs with the greatest need.

General

You may designate to any of the Four Pillars

ASF Mission Statement

The purpose of the Foundation is to encourage, by public or private contribution, support of worthwhile educational and charitable projects that are of interest and benefit to devotees of the American Simmental Association. Further, to receive, maintain, use and apply donated funds for such purposes; and to implement such educational and charitable projects.

Vision Statement

Serving youth, education, and research for today and future development of the American Simmental Association, the beef industry, and ASA's membership.

Foundation Board Members

Scott Cowger, Chairman (2021)
Mark Smith (2021)
Tonya Phillips (2021)
Bill McDonald (2022)
Greg Burden (2022)
Holli Hatmaker (2023)
Aaron Owen (2023)
Cathy Eichacker (2021)
Bob Mullion (2021)
Brandi Karisch (2021)
Mike Stoltey (2022)
Jennifer Tarr (2023)

ASA Support Staff

Darla Aegerter, Linda Kesler, Wade Shafer
asf@simmgene.com • simmental.org/foundation

Together as one team, our breed will flourish.

Research & Technology

Feed Intake Project

- ◆ Collects individual feed intake data on calves of known sire groups to improve our ability to predict feed intake and thus improve our ability to predict differences in profit.

Walton-Berry Graduate Student Support Grant

- ◆ Supports graduate education with an emphasis on genetic improvements of livestock.

Sally Buxkemper Research Fund

- ◆ Keeping with her long affiliation and devotion to SimGenetics and research, the Sarah "Sally" Buxkemper Fund supports the research arm of the American Simmental-Simbrah Foundation.

Youth

AJSA National Classic

- ◆ The largest, most prestigious annual SimGenetic youth livestock event hosted by rotating state associations.

AJSA Regional Classic

- ◆ Hosted each June in four regions: Eastern, Western, South Central, and North Central.
- ◆ Allows juniors to attend a classic closer to home and have a warm-up before the National Classic.

AJSA Leadership Development

- ◆ Summit Conference.
- ◆ Young Canadian Exchange Project — Two members of the AJSA Board attend and learn about international agriculture.
- ◆ Youth Beef Industry Congress (YBIC).

Education

Fall Focus Symposium

- ◆ Held each fall with keynote speakers on livestock genetics, animal breeding, and worldwide beef cattle topics.
- ◆ 2021 Fall Focus is in Denver, Colorado, August 27-31.

Steer Profitability Competition

- ◆ Provide AJSA members exposure to the opportunities and challenges associated with cattle feeding.

Thank You

Thank you to all contributors and donors for your past and future support to further enhance our Foundation.

If you have an interest in fundraising or donating to any of these pillars, contact one the listed Foundation Board Members.

- ◆ The Foundation is a 501(c)(3) corporation.
- ◆ Visit simmental.org/foundation to learn more about the ASF.

Did You Know?

- ◆ In Fiscal Year 2020, a total of \$297,815 was raised from supporters of the American Simmental-Simbrah Foundation (ASF).

The Foundation Auction

- ◆ Donation female auctioned each year at "The One" Sale — \$502,600 has been raised through the Sale.

- ◆ Gala Auction — Held during the NWSS, donated items and trips raised \$41,000 in 2020 to support the four pillars of our Foundation.

Gala Fundraiser

Youth Merit Awards

- ◆ Awards — Bronze, Silver and Gold.
- ◆ Over \$25,000 in scholarships to 16 AJSA members awarded annually.
- ◆ Helps AJSA members continue their college education.

2020 Winners

1. Gold Merit Award Winners
2. Silver Merit Award Winners
3. Bronze Merit Award Winners

EPDs as of 5.4.2021

- "Proclamation has taken the Simmental world by storm for siring added performance and frame with a clean look, sound hoof and excellent carcass value." . . . as noted on Hook Farm's January 22, 2021 Facebook post.
- Arguably, Cowboy Cut's finest son, with an extremely successful career of producing sale topping progeny. The strong demand for his impressive sons during the 2020-21 bull sale seasons is unprecedented!
- Acclaimed as 'Sugar's greatest and most pepotent plus most proven son!
- His first daughters calving this spring are beautiful uddered, broody, gentle and extra valuable!
- Structure, softness and eye appeal is consistent for every calf he sires.
- With substantial data now included, Proclamation has reached a level of genetic prowess that few can match.
- For better dispositions, extra body mass, super sound structure, program impacting multi-trait EPD values and added performance, Proclamation is the sire of choice for 2021 and beyond!

Semen: \$40/unit – Limited Availability!

Available through Allied Genetic Resources, Cattle Visions, Bovine Elite, LLC and APEX Cattle.

EPDs as of 5.4.2021

- Regarded by many as the premier High Road son to sell with stunning genetic values, mass, bone and impeccable structure.
- His astounding \$API puts him in the very highest echelon for profit promotion among all Simmental sires.
- Few purebreds offer this kind of calving ease and birth weight mitigation with big, nearly perfect feet and the kind of bone and substance that so many are looking for.
- Dam already has 4 @107 for Weaning Weight and has produced two, sale featured breeder bulls in a row.
- His predictable calving ease service on bred females will add value, his daughters will make superb cows and his low BW, high MARB and big-numbered \$API sons are destined sale pacesetters!

Semen: \$30/unit

Semen available from Allied Genetic Resources, Cattle Visions, and APEX Cattle.

Sale Dates:
J&C Bull Sale
January 29, 2022
West Point Sale Barn,
West Point Livestock, NE

At J&C Simmentals we believe quality and performance are more important than percentage. We offer quality bulls from purebred to 1/4 blood for both the registered producer as well as the commercial cowman. We guarantee our bulls and feel confident you will find something in the offering that will fit your needs. Our females are fancy, high-performance females that will fit any operation. Stop by anytime and we'll be happy to discuss cattle and the cattle industry with you.

Your herd is covered.

On the ranch, you make decisions using visual appraisal every day. But what about the traits you don't see? That's where NEOGEN's® GGP comes into play. We've loaded the most informative markers and filled in the gaps to provide you with the most complete and powerful seedstock selection tool in the industry.

So, you can be sure those lines in the tag are working overtime for you to provide confidence in selection decisions that help bolster your reputation amongst your herd and customers for generations to come.

GGP's markers have you covered and informed. Leverage GGP today by contacting your breed association or go to genomics.neogen.com/en/ggp-beef

Annual Bull Sale –
February 18, 2022 Creighton, NE
Sandy Acres Simmental is one of Nebraska's premier Simmental operations. More than 40 years of breeding Simmentals with calving ease and growth with maternal excellence. The cow herd is primarily purebred polled Simmental, red and black, with some F1 Simmental-Angus calves and a few full Fleckvieh cows. With high-demand sires, King Pin, Zero Gravity and Deep Rock, the Sandy Acres Simmental herd has some of the most in-demand bulls sold in the plains region.

EDUCATIONAL MARKETING AND AWARENESS

"A superficial interaction yields a superficial response. Crucial to remember when considering ASA's marketing efforts. Some industries and some firms might lend themselves to shallow relationships and half-hearted awareness efforts. The commercial beef business certainly does not. Our members and their customers are anything but shallow. As such, your ASA team constantly strives to generate impactful and evocative educational and promotional pieces that get read, get watched, get clicked and get remembered. We always market with a purpose. That purpose is to innovatively drive profit in the beef business."
 - Chip Kemp, Director of ASA and IGS Commercial and Industry Operations

2) Digital Platforms

- ◆ **Websites include:** Simmental.org, FallFocus.org, JuniorSimmental.org, and InternationalGeneticSolutions.com.
- ◆ **Social Media outlets:** ASA, AJSA, and IGS are on most popular social media platforms.
- ◆ **Digital Programmatic Advertising:** creative application of modern digital advertising tools
- ◆ **Apps:** ASA has apps for both ASA news / announcements and the IGS Feeder Profit Calculator™.
- ◆ **Stock photos and cost-share ads** are available on Simmental.org.
- ◆ **Video marketing** has been greatly enhanced during 2020. Video application crosses the boundaries of all digital platforms. Additionally, appropriate video and audio content has applications in traditional news media outlets.

3) Booths and Presentations

- ◆ 2020 greatly impacted traditional event presence, but ASA remained nimble and organized, and participated in numerous virtual events as speakers, presenters, and invited guests.
- ◆ **Trade show booths** are leveraged at various events nationally and regionally.
- ◆ **Pull up banners** are available upon request and availability for state functions.
- ◆ **Guest presentations and talks by ASA staff** are key to appropriate messaging and connectivity with all three target audiences.

ASA provides a wide array of services relevant to almost anyone in the beef business. Our members are progressive and innovative, and, as a result, they expect ASA services to be equally cutting edge. Our marketing efforts must keep pace and often take on an educational twist, ranging from highlighting the genetic prowess and profit power of SimGenetics to providing awareness of many of the ingenious tools available to all segments of the industry. Our business, and the ever-changing multimedia landscape, necessitates ASA to be nimble and adaptable in marketing efforts.

Target Audiences

- 1) ASA members and their existing customer base**
ASA publications, traditional advertising, and promotional pieces using traditional print and digital platforms.
- 2) Potential members and potential customers**
Specific topic-focused and educational approach using traditional print and increasingly various digital approaches.
- 3) Serious industry influencers**
ASA and IGS promotional events, seminars, invited talks, well-placed articles and ads, and engaging serious drivers of social media.

Stills captured from new videos produced in 2020.

Advertising, Promotion, and Marketing

- 1) Print Media**
 - ◆ National campaign ad slicks and programmatic advertising for ASA magazines, non-ASA national publications, and regional magazines.
 - ◆ Digital ad versions available via state-based cost-share program.
 - ◆ Educational articles leveraged internally and externally to aid in messaging.
 - ◆ Sale books, flyers, *Sire Source*, press releases, etc.

Her Biological Clock is Ticking!

Cumulative Mature Cow Phenotypes and Female Genetics in ASA Database

THE DNA TEST \$20/COW

Adding a DNA test to your decision is like knowing...

- 23 Calfing ease scores
- 23 Birth weights
- 23 Weaning weights
- 15 Threshold carcasses
- Available to all members and commercial members - regardless of breed type or breed makeup.
- Multi-trait reports back cow weights and body condition score (interior \$20 sample).
- Female-only reports
- Collaborative research project with Neogen Genetics.
- Ready call and program for the testing available.

CMP CARCASS MERIT PROGRAM

The American Simmental Association Carcass Merit Program (CMP) is the best industry award demanding and indicative of true merit. The awarding is a reflection of ASA breed improvement for economically relevant carcass traits. Carcass merit programs play an integral part in this process.

Participants receive:

- Best of show award with carcass information
- Free access to top genetic merit data
- Free ASA Carcass Evaluation on your carcass
- Free genotyping on terminal progeny
- Free copy of improvement studies

Receive a Carcass Merit Program test herd today!

Sale Date:

Watch for our consignments to the Stars and Stripes Sale the first Saturday of May, Hummelstown, PA.

Simme Valley Clinicque

JF Milestone x

CLO Sweet Sensation (War Diva)
NY State Fair Grand Champion
Dam was flushed in co-op with
Hudson Pines Farm

Producing stylish, predictable Simmental Cattle that perform in and out of the showing. Show cattle and breeding stock for sale at all times. Bull calves and show steers available through the summer. We strive for Satisfied Customers. Our cattle work for us and their new owners, performing on grass in the summer and hay in the winter.

Visitors Always Welcome

AMERICA'S COW

Simmental, SimAngus™, SimAngus HT, and Simbrah.

Meet America's all-purpose cow – gentle and consistent, with calves that give the heterosis boost commercial cattlemen need to stay profitable.

Simmental cows set the bar for fertility, weaning weights and exceptional calving ease suited to a variety of environments. Simmental cows are adaptable, built to last in heat, fescue or high altitudes.

Maternal Trait Genetic Trends

Purebred Simmental in past 20 years

Simmental genetics bring calving ease, early growth, and cow longevity while keeping feed costs at a minimum.

Breed	Mature Cow Wt.
Hereford	1,419
Angus	1,410
Red Angus	1,409
Simmental	1,404

Source: USDA MARC

\$All Purpose Index (\$API)

predicts cow herd profitability using valuable traits like cow longevity (STAY) and calving ease while keeping pressure on terminal traits.

Compare the profit potential of two Simmental bulls using \$API

- 1 Bull A's \$API = \$120 and Bull B's \$API = \$180
- 2 Breeding 25 females/year
- 3 Used for 5 years

Bull	1 \$API		2 # Females per year		3 # years using the bull		Profit Potential	
A	\$120	X	25	X	5	=	\$15,000	
B	\$180	X	25	X	5	=	\$22,500	
Difference							=	\$7,500

Just like an EPD, compare two bulls to see the expected difference in profit. Bull B is likely to result in direct revenue and expense savings of an additional \$7,500 over the course of five years. Plug in your numbers for 1, 2, and 3 to compare your potential earnings.

MORE MEANS MORE

More carcass weight, live weight, muscle and marbling. More profit.

Simmental calves reliably perform in the feedyard – with better growth, better structure and fewer health problems. Simmental cattle add pounds without sacrificing marbling.

Backed by the most comprehensive beef cattle genetic database, the American Simmental Association offers commercial producers more selection and marketing tools than any other breed association.

All to strengthen your bottom line.

Terminal Trait Genetic Trends

Purebred Simmental in past 20 years

\$Terminal Index (\$TI)

predicts profitability when all calves are harvested.

Trait	Simmental rank compared to other Continental breeds
Marbling	First
Carcass Weight	Second
Back Fat	Second
Post Weaning Gain	First

Source: USDA MARC

Simmental cattle bring marbling and growth without too much fat. Simmental genetics perfectly complement British strengths and weaknesses for an ideal carcass.

Did You Know?

◆ According to the National Association of Animal Breeders, Simmental ranks second for semen sales compared to all other beef breeds, and in recent years, the percentage of semen sold in the US from Simmental bulls has grown by 35%.

◆ \$API increased 27% and \$TI increased 26% in the last 20 years. This translates to an average increased profit of \$3,375 per bull when used to sire replacement heifers and harvesting remaining calves or \$2,000 when all calves are harvested.

Annual Sale: Bull and female production sale 4th Wednesday in February. Open heifers, semen, embryos, flushes, and donor prospects available at all times by private treaty.
Our family is passionate about breeding Simmental cattle that are on the forefront of genetic progress. Tremendous selection pressure is placed upon foot and udder quality, along with calving ease, performance, and carcass traits. Our herd sires and donor dams are some of the most well known and heavily used genetics in the upper Midwest. Please feel free to stop in at any time to view the cowherd or call and talk "Simmental".

Sale Date:

24th Annual Bull Sale
February 11, 2022, Rugby, ND

Bata Brothers Simmentals is a family-run operation in NE North Dakota that consists of Joe and his sons, Mark and Chris. Together we maintain an entirely Purebred Simmental herd of both red and black cows. Our focus is on producing high-performance, growth-oriented cattle that will add pounds and increase profitability for our customers. Our 25th annual bull sale will be held in Rugby, ND, with sale partner Travis Bell. We sell powerful breed-leading bulls and a select group of bred heifers annually. Feel free to contact us any time.

North Dakota Simmental Association

Still committed to the aims and objectives that started the Association in 1971.

- The development and promotion of the Simmental breed of cattle in North Dakota.
- Show how the Simmental breed can make an important contribution to the cattle industry in North Dakota.

Bull and Female Sale
January 28, 2022

Terry Ellingson and father, Trueman, began Ellingson Simmentals in 1990 with the purchase of foundation females from Kenner Simmentals of Leeds and Marvin Ritz of Almont. Through use of embryo transfer and artificial insemination, the herd has grown to 150 brood cows of both black and red color. The goal has always been to produce high-performance cattle with calving ease, high carcass traits and functional females. Sires that have had national impact on the breed include Black Perfector, Olie, Ideal, Klondike and Dominator. Our farm is located in northeastern North Dakota between Grand Forks and Devils Lake, just 10 miles north of Highway 2. Please stop by whenever you would like to inspect our breed-improving genetics!

Annual Sale:
Bull and female production sale
1st Wednesday in February. Semen,
embryos, and flushes available at
all times by private treaty.

We are passionate about Simmental cattle and thrive on the advancement of this breed. We tirelessly work to create genetics that offer breed leading EPD profiles, structural integrity, and the PERFORMANCE that have made Simmental cattle so popular. We may be a little biased, but we believe Simmentals CAN do it all!

ASA PUBLICATION, INC.

The official publisher for the
American Simmental Association

Linking Simmental Genetics to the Beef Business!

Back in 1987, when the American Simmental Association decided to bring its official magazine in-house, the staff was given a mission: "to provide communication, education, and information" to the membership.

First, under the banner of *the Register*, and later when *SimTalk*, and, for a time, *American Simbrah*, were added under the larger umbrella of ASA Publication, Inc., the editorial and advertising staff has upheld the original mission.

Today, numerous other responsibilities have been added, including an Annual Report, a Breeder's Directory, *Sire Source*, sale catalogs, press releases, and web marketing, among many others.

Communication

- ◆ ASA's magazines, *the Register* and *SimTalk*, keep members up-to-date up-to-date on industry events, fellow breeders' sales, and state association events, while also allowing members the opportunity to communicate their events.

Education

- ◆ ASA taps into the rich knowledge of the staff by creating educational articles, and gives members access to additional educational resources through a variety of platforms ranging from print to social media.

Information

- ◆ Keeping abreast of industry news, the state of SimGenetics in the marketplace, and having a source for accurate information is important for producers. ASA Publication is committed to providing up-to-date industry news and information.

An Effective Outlet for Advertisers

With the increasing demand for SimGenetics, now is the perfect time to create a specific marketing plan to access the growing number of breeders and potential customers. ASA Publication, Inc., has all of the resources to help you create an effective marketing strategy.

Advertising with ASA provides added value beyond the ad. Your sale date will be published in *the Register* and *SimTalk* Date Books; on simmental.org; and sales reports with averages, high-sellers, and up to four photos printed in *the Register*.

the Register

Serving as ASA's official publication, *the Register* has a circulation of 7,500 and focuses primarily on the active membership. Mailed nine times annually, *the Register* provides a direct and consistent line of communication to the ASA membership in a glossy, full-color format.

SimTalk

SimTalk, a glossy, full-color publication, is published four times annually, and has a circulation of over 40,000. With a focus on the Simmental breed's role in the commercial industry, each issue of *SimTalk* finds its way to commercial cow-calf producers, feedlots, and much more.

ASA Membership Directory

Increase your brand recognition and introduce your program to thousands by advertising in the ASA Membership Directory, mailed annually in June. Breeders reference this publication year-round and new buyers use it to get into the Simmental business. Thousands more are handed out each year to your potential customers at trade shows and Simmental events.

Date Book

Listing of sales by month. Printed in each issue of *the Register* and *SimTalk*. No charge, no requirements.

Mailing Lists

Whether you are mailing a sale catalog or one of our specially designed promotional products, we can help you obtain a custom mailing list that specifically targets your ideal demographic.

Sales Call

If you have recently advertised in *the Register* or *SimTalk*, you are automatically included in Sales Call prior to your sale. Broadcast to over 7,200 subscribers, Sales Call announces the date of your sale, and provides a link to your catalog or website.

Incredibly Affordable Full-Color Catalogs

With direct access to ASA's database, our design team can provide quick and efficient catalog services. Contact Nancy Chesterfield for a free quote on our low-cost, full-color printing options.

Web Marketing

eBlast — Get the word out about your upcoming event by emailing over 6,000 ASA members and subscribers. This is ASA's most popular form of web promotion and is an affordable, effective option.

Banner ad — Place your ad on the home page of Simmental.org, Sales Call, in our phone app (SimmApp), or in weekly editions of ASA's eNews.

Additional Services

Our experienced design staff can assist you in developing any form of creative printed promotion. Products we can produce include

- ◆ State directories
- ◆ Flyers
- ◆ Postcards
- ◆ Logos
- ◆ Business cards
- ◆ Printed catalogs
- ◆ eBlast ads
- ◆ Website development and hosting
- ◆ Brochures
- ◆ Photo retouching
- ◆ Booths
- ◆ Downloadable PDFs
- ◆ Banners
- ◆ Posters
- ◆ Online catalog flipbooks

Transfer Services

Here's how it works: We provide a simple spreadsheet that contains all of the sale lots. Following the sale, return the completed spreadsheet to ASA. All we need is a record of the buyer number(s) on each lot and a list of your buyers. We'll handle it from there, matching buyer information to ASA memberships, and completing the transfers.

- ◆ It saves you time and postage when we complete the transfers online.
- ◆ Owner of record is updated immediately. As soon as you give the green light, we can mail the certificates directly to the new owners or send them to you.
- ◆ Saves you the hassle of dealing with the paper certificates.

Sire Source

This directory is designed to assist in the promotion of semen sales of quality Simmental, SimAngus™, Simbrah, and other breed bulls. This directory is mailed each spring to every ASA member to target potential clients at the height of the semen sales season. Thousands more are handed out at trade shows and industry events, and carried by ASA SimSpecialists throughout the year. We also offer the opportunity to promote additional sires in the online version of *Sire Source* any time during the next year. Promoting your bull in the online version opens huge marketing avenues for you.

Here's what you get

- ◆ Instant access through online *Sire Source* catalog.
- ◆ Print version.
- ◆ Discount on a full- or half-page ad in *the Register* or *SimTalk* any time during the online post.

Sale Date:
37th Annual Sale
Friday, February 11, 2022
New Location:
Shanon & Gabriel's Ranch, Lehr, ND
Your commercial bull headquarters,
*along with breed-leading herd sires! All
backed by the TNT 100% guarantee!
No creep feed! We invite everyone to
come to the ranch to view the cattle
and see the way we manage our herd.
We are very proud of our cattle, and
feel you will be proud of "The Explosive
Difference" they will make for you. I
truly have a passion for this business,
and love breeding cattle and the never
ending pursuit to try to make them
better. One of our greatest blessings
over the past 36 years is the wonderful
people we have met, and the dear
friends we have made in this business.*

SERIOUS INQUIRIES ***ONLY***

- Data-hungry commercial operation
- Ability to sire identify calves
- Committed to cattle feeding and gathering carcass data
- Willingness to go farther and faster than the rest

Want a **\$60** premium for each carcass record? Want access to cutting-edge genetics to build your steers and replacement heifers — at no cost? Consider becoming an elite ASA Carcass Merit Herd.

**Finally, your efforts
find their reward.**

Progress Through Performance

Sets the industry standard for genetic evaluation inclusion at the major beef cattle shows in the US today.

The American Simmental Association's Progress Through Performance (PTP) program reflects an industry reality that producers routinely balance between phenotypic evaluation and scientifically proven, industry-relevant EPD and indexes.

The rigorous selection process for PTP judges takes place a year and a half before the shows in which they will participate. In order to find the most qualified judges, six ASA member delegates each create a ranked list of ten judges. From that pool of 60 judges, the top-ranked 30 are reviewed and then approved by the ASA's Activities and Events (A&E) Committee and ASA Board of Trustees. The approved list of 30 judges is finally sent to the appropriate parties who will host the AJSA National Classic and the Major PTP shows. First selection of judges goes to the AJSA Board for the AJSA National Classic, and then the associations hosting the Major PTP shows in order of occurrence. Every year, all approved judges are highly esteemed cattle evaluators. Before each show, they are provided with EPD and indexes on each class.

The list of PTP-approved judges, the PTP judge nomination process, and pertinent PTP show information can be found at simmental.org. The A&E Committee and ASA staff consistently monitor the PTP program and are constantly in search of methods to enhance and elevate the program. In the coming year, PTP will continue to provide strategic opportunities to hone the program and its alignment with ASA mission and membership interests.

ASA Ring of Champions

The ASA's PTP Ring of Champions program recognized the most successful SimGenetics show cattle exhibited at the Major PTP shows for the 2020-2021 show season: American Royal, North American International Livestock Exposition, Cattlemen's Congress, and Dixie National Livestock Show. Awarded divisions recognize the Champion, Reserve Champion, and Honorable Mention show cattle of the year. The categories are Purebred Bull, Purebred Female, Percentage Bull and Percentage Female. After awarding points for placings in classes, divisions, and grand and reserve championships, the highest point earners are crowned as royalty in the ASA Ring of Champions after the last show of the season. Finally, in the 2020-2021 show season, the A&E Committee decided to replace the Exhibitor's Choice award with a People's Choice recognition. Here, the exhibitors and spectators are given the opportunity to vote for their favorite animals of each show. Like the other awards, the top voted animals are recognized as the People's Choice Show Bull and Female of the Year.

ASA RING OF CHAMPIONS

2020-2021 Ring of Champions Royalty

Ring of Champions recognizes the best of the best that compete in the PTP Majors, crowning 14 elite show animals of the year.

Fort Worth Stock Show

January 30, 2022
www.fwssr.com

Note: This is the National Show for the 2021-2022 Show Season.

The American Simmental Association is proud to sanction high-quality purebred, percentage and Simbrah Progress Through Performance (PTP) shows throughout the country. The PTP program is designed to promote multi-level progress within the SimGenetics industry. PTP shows effectively combine the assessment of statistical data, such as EPD and actual measurements, with traditional phenotype evaluation.

PTP Judges

PTP approved judges have been deemed as respectable and knowledgeable cattle evaluators by the ASA Board of Trustees Activities & Events (A&E) Committee. Each year the A&E Committee inspects the list of approved judges and makes modifications when necessary. View the PTP approved judges list at: www.simmental.org.

Sales Call

A bi-monthly
electronic announcement
of upcoming sales for
ASA Publication advertisers.

If you have recently advertised in ***the Register*** or ***SimTalk***, you are automatically included in **Sales Call** for the month prior to your sale. It is broadcast to over 7,500 subscribers. **Sales Call** announces the name and date of your sale, and provides a link to your sale catalog or website.

Consider this advertising package to promote your sale.

Contact:

Nancy Chesterfield
406-587-2778
nchesterfield@simmgene.com

Price: \$2,000

- ◆ One-year business card ad placement in *the Register* or *SimTalk*.
- ◆ One eBlast announcement prior to your sale.
- ◆ Two full-page ads in *the Register* or *SimTalk*.
- ◆ Link your sale to website.
- ◆ Sale announcement in **Sales Call** prior to your sale.
- ◆ Must purchase package in advance of your sale — ads can be placed throughout the fiscal year.
- ◆ Package can be modified.

QUICK REFERENCE GUIDE

ASA EPD AND \$INDEXES

Expected Progeny Differences (EPD)

EPD are the most accurate and effective tool available for comparing genetic levels. In using EPD, the difference between two sires' EPD represents the unit difference expected in the performance of their progeny. For example, if sires A and B have EPD of +10 and -5, a 15-unit difference would be expected in their progeny (moving from -5 to +10 yields 15 units). Key to using EPD is knowing what units they are expressed in. If the above case referred to weaning weight EPD, Sire A would be expected to sire 15 pounds more weaning weight than Sire B. If calving ease were the trait, A would be expected to sire 15 percent more unassisted births in first-calf heifers; in other words, if Sire B sired 30 calves requiring calving assistance in a group of 100 heifers, we'd expect Sire A to require 15 assists. A percentile-ranking chart is required to determine where a bull's EPD rank him relative to other bulls in the breed. For percentile rankings or more detailed information about EPD and \$Indexes, visit www.simmental.org, then click Percentile Tables under the Animal Registration/Herdbook tab.

Units of ASA's EPD and \$Index

All-Purpose Index (\$API): Dollars per cow exposed under an all-purpose-sire scenario. (See right for more details).

Average Daily Gain (ADG): Pounds of post-weaning daily weight gain.

Backfat (BF): Inches of backfat at 475 days.

Birth Weight (BW): Pounds of birth weight.

Calving Ease (CE): Percent of unassisted births when used on heifers.

Carcass Weight (CW): Pounds of carcass weight at 475 days.

Docility (DOC): Percent of offspring receiving a disposition score of 1 (docile).

Marbling (MRB): Marbling score at 475 days.

Maternal Calving Ease (MCE): Percent of unassisted births in first-calving daughters.

Maternal Weaning Weight (MWW): Pounds of weaning weight due to milk and growth.

Milk (MLK): Pounds of weaning weight due to milk.

Ribeye Area (REA): Square inches of ribeye.

Stayability (STAY): Percentage of daughters remaining in the cow herd at six years of age.

Terminal Index (\$TI): Dollars per cow exposed under a terminal-sire scenario. (See right for more details).

Weaning Weight (WW): Pounds of weaning weight.

Yearling Weight (YW): Pounds of yearling weight.

Yield Grade (YG): Yield grade score at 475 days.

\$Indexes

Though EPD allow for the comparison of genetic levels for many economically important traits, they only provide a piece of the economic puzzle. That's where \$Indexes come in. Through well-conceived, rigorous mathematical computation, \$Indexes blend EPD and economics to estimate an animal's overall impact on your cow herd enterprise. The same technology that led to the dramatic progress in swine, poultry, and dairy genetics over the last several decades was used to develop the following \$Indexes:

All-Purpose Index (\$API)

Evaluates sires for use on the entire cow herd (bred to both Angus first-calf heifers and mature cows) with the portion of their daughters required to maintain herd size retained and the remaining heifers and steers put on feed and sold grade and yield.

Terminal Index (\$TI)

Evaluates sires for use on mature Angus cows with all offspring put on feed and sold grade and yield.

Using \$API and \$TI

First, determine which index to use; if you're keeping replacements use \$API, if not, \$TI. Then, just as with EPD, zero in on the unit difference between bulls. (As described above, index units are in dollars per cow exposed.) The difference can be used to determine how much a bull is worth compared to another. Or, put another way, how much you can pay for one bull compared to another (see chart below).

\$All Purpose Index (\$API)

Predicts cow herd profitability using valuable traits like cow longevity (STAY) and calving ease while keeping pressure on terminal traits.

Compare the profit potential of two Simmental bulls using \$API

- 1 Bull A's \$API = \$120 and Bull B's \$API = \$180
- 2 Breeding 25 females/year
- 3 Used for 5 years

Bull	1 \$API		2 # Females per year		3 # years using the bull		Profit Potential
A	\$120	X	25	X	5	=	\$15,000
B	\$180	X	25	X	5	=	\$22,500
						Difference	= \$7,500

Just like an EPD, compare two bulls to see the expected difference in profit. Bull B is likely to result in direct revenue and expense savings of an additional \$7,500 over the course of five years. Plug in your numbers for 1, 2, and 3 to compare your potential earnings.

Important disclaimer:

DO NOT compare index values of purebreds of different breeds, hybrids of different breed composition or purebreds with hybrids. Our system was not developed to make valid comparison among these groups. Therefore, you must first determine the breed and breed composition appropriate for your herd and use index values to compare animals within that population.

Annual Production Sale
February 2022

Hart Simmentals is located in beautiful Frederick, and is a fourth-generation performance-driven purebred Simmental seedstock operation. Hart Simmentals focuses on exceptional maternal traits, stemming from over 50 years of scrutinizing superior matings that possess the most elite genetics in the industry while meeting the increasing demands of excellence that is sought out yearly by seedstock producers and the ever-widening commercial cattle industry! Our family has a passion and a true love of breeding the finest quality genetics and have a never-ending pursuit to make great cattle greater. Stop out to the farm anytime for a tour and a visit! And don't forget to visit with Travis about our new semen line-up and your semen needs.

7th Annual ASA Fall Focus 2021

Focus on You.
Focus on Success.
Focus on Profit.

August 27-31, 2021
Denver, Colorado

Co-hosted by the

www.coloradosimmental.com

 **SimGenetics**
PROFIT THROUGH SCIENCE
American Simmental Association
www.simmental.org

Registration Information

There is no registration fee; however, pre-registration is required to plan for meals and refreshments. Register and book your hotel rooms at

www.fallfocus.org

Schedule

Friday, August 27

Tour National Western Stock Show (NWSS), cattle display, and foot/leg scoring demonstration.

Late afternoon and evening

Come see the progress made to the NWSS renovation. The NWSS is providing guided tours limited to our Fall Focus event. The Colorado Simmental Association is planning cattle displays at the grounds and the ASA will have live foot and leg scoring demonstrations. Come hungry as the Colorado Simmental Association is arranging a delicious BBQ dinner.

Saturday, August 28

Educational session at the DoubleTree

Join us for a day packed with educational sessions, featuring talks from Denver Nuggets' operations associate Jonathan Wallace; Colorado State University faculty animal breeding and PAP research team Drs. Tim Holt, Milt Thomas, Mark Enns, and Scott Speidel; voices from local feedlot industry and packers; and effective communication with the general public about animal agriculture from Dr. Alison Van Eenennaam.

Speakers include:

Mr. Jonathan Wallace, Denver Nuggets
Dr. Tim Holt, Colorado State University
Dr. Milt Thomas, Colorado State University
Dr. Mark Enns, Colorado State University
Dr. Scott Speidel, Colorado State University
Dr. Alison Van Eenennaam, University of California–Davis
Various ASA Staff

Watch for a detailed agenda on fallfocus.org and in the July/August issue of *the Register*.

Evening meal and social

at the DoubleTree with a celebration of last year's Golden Book Award recipients and outgoing ASA trustees.

Sunday, August 29

Interactive committee meetings and staff presentations

Join the ASA trustees to discuss critical issues in each of the five standing committees and hear staff reports in various areas.

Lunch and dinner will be provided for those who register.

Monday, August 30

Board meeting continues

All are invited to stay

Lunch provided

Tuesday, August 31

Board meeting continues

Voting on resolutions and directives

Hotel Information

DoubleTree, 3203 Quebec Street (Headquarters)

The main meetings and conference headquarters are set at the DoubleTree. A block of rooms is reserved for August 26–31. Mention Group Name: American Simmental Member Block or Group Code:ASM. The special room rate will be available until August 1 or until the group block is sold out, whichever comes first.

Area Information

Fall Focus is headquartered at the DoubleTree, 3203 Quebec Street in Denver, which many of us call home during the National Western Stock Show and ASA Annual Meeting. In this metropolis at the front of the Rocky Mountain Range, local attractions range from shopping and fine dining to hiking and fishing or taking in the Denver Zoo or Denver Art Museum.

There are several quality seedstock breeders in Colorado, adding to the promise that this will be a Fall Focus to remember.

We will have full access to the ballrooms to ensure plenty of space for attendees. Additional safety precautions will be updated as the event progresses.

Denver Zoo

Denver Art Museum

Red Rocks Park and Amphitheatre

Questions about Fall Focus?

**Contact: Nancy Chesterfield at 406-587-2778
or Jackie Atkins at 406-587-4531**

Sale Date:
"King of the Range" Bull Sale –
Thursday, February 3, 2022

If you are trying to rebuild an aging cowherd, expanding an existing herd or simply trying to maximize pounds in a terminal program the option with Simmental or SimAngus™ are proven! We have tried to deliver genetics that will help in any direction you might be headed.

We are enrolled in Total Herd Enrollment (THE) and every animal in our herd has data turned in for birth weight, weaning weight, yearling weight and hip height. We take great pride in the data collection process and rest assured all the data is getting turned in.

Bulls and heifers are available for viewing at the ranch anytime, call or just stop by! If we can be of any help please give us a shout and thank you for taking the time to look thru our offering.

Private Treaty Bull Sale beginning February 1. Catalog will be posted to our website, or contact us to be sent by mail.

Semen always for sale.

S/M Fleckvieh Cattle is a select program of Fullblood Fleckvieh Simmental cattle. After four decades of selective breeding and rigorous selection, most of our herd is now polled. The majority of bulls we offer are polled Fullblood Fleckvieh bulls – with all the quality, soundness and power bred in that we have come to expect from Fullblood Fleckvieh cattle.

Celebrating 50 Years of Simmental Genetics

ASA 5390

Since 1971

Join us at the farm Saturday, September 25 for The Seedstock Connection Sale. We are celebrating 50 YEARS of Simmental genetics in our program, and we're excited to share our vision for the next fifty with our friends, allies, and valued partners. We hope you will be our guest.

BTR TOM BROTHERS RANCH

Consistently Doing The Next Right Thing

Texas's largest source for black SimGenetics.

For six generations the goal of our breeding program has been to continually improve the cattle from pasture to plate and provide customers with an enjoyable and profitable experience from our efforts.

Consistently doing the next right thing is embracing technology, accurate data collection and reporting, environmental stewardship, and a customer-centric breeding program.

We invite you to visit our website or even better plan a trip to south Texas and spend some time in the brush country evaluating our Simmental, SimAngus™, and Simbrah cattle.

ALLIED Generations of commitment to the land, cattle and people.

7P Ranch

Cattle You Can Depend On

Committed

For close to 50 years, we have been one of the largest breeders in the southern United States to produce Simmental and Simmental-influenced cattle

Practical

Our breeding program and our management program is focused on quality cattle for practical cattlemen. Our cowherd is made up of cows that are fertile, productive and raise a good calf every year. They are the kind of cows you can turn out and expect them to do their job in a real world environment.

Progressive

Over the years, our breeding program has involved extensive A.I. (70% of our 600+ head cowherd are A.I. sired) while utilizing breed leading proven genetics. By doing this we build pedigrees in our cattle that you can depend on year after year.

For cattle from a committed, practical, progressive program, Join us at our upcoming sales at the ranch, Tyler, Texas

the Register

Serving as ASA's official publication, *the Register* has a circulation of 7,500 and focuses primarily on the active membership. Mailed nine times annually, *the Register* provides a direct and consistent line of communication to the ASA membership in a glossy, full-color format.

Circulation — 7,500 +

Sire Source

This directory is designed to assist in the promotion of semen sales of quality Simmental, SimAngus™, Simbrah, and other breed bulls. This directory is mailed each spring to every ASA member to target potential clients at the height of the semen sales season. Thousands more are handed out at trade shows and industry events, and carried by ASA SimSpecialists throughout the year. We also offer the opportunity to promote additional sires in the online version of Sire Source any time during the next year. Promoting your bull in the online version opens huge marketing avenues for you.

Circulation — 9,500 +

SimTalk

SimTalk, a glossy, full-color publication, is published four times annually, and has a circulation of over 40,000. With a focus on the Simmental breed's role in the commercial industry, each issue of *SimTalk* finds its way to commercial cow-calf producers, feedlots, and much more.

Circulation — 40,000 +

ASA Membership Directory

Increase your brand recognition and introduce your program to thousands by advertising in the ASA Membership Directory, mailed annually in June. Breeders reference this publication year-round and new buyers use it to get into the Simmental business. Thousands more are handed out each year to your potential customers at trade shows and Simmental events.

Here's what you get

- ◆ Instant access through online *Sire Source* catalog.
- ◆ Print version.
- ◆ Discount on a full- or half-page ad in *the Register* or the *SimTalk* any time during the online post.

The Official Publisher for the American Simmental Association

Linking Simmental Genetics to the Beef Business!

Back in 1987, when the American Simmental Association decided to bring its official magazine in-house, the staff was given a mission: "to provide communication, education, and information" to the membership.

First, under the banner of *the Register*, and later when *SimTalk*, and, for a time, *American Simbrah*, were added under the larger umbrella of ASA Publication, Inc., the editorial and advertising staff has upheld the original mission.

Today, numerous other responsibilities have been added, including an Annual Report, a Breeder's Directory, *Sire Source*, sale catalogs, press releases, and web marketing, among many others.

Communication

◆ ASA's magazines, *the Register* and *SimTalk*, keep members up-to-date on industry events, fellow breeders' sales, and state association events, while also allowing members the opportunity to communicate their events.

Education

◆ ASA taps into the rich knowledge of the staff by creating educational articles, and gives members access to additional educational resources through a variety of platforms ranging from print to social media.

Information

◆ Keeping abreast of industry news, the state of SimGenetics in the marketplace, and having a source for accurate information is important for producers. ASA Publication, Inc., is committed to providing up-to-date industry news and information.

An Effective Outlet for Advertisers

With the increasing demand for SimGenetics, now is the perfect time to create a specific marketing plan to access the growing number of breeders and potential customers. ASA Publication, Inc., has all of the resources to help you create an effective marketing strategy.

Advertising with ASA provides added value beyond the ad. Your sale date will be published in *the Register* and *SimTalk* Date Books; on simmental.org; and sales reports with averages, high-sellers, and up to four photos printed in *the Register*.

Date Book

Listing of sales by month. Printed in each issue of *the Register* and *SimTalk*. No charge, no requirements.

Mailing Lists

Whether you are mailing a sale catalog or one of our specially designed promotional products, we can help you obtain a custom mailing list that specifically targets your ideal demographic.

Sales Call

If you have recently advertised in the *Register* or *SimTalk*, you are automatically included in Sales Call prior to your sale. Broadcast to over 7,200 subscribers, Sales Call announces the date of your sale, and provides a link to your catalog or website.

Incredibly Affordable Full-Color Catalogs

With direct access to ASA's database, our design team can provide quick and efficient catalog services. Contact Nancy Chesterfield for a free quote on our low-cost, full-color printing options.

Web Marketing

eBlast

Get the word out about your upcoming event by emailing over 6,000 ASA members and subscribers. This is ASA's most popular form of web promotion and is an affordable, effective option.

Banner ad

Place your ad on the home page of Simmental.org, Sales Call, in our phone app (SimmApp), or in weekly editions of ASA's eNews.

Additional Services

Our experienced design staff can assist you in developing any form of creative printed promotion. Products we can produce include

- ◆ State directories
- ◆ Flyers
- ◆ Postcards
- ◆ Logos
- ◆ Business cards
- ◆ Printed catalogs
- ◆ eBlast ads
- ◆ Website development and hosting
- ◆ Brochures
- ◆ Photo retouching
- ◆ Booths
- ◆ Downloadable PDFs
- ◆ Banners
- ◆ Posters
- ◆ Online catalog flipbooks

Transfer Services

Here's how it works

We provide a simple spreadsheet that contains all of the sale lots. Following the sale, return the completed spreadsheet to ASA. All we need is a record of the buyer number(s) on each lot and a list of your buyers. We'll handle it from there, matching buyer information to ASA memberships, and completing the transfers.

- ◆ It saves you time and postage when we complete the transfers online.
- ◆ Owner of record is updated immediately. As soon as you give the green light, we can mail the certificates directly to the new owners or send them to you.
- ◆ Saves you the hassle of dealing with the paper certificates.

Committed to producing high-quality
cattle with a show look in real
world function.

PERFORMANCE ADVOCATE PROGRAM

If you participate in Total Herd Enrollment, you could qualify as a Performance Advocate

For over a decade, the Performance Advocate program has recognized cattle producers who remain committed to data reporting. The 2021 program marks the second year with new guidelines to identify top-notch data reporting that fuels ASA's genetic evaluation.

Focused on submitting records on at least 90% of the contemporary group, a Dedicated Performance Advocate submits records on at least 8 of the 14 traits and a Driven Performance Advocate submits records on at least 10 of the 14 traits.

Performance Advocates will be listed in the Late Fall issue of *SimTalk* for the fall 2019 and spring 2020 calf crops. These herds achieved the benchmark of being highly driven to data recording and reporting to ensure the most accurate prediction on their herd from the genetic evaluation to make more informed selection decisions for themselves and their customers.

- Fine tune the genetic differences in each calf crop.
- Make better selection decisions, faster.
- Submit calving and dam records.
- Be a Performance Advocate and get recognized.

Traits Reported to ASA:

- ◆ Calving ease
- ◆ Birth weight
- ◆ Weaning weight
- ◆ Yearling weight
- ◆ Yearling hip height
- ◆ Ultrasound/Carcass
- ◆ Docility scores
- ◆ Genomic test on birth group
- ◆ Foot and leg score
- ◆ Mature cow weight
- ◆ Mature cow body condition or mature cow hip height
- ◆ Cow herd genomics
- ◆ Udder score
- ◆ Feed intake data (coming soon)

Are you already in Total Herd Enrollment?

Go to simmental.org to learn more about submitting your data to qualify as a Performance Advocate. All the data for fall 2019 and spring 2020 calf crops must be in by August 1.

FEMALES FIRST

 **SimGenetics**
PROFIT THROUGH SCIENCE
American Simmental Association

The **Simmental** female can handle any environment.

She's built to last in heat, fescue or high altitudes. And thanks to the breed's built-in adaptability, you can match Simmental genetics to your environment – **SimAngus™**, **SimAngus HT**, **Simbrah** or proven Simmental genetics.

Longer-lasting replacement heifers – gentle and consistent, with calves that give the heterosis boost commercial cattlemen need to stay profitable.

Sale Date:

Annual Bull Sale and Open House,
November 13, 2021 at the farm.

MEETING YOUR NEEDS as a genetic provider of quality bulls and heifers is important to us. We strive to raise Simmental and SimAngus™ bulls that will improve your herd and make you money. We have calving ease and power bull options and combination bulls too to fit your herd production goals. The heifers are bred to make great cows and we also have some nice show heifers each year. Feel free to contact us for any of your cattle needs or to discuss the Simmental breed.

WSA Midwest Fall Round-Up Sale
SC Online Sales

2022

March

26-27

WSA Annual Meeting and Spring Spectacular
Sale Weekend
Grant County Fairgrounds, Lancaster, WI

Junior Purchase Credit Incentive Program

- Juniors purchasing heifers, steers or embryos at a WSA sanctioned sale will now be eligible to receive credit toward their next purchase of an animal and/or embryos at future WSA sanctioned sales or utilize earned show credits, if eligible, toward scholarships.
- Juniors must be a member in good standing in either the WJSA or a member of another state cattle association. Any Junior that shows his or her animal at least twice and provides validated proof of purchase and participation in an event with the animal that was purchased at a WSA sanctioned sale shall be eligible for a \$150.00 credit toward their next purchase of an animal from a WSA sanctioned sale. Any Junior in or entering his/her junior year of high school up to their maximum WJSA membership age, with commitment to a post secondary education will be eligible to convert their purchase credits into a scholarship to the school of their choice. Scholarship will be paid upon completion of first semester and proof of enrollment in the following semester.
- The animal is not required to place or win to be eligible.
- Please refer to the WSA/WJSA website for more information.

Opportunity Knocks

**70%
Reduction in
Foundation Animal
Registration Fees
for Fiscal Year 2022**

Starting in July 2021, the ASA will reduce the female-based foundation registration rate of \$17.00 to \$5.00 for the 2022 fiscal year (July 1, 2021, to June 30, 2022). The promotional rate applies to any female cow that is registered with another recognized breed association.

OUR PURPOSE. YOUR PROFIT.

Mission Statement

The success of the American Simmental Association is dependent on our members' cattle making a significant genetic contribution to the beef industry. By utilizing the most advanced science, the highest priority is to maintain services and products which bring value to ASA members' customers.

Core Policies

Science

Commitment to science and development of the most effective selection tools. Advance ASA in the industry.

Membership

Development, registration, and promotion of SimGenetics.

Youth

Support junior programs. Guide the junior membership and their programs to learn life skills, science and use of technology, and financial responsibilities. Involve the Foundation.

Collaboration

Commitment to partnerships with industry leaders and universities to advance research and science. Advancing selection tools, DNA-enhanced EPD, and monitoring genetic defects.

Promotion

Promotion and marketing to enhance our members' market share. Ensure that SimGenetics continues to appeal to the commercial industry.

Data Growth

Offer the most advanced genetic evaluation services with the largest database regardless of breed.

Financial Stability

ASA will maintain sufficient financial reserves to assure leadership in the beef industry, funds for continued research and development, and a thriving breed association.

Services

Offer programs relating to all beef production segments. Be leaders. Step outside traditional practices and offer opportunities for our members to grow in the industry.

Education

For advancement and profit of our members and their customers.

Sale Date:
33rd Annual Bull Power Sale,
Friday, February 18, 2022
at the Ranch
If you're ever in the Southern Alberta region, please feel free to stop by for a visit or a tour! We welcome anybody from anywhere who likes to talk cattle as much as we do! Mader cattle will work for you!

Are you a Progressive Commercial Producer?

Do you use AI, single sire pastures, parent verification?

Do you select replacement heifers?

Do you want genetic predictions on all your females regardless of breed composition?

If the answer is **Yes!** Step into the future and become part of the world's largest genetic evaluation system.

Jack Southworth
Southworth Bros. Inc.
Seneca, OR

"We like being in ASA's Total Herd Enrollment (THE) option because of the genetic resources and tools that are available to us at a reasonable price point. As seedstock and commercial producers we've always used serious records, but now we're just at a higher level. Combining THE record keeping and ASA's other unique programs has simply provided us a better way to measure how our herd stacks up and to make better mating and heifer selection decisions."

John A. Grande
Grande Ranch Co.
Martinsdale, MT

"ASA's Total Herd Enrollment has provided a valuable tool for improvement of our herd. Probably the largest single benefit has been developing EPDs and indexes on all our females, which has tremendously improved our replacement heifer selection. Making our carcass data easier to report and utilize is a significant benefit as well."

Be progressive and
call today: 406-587-4531

BREED FOR PROFIT

Utilize the #1 Tool to Maximize Genetic Improvement

beef@internationalgeneticsolutions.com
www.internationalgeneticsolutions.com

American Simmental Association

All Purpose Index API

Designed to work best when selecting sires for use in herds that retain replacements and culled females and steers are finished and sold grade and yield.

Uses USDA technology and CattleFax price projections to predict profit differences between sires in units of \$ per exposed female.

ASA establishes API to be the most effective selection tool available to commercial producers working to improve their genetics and ranch profitability.

For more detailed information on API, visit: www.simmental.org

ALL PURPOSE MORE PROFIT

 **SimGenetics**
PROFIT THROUGH SCIENCE
American Simmental Association

The **American Simmental Association's \$All Purpose Index (\$API)** predicts cow herd profitability while keeping pressure on terminal traits.

And data from the last two decades show it's working. Better genetics translate to increased profits for bulls used to sire replacement heifers and harvest remaining calves.

Build a herd that works as hard as you do.

Merck Animal Health Intelligence

TSU Matched Pair Sets

Eliminate the hassle of taking blood or hair samples. Allflex Tissue Sampling Units (TSUs) quickly capture clean, high-quality DNA. One squeeze and you're ready for genomics in breeding and marketing. Plus, matched sets of Allflex TSUs, EID tags and custom visual tags make it easier to link performance data to genetics to market demand, authenticating your brand of cattle in the supply chain.

At Allflex® we help you bring it all together.

SimTalk is an 8 1/8 x 10 7/8 inch publication produced by *the Register*, the official publication of the American Simmental Association. Published four times annually, *SimTalk* is a glossy, full-color publication with a circulation that targets commercial users of SimGenetics. Advertising in *SimTalk* provides a unique opportunity to brand and trademark your program to thousands of potential customers. If you are serious about communicating with the commercial beef business, consider an advertising presence in every one of our four annual issues.

Space and four-color rates for *SimTalk*:

SimTalk Deadlines for Publication:

	Sales Close	Ad Materials	Camera Ready	Mail Date
Early Fall 2021	July 23	July 30	Aug 12	Aug 30
Late Fall 2021	Sept 21	Sept 24	Oct 8	Oct 25
January 2022	Dec 3	Dec 10	Dec 17	Jan 12
March 2022	Jan 20	Jan 28	Feb 10	March 2

ASA/*SimTalk* Membership Directory 2022 Deadlines for Publication:

	May 2	May 10	May 25	June 15

Send all ad materials to: register@simmgene.com or Fax: 406-587-9301

A non-refundable fee of \$50.00 will be assessed if a client does not meet deadlines or if the client commits to advertising and cancels after the deadline or if the ad must be dropped to ensure on time publication.

Advertising materials (including photos) must be in *SimTalk* office by the dates listed above. *SimTalk*, which mails by bulk rate, assumes no responsibility for actual receipt date.

Design Charges

Advertising rates are for camera-ready ads only. Additional design charges will apply to any ad that is designed by ASA Publication, Inc.

Layouts & Proofs

Although every effort will be made to provide proofs on all ads, if all ad material arrive in the *SimTalk* office prior to the deadline and a correct email address or fax number is provided.

Terms

All accounts are due and payable when invoiced. Interest charges of 1.5 percent per month (18 percent APR) will be added to accounts 30 days past due. If an account becomes 60 days delinquent, all ASA Publication, Inc. work may be suspended until full payment is made. After review by the ASA Executive Committee, ASA privileges may be denied to those with accounts over 90 days delinquent.

Advertising Content

SimTalk and its staff assume no responsibility or obligation to verify the accuracy and truthfulness of advertising copy submitted to *SimTalk*. However, *SimTalk* reserves the right to reject any advertising copy or photo which *SimTalk* deems unsuitable for publication for any reason, including copy or photographs which are false or misleading. *SimTalk* assumes no responsibility for the accuracy and truthfulness of submitted print ready ads. Advertisers shall indemnify and hold harmless *SimTalk* for any claims concerning advertising content as submitted. Advertising containing pedigrees or statements regarding performance must conform to records kept by the American Simmental Association. Copy deviating from official records may be changed as necessary without advertiser consent.

Editorial Policy

Opinions expressed are the writers' and not necessarily those of *SimTalk*. Photographs are welcome, but no responsibility is assumed for material while in transit or while in the office.

Subscriptions

- Domestic \$50/year
- First Class \$100/year
- All International \$150/year (US)

NO LIGHTWEIGHTS

 **SimGenetics**
PROFIT THROUGH SCIENCE
American Simmental Association

Simmental calves are champions of the scale.

They reliably outperform straightbred calves in the feedyard – with better growth, better structure and fewer health problems.

They add pounds without sacrificing marbling, and they earn more with the **IGS Feeder Profit Calculator**,SM which factors genetics, health and management into true value.

Want low-risk, high-potential calves with earning capability?

EDUCATION

Steer Profitability Competition | Fall Focus Symposium

4

GENERAL

Will go toward the programs with the greatest need.

ASF MISSION STATEMENT

The purpose of the Foundation is to encourage, by public or private contribution, support or worthwhile education and charitable projects that are of interest and benefit to devotees of the American Simmental Association. Further to receive, maintain, use and apply donated funds for such purposes; and to implement such educational and charitable projects.

VISION STATEMENT

Serving youth, education, and research for today and future development of the American Simmental Association, the beef industry, and ASA's membership.
